Hillsborough Tea

The ladies of Fort Augustus Parish, intend holding a grand Tea Party, on

MONDAY, JULY 18th

A charming site has been selected near the church, commanding a fair view of the Hillsborough River and the surrounding country. The committee in charge are determined to leave nothing undone to make the 18th a day of enjoyment to those who shall favor them with their patronage.

Besides saloons well stocked with confectionery, strawberries, ice cream, temperate drinks, etc.; there will be dancing booths, swings, foot races and other sports. The steamer Hillsborough will leave Ferry Wharf, Charlottetown, at 10 a.m., arriving at the grounds at 11.30; returning at 7 o'clock, p. m.

The League of the Cross Band will be in attendance. The beautiful new church will be open to the public. Should the day prove unfavorable the tea will be held on Wednesday, the 20th.

Years of Agony and Suffering.

Result of Kidney and Female Complaints.

Paine's Celery Compound Gives Mrs. Stone a New Life.

She Strongly Recommends the Medicine that Banished Her Troubles.

Paine's Celery Compound the Only True Cure for Kidney Disease.

WELLS & RICHARDSON CO., GENTLEMEN:—For more than twelve years I was afflicted with kidney, female and stomach troubles, and had been attended by five doctors, and tried medicine after medicine, without any good results. My sufferings a year ago from kidneys and stomach were dreadful. I was in such a state that I could not live, and concluded there was no use trying other medicines. However, I was advised to try Paine's Celery Compound. Before I had finished the first bottle I had improved very much, and after the use of a few more bottles I had not been so well for many years, and am now altogether a different person. The use of Paine's Celery Compound also banishes my nervousness. I can therefore recommend Paine's Celery Compound to any one suffering from kidney, female and stomach weakness. Yours truly, Mrs. Geo. Stone, Eganville, Ont.

FOR SALE.—Sloop yacht Abegweit fast, sailor, newly painted and overhauled this spring.—A W Weeks, Charlottetown. 145 6i e o d wk 4i.

Patriotic Hancock. During the siege of Boston General Washington consulted congress upon the propriety of bombarding the town of Boston. Mr. Hancock was then president of congress. After General Washington's letter was read a solemn silence ensued. This was broken by a member making a motion that the house should resolve itself into a committee of the whole in order that Mr. Hancock might give his opinion upon the important subject, as he was deeply interested from having all his estate in Boston. After he left the chair he addressed the chairman of the committee of the whole in the following words: "It is true, sir, nearly all the property I have in the world is in houses and other real estate in the town of Boston, but if the expulsion of the British army from it and the liberties of our country require their being burned to ashes issue the order for that purpose immediately."

THOSE PRICELESS BOXES

Of Dodd's Kidney Pills Cured Mr. Colwell of Bright's Disease.

Windsor, July 11.—"It is true, Mr. Colwell, that you have been cured of Bright's Disease by Dodd's Kidney Pills? our reporter asked Mr. R. F. Colwell, jeweller, of No. 9 Oulette St., to day.

"It is indeed," was the answer. "I suffered two years with Bright's Disease. My back ached all the time, I had awful, aching pains in my loins, a puffiness under my eyes, and my urine was very dark colored. For a time I could find no remedy to do me any good. But one day a friend told me he had been cured of the same disease by Dodd's Kidney Pills. I bought a supply. A few boxes cured me thoroughly." Dodd's Kidney Pills cure all kidney complaints.

Dangerous Odors. Some smells are dangerous. A single sniff of highly concentrated prussic acid will kill a man as quickly as a shot through the heart. The odor of a bad egg is due to the presence of sulphureted hydrogen, and the objectionable perfumes of sewers and bone factories are attributable chiefly to the same gas. Chemical laboratories are famous for bad smells. Berzelius, who discovered the element called "selenium," once tried the experiment of permitting a bubble of pure hydrogen selenide gas to enter his nostril. For days afterward he was not able to smell strong ammonia, the olfactory nerves being temporarily paralyzed. Selenium gas has the odor of putrid horse radish. Tellurium is even worse. There is a story of a physician whose patient, a lady, refused to take an absolutely necessary rest because she was so fond of being always on the go in society. He gave her a pill containing a small quantity of tellurium, and her breath was affected by it to such an extent that she was not able to appear in public for a month. She never guessed what the trouble was. The volatilized essential oil of roses is supposed to cause "rose cold." This peculiar complaint is so far nervous in its character that paper roses sometimes excite it.—Boston Transcript.

John Milton's Portrait. John Milton's harmonical and ingenious soul did lodge in a beautiful and well proportioned body. He was a spare man. He had auburn (auburn) hair. His complexion exceeding fair—he was so fair that they called him "the lady of Christ's College." Oval face. His eye dark gray. He had a delicate tunable voice, and had good skill. His father instructed him. He had an organ in his house; he played on that most. Of a very cheerful humour.—He would be cheerful even in his gowtfefts, and sing. He was very healthy and free from all diseases: seldom took any physick, (only sometimes he took manna;) only toward his latter end he was visited with the gowte, spring and fall. He had a very good memory, but I believe that his excellent method of thinking and disposing did much to help his memory. He pronounced the letter R (littera canina) very hard—a certain sine of a satyricall witt. Temperate man, rarely drank between meals. Extreme pleasant in his conversation, and at dinner, supper, etc., but satyricall.—Aubrey's "Brief Lives"

Told on Kentucky Legislators. A member of the late legislature from southern Kentucky was invited one evening to participate in a Welsh rabbit lunch at the Capitol hotel. Diking himself out, he awaited the hour. With that prince of good fellows, Tutt Burman, he walked into the dining room, where coffee and rabbits were served standing. After partaking of one or two and a cup of coffee, he remarked to Tutt: "This is no rabbit. It's nothing but fried cheese and light bread." It is useless to say that member never attended any more lunches.

On another occasion the assembly balls or Germans, which were given every Tuesday night, attracted the attention of a mountain member, and he asked, "Whar are all them people going that are goin up stairs?" Some one remarked up to the german. "The you say. Do they let the Dutch dance here?"—Owenton (Ky.) News.

A Glorious Sight. A very amusing mistake was that discovered by a proofreader in a work written by Dean Stanley. The latter wrote, to use a colloquialism familiar in printing establishments, the "vildest hand" that ever puzzled the compositor. In one chapter the dean was describing a journey to Jerusalem, the frequent recurrence of the name of the Holy City causing him to use the contraction "Jers." Narrating the approach of his party to Jerusalem, Dean Stanley described their ascent up the hills overlooking the city. He pictured in glowing language and striking phrases the effect of the setting sun as it gilded the hilltops in a golden haze, concluding, as the compositor put it, in these words, "And as we slowly turned our faces to the east our eyes met with the glorious sight of Jones."

Resourceful Schoolma'am. An editor in Nebraska visited the schoolma'am and found her "hot stuff." Here's what he swears to: "She is the pride of the town, the star of invention and a jewel of brilliancy. She drew a picture of an iceberg on the blackboard. It was so natural that the thermometer froze up solid. With rare presence of mind she seized a crayon and drew a fireplace on the opposite wall. The prompt action saved the school, but nearly all the pupils caught a severe cold from the sudden changes."—Crocketon (Neb.) Times.
