Guest Preacher Week Of Prayer In Summerside

The Rev. Frank Lawson, B. A. B. D. Halifax, will be the special guest preacher for the Week of Prayer services to be held in Summerside, January 5th to 9th inclusive. He was called to the Presbyterian Church of St. David in 1948, and is well known in the Nova Scotia capital.

The Rev. Frank Lawson is of Scottish-Irish descent; he was born in Londonderry, in the North of Ireland. He came to Canada as a young man and took both his University and College degrees on this side of the Atlantic. As a minister he has travelled extensively in Canada and the United States, as well as Palestine, Syria, Egypt and North Africa, in the Near East; he has also visited many countries in Western Europe. Quite recently he preached for a summer season in Renfrew Church of Scotland in Glasgow, Scotland.

In student days he came to Eastern Canada and was placed on a summer field on Prince Edward Island, and has visited the Island every summer since that time.

Rev. Mr. Lawson's first charge was at Campbellville, Ontario, then St. Andrew's Church in Kitchener.

At present he is Chairman of the Halifax and Dartmouth Ministerial Association, and is Moderator of the Halifax-Lunenburg Presbytery of the Presbyterian Church in Canada.

A few years ago he married a lady physician of Halifax, Dr. Jean MacDonald, a native of Moncton, N. B. They have one son.

The teacher was the recipient of Christmas gifts from the district and the pupils.

Let's Talk It Over

We've side-stepped another big blizzard. We were warned to get set for a considerable snowfall, with probable conditions for serious drifting, but the marauder swept along south of Nova Scotia's south shore and we escaped. Whether the meteorologists have a clear idea of what decides the path one of those storms will take, or not, we do not know. But the severity of our winters seems to depend on a quotient in which the misses are divided into the direct hits. Last winter we were apparently a part of the great white way, and storms from all the usual sources paid us a call. Let's hope our popularity as a blizzard report has declined.

We've had rather a bad record in automobile accidents during the past year. Not bad, perhaps, in comparison with other provinces and countries, but bad in comparison with our own former yearly records. We can pat ourselves on the back, however, for a pretty clear state over the New Year holiday, and this absence of accidents seems to apply across Canada.

1953 promises to be anything but dull with its full share of spotlight events. We are thinking of three particularly, and we give them in the order in which they are likely to affect us locally. The removal of the navigation school from our midst is one which is bound to affect us considerably. An entirely new set-up at the local R.C.A.F. station is now assured, and although no one can be certain just what the move will mean to us, many of our airforce friends will be leaving for other parts of Canada. It may be that the group coming in will be less transient, and more permanent than the great majority of those now with us. Our political heads assure us that there will be no decrease in the personnel, and that is something for which we can be thankful.

The second event is the general Dominion election which most people think will take place some time next October. Always an exciting prospect, and bound to produce a lot of cordial handshaking, earnest solicitations for one's welfare, and bright promises. The "horse laugh" will probably be more pronounced than ever also.

The Queen's coronation, though not taking place within our borders, will certainly be the occasion for a memorable celebration, and a happy one for us all.
