

A Dangerous Joke.

A few months ago a person hardly dared say they had La Grippe for fear of ridicule. And now that one half of our population have had it, the other half are in mortal terror for fear they too will have it.

It has been the relapsing and after dangers from La Grippe that have been so appalling. The death rate in many larger cities has exceeded 100 a week from the "grip" alone; and the end is not yet.

Physicians are learning to fear, (much more than the epidemic itself), the serious and fatal extension of the inflammation downward to the throat and bronchial tubes, causing croupous and catarrhal pneumonia, true sequences of the malady; which terminate in death or produce severe laryngitis, bronchitis, asthma, and a form of catarrh which contributes largely to chronic disease of the ear, nose and throat, causing loss of hearing, smell and taste.

Those physicians who have been most successful with the epidemic say the surest treatment has been with tonic and anodyne remedies. The medicines most relied upon have been Quinine, Antipyrine, Salicylate of Soda, Johnson's Anodyne Liniment, etc.

A prominent Boston paper announced in January last that more persons had successfully used the last named medicine than all the others combined.

That seems reasonable, for the effects from La Grippe cause severe inflammation, and it is a well known fact that for nearly eighty years no remedy has taken the place of Johnson's Anodyne Liniment for every form of inflammation, internal or external.

Therein lies its great value as a household anodyne, namely, the fact that it can be used more internally than any other way. At any rate it has no any symptoms of the after-dangers of the "grip" we advise them to get a bottle of the anodyne at once, or send to the sole manufacturer, L. S. Johnson & Co., Boston, Mass.

For full particulars which they send free, and which may save you a big doctor's bill.
