

Impressed With Visit To Northern BC Town

One of the most amazing towns I have ever visited — was the way Roy Smallman described Fort St. John, sometimes referred to as "The Booming Buckaroo of the Peace". Mr. Smallman returned from a trip to the west yesterday.

Situated 500 miles in a North Westerly direction from Edmonton, Fort St. John has advanced from a population of 851 in 1951 to about 7,000 today with another 3,000 on the immediate outskirts. The reason for the sudden boom — the discovery of oil and gas — plus the fact that the town is situated in the most fertile part of the Peace River Valley.

ROY SMALLMAN

Mr. Smallman left Charlottetown about a month ago to attend the annual meeting of the Canadian Pharmaceutical Association in Edmonton. After ten days in the Alberta Capital, he went to Fort St. John to visit his sister and brother-in-law, Mr. and Mrs. Kaye Hansen. Mr. Hansen is manager of the local abattoir which happens to be the most northerly meat packing plant in Canada.

Mr. Smallman had a long chat with "Ma" Murray, the editor and owner of the Alaskan News the most northerly published newspaper in Canada. Mrs. Murray's husband was a Member of Parliament and the widow now

Gov't Air Conditioning Unit Is Sold At Bargain

OTTAWA (CP)—The air conditioning unit in the Supreme Court of Canada building here has been sold as scrap for \$255, it was learned Thursday.

The unit — originally costing about \$25,000 — has come under the eye of the public accounts committee in its investigation into spending on the \$16,000,000 government printing bureau in nearby Hull.

Both buildings were designed by architect Ernest Cormier of Montreal, currently a committee witness under fire from Progressive Conservatives. He testified Wednesday night that the unit has not worked because it was "ruined forever" by disuse during the Second World War.

There was no testimony before the committee on what is being done with the machines now, but reporters' inquiries Thursday brought out that it was sold as surplus scrap by Crown Assets Disposal Corporation on gov-

ernment instructions about a year ago.

HIGHEST BID
Louis Richard, president of the corporation that sells off surplus government property, said that \$255 was the highest bid received for the machinery.

Tenders have been called for replacement machinery, but none has been accepted up to now.

Before the committee, architect Cormier denied a Progressive Conservative suggestion that the Supreme Court equipment — whose installation he authorized — was "antiquated."

In the committee Thursday, 72-year-old Mr. Cormier continued wrestling with Progressive Conservative members over their criticisms of the printing bureau building he designed under the previous Liberal administration.

DENIES MISTAKES
He denied suggestions from

R. A. Bell (PC—Carleton) that he had made "mistakes" in the planning of the building.

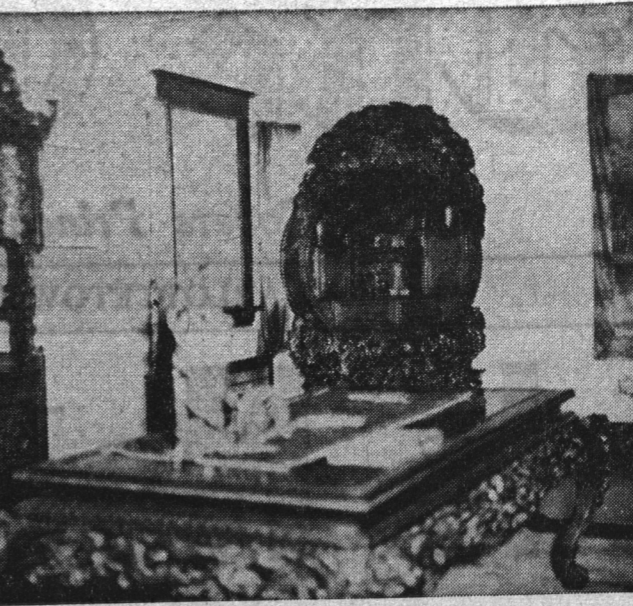

At another point, Mr. Cormier put some blame on the public works department for added costs on the building's powerhouse. While designing the powerhouse, he could not get a final decision from the department on what type equipment was to go in.

Liberals turned out again in full strength at the committee Thursday after a one-day boycott of two of Wednesday's three meetings, when they had claimed that too many committee sessions were impairing members' work in the Commons.

"How long are you going to stay," someone asked Lionel Chevrier (L—Montreal Laurier), former Liberal transport minister.

"Oh, I guess as long as they let us," he joked.

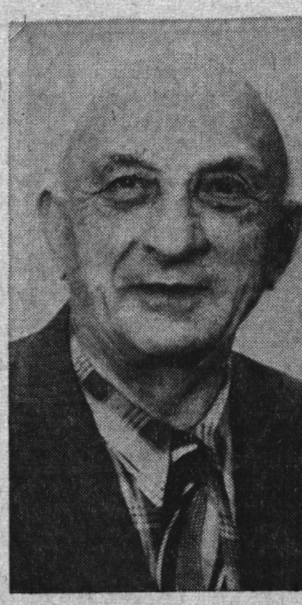

S.D.U. ACQUIRES COLLECTION

St. Dunstan's University has purchased the oriental collection of Dr. Leo Frank, which has been described as the finest collection of oriental furniture in Canada. It was hand carved, using knives, by long-term prisoners, in teak and cherry.

The collection was started by Dr. Frank thirty years ago when he found that the then Consul-General for Japan in Canada, the Hon. Tash Horio had it crated ready to be shipped to Japan. He managed to persuade the diplomat to sell it instead. Dr. Frank added to the collection while travelling in Japan and China on fox business about the time of First World War.

St. Dunstan's has long been interested in collecting examples of works of art of various periods and cultures. At present the collection is on display in the Assembly Hall where it is attracting considerable interest. It is hoped that when the new library is built it will be possible to have a special room for this collection.

DR. LEO FRANK

WEATHER

TORONTO (CP) — Temperatures issued by the weather office:

| | Min. (Night) | Max. (Day) |
|---------------|--------------|------------|
| Dawson | 41 | — |
| Vancouver | 55 | 64 |
| Victoria | 52 | 60 |
| Edmonton | 53 | 64 |
| Calgary | 50 | 63 |
| Regina | 54 | 59 |
| Winnipeg | 45 | 70 |
| Toronto | 56 | 73 |
| Ottawa | 50 | 73 |
| Montreal | 57 | 60 |
| Quebec | 48 | 79 |
| Fredericton | 46 | 56 |
| Saint John | 50 | 73 |
| Moncton | 55 | 75 |
| Halifax | 53 | 72 |
| Charlottetown | 50 | 75 |
| Sydney | 51 | 69 |
| Yarmouth | 50 | 69 |
| St. John's | 53 | 70 |

to 65. Low-high at Halifax 58 and Kentville 55 and 68.

South shore: Overcast with heavy rain beginning in the morning; cooler; winds east 25 shifting in the afternoon to east gales 50 with gusts to 65, but shifting this evening to northwest gales 35 with gusts to 50. Low-high at Yarmouth 55 and 65.

Northern Nova Scotia, Eastern Shore: Overcast with heavy rain beginning in the afternoon; cooler; southerly winds increasing this morning to east 25, and in the early evening to east 25, and 50 with gusts to 65. Low-high at New Glasgow 52 and 68.

Cape Breton: Heavy rain beginning tonight; cooler light variable winds, increasing about noon to east 25 and in the late evening to east gales 50 with gusts to 65. Low-high at Charlottetown 53 and 68.

Eastern N.B. counties: Overcast Friday with intermittent rain beginning this morning; cooler; winds east 25, increasing in the late afternoon to northeast gales 50 with gusts to 65. Low-high at Moncton 50 and 65.

Lower St. John River Valley: Overcast with intermittent rain beginning this morning; cooler; winds 25 shifting in the afternoon to northeast gales 50 with gusts to 65, and shifting in the evening to northwest gales 35 with gusts to 50. Low-high at Fredericton 50 and 67, and Saint John 52 and 70.

Bay of Fundy: Easterly winds 25, increasing about noon to northeast gales 60 with gusts to 75, shifting this evening to northwest gales 50 with gusts to 60; heavy rain; visibility 10 miles, lowering in heavy rain to one-half mile; temperatures in the sixties.

HALIFAX (CP)—The weather office says Hurricane Daisy has been following a path expected to bring the centre of the storm to a point just south of Yarmouth, Nova Scotia, by late this afternoon. Tonight, Daisy is expected to move steadily along the Nova Scotian Atlantic coast.

Easterly gales are expected to begin in the Yarmouth region early this afternoon and increase to about 50 miles an hour with gusts to 65. Gales of that force will spread steadily across all of Nova Scotia, extreme southern New Brunswick and at least eastern Prince Edward Island later today.

Cloudy skies and showers were forecast for northern New Brunswick.

Regional forecasts:
Halifax and Annapolis Valley: Overcast with heavy rain beginning about noon; cooler; winds 25, increasing in the later afternoon to east gales 50 with gusts to 65.

Local Doctor To Head VD Control

Government appointments announced yesterday following a meeting of the Executive Council include that of Dr. Allison Saunders, named director of V.D. control succeeding Dr. L.E. Provost who resigned to act on the Citizen's Hospitalization Committee.

Dr. Saunders is a native of Charlottetown and started practice here this June following seven years of general practice in Louisiana, N.S., and three years post graduate work in Montreal.

Other appointments announced by Premier Matheson were: Mrs. Wilfred Stretch to the Prince Edward Island Libraries; Miss Gail Sheidow, stenographer at Riverside Hospital; Eleanor Stewart, Division of T.B. Control.

Legion Sponsored Montague Clinic Has 144 Blood Donors

For the first three-quarters of an hour of the Red Cross Blood Donor Clinic at the Beaver Club Hall in Montague last night it looked as if the objective of 175 donors was going to be greatly exceeded, but the comparatively few who came during the remainder of the two-hour period, brought the total for the evening to just 144. This was rather disappointing when there had been 206 in attendance at last year's Montague clinic.

Mr. George A. MacCannell, Chairman of the Red Cross Blood Donor Committee for the Montague Legion Branch which again sponsored the Clinic, was ably assisted by representatives of the Legion Auxiliary and the Montague Women's Institute who provided and served refreshments to the donors. Several Montague Nurses and Red Cross High School members also carried out important tasks in connection with this Clinic.

The total of 862 donors registered during the past four days made the province short of its objective by 213 for third series of 1958 Clinics.

Thousands Of Algerians Are Rounded Up In France

PARIS (Reuters) — Thousands of Algerians were rounded up in mass raids throughout France Thursday as the government moved to stamp out Algerian terrorism.

The raids came amid the blowing up of five more gasoline storage tanks near Rouen. Two Algerian nationalists died after setting the bombs in the tank yards — one shot by police, the other trapped by a sea of flaming oil.

After grilling 3,000 Algerians in Paris, 800 in Lyon, and several thousand in other centres, police reported the arrest of 34 Moslems. All were charged with being involved in the current wave of shootings and sabotage.

Four officials of the Algerian nationalist movement FLN were found among the Moslems arrested in Lyon. Three more were caught at Belfort, in eastern France.

Saboteurs struck Thursday at gasoline tanks at Petit-Quevilly, a Rouen suburb. Bombs blew up five storage tanks, starting a blaze which took firemen 15 hours to control. Damage was estimated at 50,000,000 francs (\$12,500,000).

Flames also flared up again Thursday in the Mourioupe air depot, near Marseille, the scene of a spectacular blaze after a terrorist sabotage attack Monday night.

Less Wheat In Storage

OTTAWA (CP) — Canada's wheat carryover July 31 totalled 614,764,000 bushels, down from last year's record 729,500,000, the bureau of statistics reported Wednesday.

Included in this end-of-year surplus was 203,900,000 bushels on farms, down from last year's 319,200,000 but higher than the last 10-year average of 112,300,000.

Total carryover stocks of the five major grains—wheat, oats, barley, rye and flaxseed—were estimated at 903,700,000 bushels, about 19 per cent below last year's 1,120,900,000, but some 62 per cent higher than the 1948-57 10-year average of 557,400,000.

Contractor Sees Russians With Some Good Ideas

TORONTO (CP) — A Canadian contractor said Thursday a long look at Soviet construction methods has led him to believe this country could adopt some of them to advantage.

W. G. Wallis, general manager of Hill-Clark-Francis, Limited, New Liskeard, Ont., who arrived here this week after a 16-day visit to Russia, said:

"Something very much in evidence there was the large number of gantry cranes."

"These cranes, which move along tracks beside the buildings being constructed, are not used in Canadian construction much but I think that there might be a place for them here."

"Some Canadians think the gantry crane method might be expensive but by the large number of them in Russian cities, I'm beginning to think that it might not be too expensive an operation."

50 Register At Murray R. Blood Donor Clinic Friday

For the first time in seven years a Red Cross Blood Donor Clinic was held in Murray River yesterday afternoon. This time there were 50 donors in attendance just one-half the objective. This was considered a fairly good result in view of the fact that no clinics of this kind have been held there in recent years.

The Murray River Clinic, which was held in the basement of Murray River's new school, was under the Chairmanship of Mr. George Ferguson, who received the co-operation of Women's Institutes and individuals in canvassing for donors in the nearby districts. Several public-spirited ladies of Murray River donated the refreshments and served them to the donors.

Late Blight Is Sept. Threat Says Bulletin

We are now approaching September, the month that the potato grower usually is confronted with the most difficult disease control problem, notes Weekly Potato Bulletin No. 9. In this region, September weather conditions are commonly very conducive to the development and spread of late blight on the foliage and to the inoculation of the tubers.

Growers of main crop potatoes should anticipate from two to four fungicidal sprays from now until the end of the season and they should plan to terminate the programme with a top killer, advises the bulletin.

Large numbers of aphids are still present in fields that have not been sprayed with Malathion. During the past few days second brood potato flea beetles have been coming out. This is unusually late for the second brood but they could still cause considerable damage to this season's crop. DDT spray or dust will give excellent control of flea beetles.

The bulletin is issued by F. M. Cannon, Crop Insect Section and L. C. Callbeck, Plant Pathology Section, of the Science Service Laboratory, Charlottetown, P. E. I.

West Prince Flower Show Scheduled For Wednesday

ALBERTON — The West Prince flower show, sponsored by Regalette Repekah Lodge, will be held next Wednesday afternoon and evening in the Lodge rooms at Alberton. As in previous years this event is being eagerly anticipated by the entire community of flower lovers in this area.

Prize lists have been circulated and only one or two minor changes are noted. The section for a collection of wild flowers is a new and interesting addition. Entries will be received the evening before the show and up to 10 a.m. on the day of the show. Judging will begin soon after this hour.

This year's show will be officially opened by Mayor Herbert S. Matthews. In the afternoon Mr. Herbert Leavitt will be the guest speaker and in the evening it will be Dr. Bruvels. Refreshments will be served by Lodge members at both sessions.

Family Gathers To Mark 50th Wedding Anniversary

ALBERTON — A very delightful lawn party at the home of Mr. and Mrs. John H. Wells, Alberton, on Wednesday afternoon marked the occasion of their fiftieth wedding anniversary. The celebration was held slightly in advance of the actual date in order that members of their family might be present.

Mr. and Mrs. Wells were married at Ship Harbour, N. B., on November 19, 1908, by Rev. Mr. Wheeler of Bathurst. Since their marriage Mr. and Mrs. Wells have lived near Alberton. They have five children, James of Ottawa, Frank of Montreal, Mrs. Gordon Hughes (Beth) of Charlottetown, Mrs. T. D. Trenouth (Ethel) of Picotou and Mrs. Sloan G. Finley (Lillian) of Memphis, Tennessee. There are thirteen grandchildren and two great-grandchildren.

Missing from the family gathering were Mr. and Mrs. James Wells, and Mr. and Mrs. Finley and four grandchildren. All others were present.

During the afternoon a large number of friends called to extend felicitations. They were greeted by Mrs. Hughes and Mrs. Trenouth who directed them to the lawn. Here, surrounded by their beautiful flower garden and tall trees, Mr. and Mrs. Wells welcomed their guests and received congratulations and good wishes.

The tea table, with its white linen cloth, was centred by the appropriately decorated wedding cake surrounded with multicoloured sweet peas. In the background was a basket of colorful gladioli.

Mrs. Kennedy Wells and Mrs. Stewart Wells, two granddaughters-in-law, poured. Mrs. Frank Wells replenished. The granddaughters present, assisted Mrs. Hughes and Mrs. Trenouth in serving.

Parliament At A Glance

By THE CANADIAN PRESS
Thursday, Aug. 28, 1958

The Senate passed the new Estates Tax Act after making eight amendments, meaning it returns to the Commons which had passed it previously.

Finance Minister Fleming announced a 50-per-cent increase in the scale of federal grants to universities, boosting them to \$25,600,000 a year.

Transport Minister Hees said the government will give Quebec every co-operation in power development on the Lachine Rapids section of the St. Lawrence River.

The Commons gave final approval to a bill authorizing construction of a \$1,050,000 bridge linking New Brunswick's Campbell Island and Maine. Friday, Aug. 29, 1958.

The Commons meets at 11 a.m. EDT to debate transport department estimates. The Senate is adjourned until 8 p.m. Monday.

Mr. and Mrs. SHELDON SAMUEL Carson of Charlottetown, announce the marriage of their daughter, Juliet, to Mr. Russell Blair White of Kennetcook, Nova Scotia. The marriage took place on Saturday, August 23rd, 1958, at Windsor, Nova Scotia, with Rev. A. P. Montgomerie officiating.

Mr. and Mrs. T.D. Williams and three children were the guests of Mrs. Williams' parents at Grand Tracadie recently. While on the Island, they visited Mr. Williams' sisters and brothers in Charlottetown. Before returning to their home in Petawawa, Ontario, Mr. and Mrs. Williams and family visited Mr. Williams' parents, Mr. and Mrs. J.R. Williams in Shegogue, N.B.

Give Fruit Crop Figures

OTTAWA (CP) — Commercial production of apples, apricots, raspberries and loganberries was smaller this year than last, the bureau of statistics estimated Thursday.

Output of pears, plums and prunes, peaches, sweet and sour cherries, strawberries and grapes was larger, the bureau said in its second estimate of commercial fruit production.

Production figures with last year's figures in brackets included: apples 15,286,000 bushels (15,905,000); raspberries 11,478,000 quarts (12,311,000); sweet cherries 287,000 bushels (239,000); sour cherries 422,000 (265,000); and strawberries 23,784,000 quarts (16,459,000).

City Man Top Winner At Moncton Fair

MONCTON (CP) — Irving Hannah of Richibouctou, N. B. and Wm. Cadmore of Charlottetown won top honors Wednesday in the annual gladiolus show here.

Mr. and Mrs. Maynard Harrison of Fredericton began judging the more than 1,000 entries Tuesday.
