TIRED FEET
Soothe them with
MINARD'S LINIMENT
35c
Put on freely, and get quick relief. Contains Peppermint, Eucalyptus, and other medicinal oils.

Stresses Lack Of Facilities At Tignish

Strong complaint with regard to light and other facilities at Tignish was made in the Legislature on Monday night by Mr. J. H. Richard, First Prince, in speaking in the Draft Address debate.

"The village at present," he declared, "is in the dark; without a hospital, without doctors, with no paved roads or electric light. These people surely need attention and I think it is due to them. Only when Tignish gets its share of facilities will there be a chance for them to get professional men. You cannot expect every man in the village to put in his own power."

Asked by Mr. R. R. Bell what the mail service was like, Mr. Richard said that it was good. He went on to say that the Government had come to the assistance of O'Leary when their electric plant was destroyed by fire two years ago, and he knew it was the intention to give facilities to Tignish as well.

Proposed abolition of the means test in the payment of old age pensions was warmly welcomed by Mr. Richard. "It has been quite a strain on the members, to say who was entitled to an old age pension and who was not," he said. "The means test will remedy that trouble, and the income tax will take care of the rest."

(Laughter.) Mr. Richard agreed with previous speakers on the value of returning to a system of mixed farming, and that large acreages of potatoes would have to be curtailed.

He believed that something could be done to develop small industries in the Province. As an example, he said that there was not one starch factory in Prince County. There are some excellent locations for this purpose, and if assistance was given by the Government there would be no lack of co-operatives willing to invest money in the project, and make a start.

Suggests Fish Meal Plant

He also believed that a fish meal plant could be established advantageously in the Province. Thousands of tons of fish offal are now being wasted each season.

Mr. Richard was concerned about the amount of cutting which is being done in woodlots. This situation, he said, has reached a critical stage. In some Provinces when they cut an acre of wood they plant another acre;

but here he understood that men from other Provinces are buying up woodlots, and these men will cut everything, without any thought of replantment. This will result in a serious condition agriculturally in times of drought.

Road projects badly needed in his district were mentioned by Mr. Richard. The pavement to Tignish is most important of all. The road from Alberton to the harbour, although only a mile in length, was also important, and there are at present no facilities for hauling. This road should be graded and gravelled, and subsequently paved. The road from Montrose to Tignish should also be subgraded.

Business Women's Club Meeting

Col. P. S. Fielding, chairman of the civil defence planning committee for Prince Edward Island, was guest speaker at the March dinner meeting of the Business and Professional Women's Club, held at the Charlottetown Hotel on March 12.

Introduced by Miss Helen Ramsay, Col. Fielding spoke of the awakening of Canadians to the need for civil defence preparedness, and outlined steps that are being taken by Dominion and Provincial authorities. He described the dangers to which ordinary citizens might be exposed through atomic, bacterial or chemical warfare, and quoted from a Dominion Government pamphlet to show the many ways in which women as individuals or in groups can participate in civil defence measures.

On behalf of the Club, Miss Helen Yeo thanked the speaker for the valuable information he had given on this important subject.

The President, Miss Gertrude Love, was in the chair for the business meeting.

The program committee received many compliments on the favours found at each place. Easter eggs topped with the gayest possible be-flowered and be-feathered hats.

Congratulations were offered to Miss Mary MacLennan on her unique distinction in being the first lady marksman to be a member of Canada's rifle team at the Bisley shoot in England next July. Miss Jean Munn suggested that Miss MacLennan's name be submitted to the committee of the Canadian Federation of B. & P. W. Clubs that selects the Woman of the Year.

Reports were received from the Treasurer, and conveners of membership, sick, and civic affairs committees. Mrs. Sutherland told of steps taken in connection with Charlottetown's Pesticide Week. She asked the executive and chairmen of the monthly program committees to meet with her to plan further for Club participation in the celebrations.

Canadians Are The "Bean Boys"

By Bill Beas
Canadian Press Correspondent

WEST-CENTRAL FRONT, Korea, March 13 — (CP) — To fellow members of the 27th Commonwealth Brigade, the Canadians are the "Bean Boys."

The nickname arises from the food-swapping that goes on among the Britons, Australians, Indians, Canadians and New Zealanders. The brigade due to switch to British rations March 15, now gets American rations and the soldiers trade the cans of food until they have their favorite main course.

The Australians, New Zealanders and Britons all prefer ham and vegetables, the Indians like chicken hash. But the Canadians always call for beans.

Pte. Gerald Welch of Hamilton recently accepted several cans of meat from a soldier in an Indian

ambulance unit in exchange for tinned chicken. The Indian said eating meat other than chicken was against his religion.

When chance permits, Cpl. Walter Way of Calgary, Pte. Welch and Pte. Ted Fischer of Guelph, Ont., swap canned meat with the Australians. They nearly always wind up with beans. Pte. Welch confessed with a grin: "The Aussies say we're really beggars for beans."

C.P.R. Income

MONTREAL, March 13 — (CP) — Canadian Pacific Railway Company today reported a net income of \$47,867,011 for the fiscal year ended Dec. 31, compared with \$29,724,805 the previous year.

Net income was equal to \$3.32 on the ordinary stock, compared with \$1.93 the preceding year.

Gross earnings amounted to \$378,576,688 compared with \$363,252,094 the previous year, while working expenses totalled \$340,556,331 against \$342,620,125 in 1949.

For A Wonderful Spring

New Clothes

that make
a New Season

You'll raise your hat to the style trend for Spring, '51. For it's a sensible trend... toward more natural styles... with greater comfort and a more relaxed look, an easier drape, trimness without stiffness, less padding and no exaggeration.

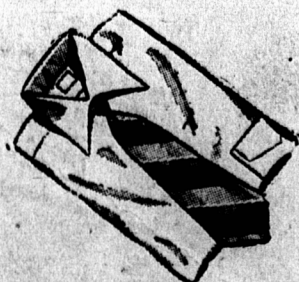

You will find, here, an even greater variety this spring in splendid fabrics... with richer weaves and new spring patterns and tones. And since we are now showing the largest selection of men's suits in our history we hope you will make it a point to see them.

Report Record Life Insurance Business

OTTAWA, March 13 — (CP) — Life insurance companies did a record-smashing business in 1950, boosting total policies in force to an all-time high of \$15,700,000.

The Government's insurance branch today estimated new life insurance policies sold in 1950 at a record \$1,800,000,000—an increase of 9.9 per cent over 1949.

Ordinary life insurance policies sold totalled \$1,400,000,000; industrial insurance, \$161,000,000 and group insurance, \$243,000,000.

Steel Workers Would Boycott Butter

WINNIPEG, March 13 — (CP) — The United Steelworkers of America (U.I.O.) today asked its 2,000 Winnipeg members to stop buying butter until prices return to a "reasonable level." Butter is selling here at 78 and 79 cents a pound.

ABBOTSFORD, Wis., March 9 — (AP) — Will Conrad, 62, editor and publisher of the Medford Star, was one of Wisconsin's best-known weekly newspaper men, was killed yesterday in an automobile crash.
