# 55TH ANNUAL REPORT

OUR progress in 1954 established new records in the history of our Company. Assets under Administration increased by \$123,000,000, to reach the impressive figure shown below.

This wide expansion of our business reflects, we believe, the realization by more and more people that such complex personal problems as executorships, trusteeships, succession duties, taxation and investments require the service of specialists with wide knowledge and extensive experience. How a trust company functions to relieve those harried and beset by these and similar problems is undoubtedly becoming more widely known and appreciated.

EXPENSES	4,829,000

NET PROFIT	826,000
