McLeod & McKenzie,
STAR CLOTHING STORE.
Charlottetown, March 10, 1892—eod & wky

Obituary.

Benjamin Hodgson Baker, son of Elisha and Charlotte Baker, was born at North Lake, P. E. I., on the 30th August, 1861. He was named after the late Daniel Hodgson, who, at a time when the Baker family were in financial difficulties through no fault of their own, generously came to their rescue freeing the farm, thus saving the old homestead from the grip of the mortgagee. This kindly act on the part of Mr. Hodgson was never forgotten by the Baker family, and it was in commemoration of it that the subject of this notice was named.

Hodgson Baker, from earliest youth, was a favorite in the home circle, while at school he was beloved by all his fellow schoolmates. When quite young he displayed talent for music, vocal and instrumental, and for several years led the singing school of the settlement. He was what might be called a natural genius in the mechanical art, and in the home of his boyhood may be seen articles useful as well as ornamental, the handiwork of his skillful hands. When but a youth he went to serve his apprenticeship at carpentering with W. R. Dingwell, of Souris, and afterwards went to Boston, where he worked at his trade for several years. He left the Island last September for the States, where he at once found employment. On the 10th of February, a few minutes after going to work in the morning, he was engaged in taking down some stage brackets, when his foot slipped and he fell a distance of 35 feet, breaking both wrists and fracturing his elbow and thigh. He was taken as soon as possible after the accident to the Massachusetts General Hospital, and well cared for. He did not lose consciousness, and was quite hopeful of recovery, asking a friend to write home to that effect. On the 15th however, five days after the accident, death closed his earthly existence. His body was sent home, arriving on the 25th. It was met at Souris station by a number of sympathizing friends who tenderly conveyed it to his late home. On opening the casket the body was found to be almost as natural looking as in life, having been embalmed and placed in a zinc case before leaving the hospital. Neighbors and acquaintances flocked in to see the once familiar form, and many tears were shed over the remains of one, who, though of a retiring disposition, made friends of all with whom he came in contact—one who had no enemies but many friends, an affectionate son, brother and friend, and, above all, a humble and sincere follower of Jesus, always endeavoring to be found in his place in the house of God.

The last sad rites took place on the 27th Notwithstanding the inclemency of the weather, over fifty sleighs were in the funeral procession. Rev. Mr. Bishop, of Kingsboro, conducted the services.

The C. P. R.'s Capital Stock Limit.

The Canada Gazette contains a notice from the Canadian Pacific Railway Company, in addition to the one previously given, that the company will apply to Parliament during the present session, "for power to issue, in addition to that already authorized, consolidated debenture stock in exchange for mortgage bonds, the principal or interest whereof is guaranteed by the company." This is understood to relate to the roads leased or operated by the Canadian Pacific more than to the main line; and it is apparently part of the plan for modifying the manner of carrying its debt which is foreshadowed in the application to Parliament, of which notice was given some time ago, for authority to issue ordinary shares of capital stock instead of perpetual debenture stock for any purpose for which it can now issue perpetual debenture stock, and for such purposes for which new capital may be required. In other words, the company desires to have the right to increase its capital stock (now limited to $65 000,000) instead of having to issue debenture stock or mortgage bonds for any new enterprises it may be authorized to engage in.

THE "Myrtle Navy" brand of smoking tobacco has stood the test for over twenty years, and during that time it has lost no friends and gained scores of thousands. This lengthened experience shows that it is no mere passing fashion which has gained it the approval of the public, but its superiority in the essential qualities which make it a first-class tobacco.

There are restaurants in Berlin where horseflesh is the only meat served.

IN THE months of March, April and May the blood should be purified, and the system strengthened, so that it be able to withstand the debilitating effects of the changing weather, and resist the attack of disease. The most reliable medicine to take to bring about the desired result is Estey's Iron Tonic. For sale by all druggists. ml dw lm

The longest electric railway in the world is to be constructed in Russia. The project is being considered of constructing a line from St. Petersburg to Archangel, a port of the White Sea, a distance of more than 800 kilometers (498 miles). The electric current is to be furnished by a series of generating stations distributed along the line.

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores.

ESTEY'S Emulsion of Cod Liver Oil is pleasant to take as milk. The peculiar manner in which it is made renders it acceptable to the most sensitive stomach. For coughs, colds, consumption, delicate children, whooping cough and all wasting diseases there is no remedy to equal it. ml dw lm

LETTERS TO THE EDITOR

Fish Market Folly.

SIR,—In 1887 the writer opposed the erection of Queen's Wharf fish market, predicting at that time its positive want of adaptation for the purpose intended. The building stands—a literal verification of this prediction—a dump hill upon which $700 of the citizens money has been thrown—and a substantial monument to the folly of its originators.

A fraud similar in character, but more extensive, expensive and dangerous is contemplated by some of the City Council—a wild undertaking which sets at defiance all the reasonable deductions of business, logic and from a sanitary standpoint, in direct opposition to the simpler dictates of common sense. In apparent seriousness it is proposed to convert the cellar of the Market Building into a fish market at a cost to the city of about $3,000 direct and at an additional indirect cost of about $5,000, representing the capitalized value of the revenue now received for rent from the underground apartments. And after all this turning of things upside down after the truants are rooted out and the cash sunk beyond recovery, what have we other than a companion monument to the stupid inventive capacity of the same squandering genius.

The difficulty of keeping an underground apartment dry for ordinary purposes of habitation is no disputed question, but how much more difficult must this be in the case of a fish cellar, with the frequent floodings necessary to carry off the stinking refuse, and with no air currents, sunshine or artificial heat to dry the atmosphere. How many of our fishermen could be induced to carry their fish down a flight of stairs in the mornings, spend the whole day in a damp, cold, poorly lighted, ill ventilated cellar, and how many purchasers will take the risk of frequenting this unhealthy and uninviting cavern when they can buy elsewhere The folly of the undertaking is too apparent for comment. For four months of the year a fish market is required. The city could meet this necessity in many ways. To adopt a plan which would give ample accommodation to buyer and seller, fulfilling all the wants of the case at a cost consistent with efficiency, should not prove a matter of great difficulty.

CITIZEN.

March 16, 1892.

Debate at Pisquid.

THE members of the Pisquid Debating Society met in their club room on the evening of March 14th, to discuss the important question, "Which is the more preferable for the suppression of the liquor traffic in Canada—Prohibition or High License?" In this discussion they were ably assisted by some of the members of the Glenfinnan Debating Club, and also by some members of the Monaghan Road Club

The following gentlemen upheld the side of prohibition: J. J. McDonald, Daniel Birt, W. J. O'Donnell, and Jonathan Birt, while the side of high license was ably maintained by A. J. McDonald, J. Garland, Jas. McDonald, J. M. Reardon, and L. P. McLaughlin.

The various merits and demerits of both sides of this great question were laid before the audience in a masterly manner, notwithstanding the fact that most of the speakers had never heard the subject discussed before. After a very animated and highly-instructive discussion, the chairman, Mr. John A. McDonald, gave the decision in favor of prohibition.

The subject for discussion on March 21st is, "Which country has produced the greatest heroes—England, Ireland, or Scotland?"

With reference to the Pisquid Notes in your issue of March 11th, and the statement therein concerning the Glenfinnan Club, I desire to say that your correspondent must have been misinformed and thus misled as to the action of the Glenfinnan Club, and that the statement of the "indignant member," which seems to have caused your correspondent's statement, is entirely without foundation.

SECRETARY OF THE SOCIETY.

Entertainment and Basket Social at Crapaud.

The Entertainment and Basket Social held in Crapaud Hall last evening, by the ladies of the Presbyterian Church of Hampton and Crapaud, was a decided success in every respect. Although the night was cold, which prevented a great many from attending, the Hall was well filled. The programme was good, and, judging from the manner in which the different pieces were applauded, they must have been appreciated by the audience. Dr Robertson occupied the chair The best of order prevailed, and all seemed to be thoroughly happy The sale of baskets was conducted by O B. Wadman, and good prices were realized one basket bringing the handsome sum of $4 The net proceeds amounted to $46 80 A vote of thanks was tendered the ladies and gentlemen of other denominations who assisted, and also a vote of thanks to the chairman.

PROGRAMMEE.
