FRIENDLY INTERCOURSE.

**United States Warships in Brit-
ish Docks.**

WASHINGTON, Aug. 6.—The battleship
Indiana sailed from Newport yesterday
for Halifax where she will be docked,
cleaned and painted. She is the first
of the battleships that has been sent from
the United States to a foreign dock for lack
of docking facilities. It is probable
that she will be followed by her sister
ships Massachusetts and Iowa, as it is not
believed the New York dock will be re-
paired in less than a year's time, and there
is no other dock on the Atlantic coast
capable of receiving them.

PARLIAMENT PROROGUED.

Action of Admirals Endorsed.

LONDON, Aug. 6.—Parliament was pro-
rogued today. In the House of Commons
yesterday Mr. Goschen said that it was
time the admirals of the international fleet
decided to exclude the Turkish fleet from
Crete waters.

CHANGES IN RAILWAY STAFF.

J. V. Cooke to be Superannuated

MONCTON, Aug. 6.—Changes in the In-
tercolonial official staff are imminent. It
is said that J. V. Cooke, general store-
keeper, has been notified of his superannua-
tion at about six hundred dollars a year.
Mr. Cooke is still a comparatively young
man and in the best of health, and has
never taken any part in elections.

Another Seat Vacated.

OTTAWA, Aug. 6.—A vacancy in the
House of Commons has been created by
the appointment to the Bench of Joseph
Lavergne, M. P. for Drummond and Artha-
basca.

Militia Change.

St. John, Aug. 6.—Lieut.-Colonel
Armstrong has resigned his command of
the New Brunswick Regiment of Artillery.
Major Geo. Jones succeeds him.

ENGLISH CLASSICS

Authorized for use in the pub-
lic schools of Prince Edward
Island.

The Excursion

book I, price 15c, (now
ready).

Addison's Spectator

(selections), price 15c,
(now ready).

We have the correct author-
ized edition of the above
books, with full explanatory
notes. These books are re-
quired to be studied by all
intending candidates for
entrance to the Prince of
Wales College and Normal
School in 1898.

SUNNYSIDE,

THE TURKISH SQUADRON.

Admirals of the International Fleet Will
Oppose Entrance to Certain Waters.

CONSTANTINOPLE, Aug. 4.—The second
squadron of Turkish war ships, consist-
ing of seven vessels, commanded by Hari
Pasha, which sailed from the Dardanelles
yesterday, has arrived at Sigria, Island of
Mitylene. Referring to the fears expres-
sed here that the departure of the Turkish
ships might lead to a collision with the in-
ternational fleet in Crete waters, in view
of the announcement of the foreign admi-
rals that they have decided to oppose the
landing of Turkish reinforcement in the
Island of Crete, the Turkish newspapers
say that the squadron has only been
ordered to carry out evolutions in the
Island of Archipelago.

LONDON, Aug. 4.—According to a de-
spatch from Canea, Island of Crete, the
admirals of the international fleet have
decided to oppose by force, if necessary,
the entry of the Turkish squadron into
Crete waters. The admirals and com-
manders met today on board the Italian
flagship to discuss the matter. In view of
the possible arrival of the squadron, a
French warship has been despatched to
Sicia, an Italian man-of-war to Suda Bay,
an Austrian to Castelli and a Russian to
Retimo.

LONDON, Aug. 4.—A despatch from
Constantinople this evening says the great-
est activity is displayed at the Vildiz Klo-
k. Ministers are summoned to the presence
of the Sultan at all hours of the day and
night. The military commission is busy
discussing special measures and the order-
ing of further supplies of war material,
which it is believed are destined for Crete,
as Djavad Pasha, the new military com-
mandant, has called for troops and munitions
in order to crush the Christian rebel-
lion.

LATEST NEWS BY WIRE AND MAIL

OTTUMWA, Iowa, Aug. 4.—This city was
the centre of terrific thunder and hail
storms last night. The Rock Island
passenger train, Chicago-bound, was
stopped by the storm. Hailstones in such
quantities and size rolled on the track in
the cuts that the train was brought to a
stop. Every window in the train was
broken. Crops were cut to pieces.

MONTRÉAL, Aug. 4.—Three members of
the St. Ours family were removed to the
isolation hospital to-day for suspected
smallpox. A son of St. Ours named
Rosario recently died of the disease.
These cases make eight in all since the
outbreak.

WINNIPEG, Aug. 4.—Thomas Leader,
an extensive farmer six miles west of
Portage la Prairie, has already cut thirty
acres of barley, which has produced a good
yield, and is now ploughing the land. Mr.
Leader states that he will thresh the crop
this week. This is the first crop to be cut
in the province for 1897.

SAN FRANCISCO, Cal., August 4.—All
mint records were broken by the receipts
yesterday, which was \$3,750,000 gold de-
posited for coinage. Of this amount
\$750,000 was the property of the Alaska
Commercial Company, and the balance
was deposited by various miners and
smelting companies. It is said that this
far exceeds any single day's deposits at
any one time.

LONDON, Aug. 5.—A despatch to the
Times from Camp Malakand, in the
Chitral, says that Fort Chakdara, which
was relieved Tuesday by Colonels Gladney
and Meiklejohn, of the British force under
General Blood, were invested by large
bodies of Pathans on the evening of July
26. The natives made repeated charges
simultaneously on all sides of the fort,
advancing right up to the walls, and giv-
ing the garrison no rest day or night.
When finally relieved, the garrison, ac-
cording to the despatch, was beginning to
run short of food and ammunition.

NEWS NOTES.

Mercury has been discovered in Nova
Scotia, near Halifax.

It is reported that the Japanese govern-
ment is seriously embarrassed financially.
Civilization has necessitated increased
expenditures in every direction, particularly
in building railroads, telegraph lines, new
government buildings, improving harbors,
and strengthening the army and navy.
The treasury was not directly benefited
by the big war indemnity paid by China,
because it has been kept in England to pay
for new warships and armament.

What Hood's Sarsaparilla has done for
others it will also do for you. Hood's
Sarsaparilla cures all blood diseases.

Bartlett pears only 20c per dozen at
Beer & Goff's.

Grand Picnic

The A. O. H. Society of this city,
will hold a grand picnic, on the beau-
tiful grounds, near Hickey's Wharf,
East River, on

Monday, August 16th.

The steamer Southport will leave
Prince Street Wharf at 9 o'clock, a.
m and at 2 o'clock p. m on that day.

Dancing and all the usual amuse-
ments will be provided, and in addi-
tion there will be several athletic
events.

A well stocked refreshment saloon
will be provided, also a tea table.

The League of the Cross Band will
be in attendance, and a good time is
guaranteed to all who may attend. No
intoxicating drinks will be allowed at
or near the grounds. Tickets 25c.
By Order of Committee.

FOR SUMMER DRESS GOODS

You will be surprised at what we can do for you
in the way of cheap Dry Goods. Our regular prices
are extremely low, but they become lower still when
we find seasonable goods any way tardy in moving
out. We are now cutting the price on Hats of all
kinds, Millinery, Boys' Summer Clothing, Men's Lus-
tre Coats, Sweaters, Golf Hose, Bathing Suits, Muslin
Cotton Crepons, Cotton Hosiery, and many other
lines which should be cleared out during this month
You won't find a better place to buy Dry Goods
than the Sunnyside Dry Goods Store.

SHIP CUSHIONS.

Measuring Vessels For Their Outfit—What
Ship Cushions Are Made Of.

When a new vessel is ready to be fitted
out with her cushions, she is measured
for them, not as a church would be, for
a certain number of cushions of a spec-
ified size to supply a certain number of
pews, but every space in which a cush-
ion is to be placed separately. On a
large vessel there might be a number of
cushions of the same dimensions, but
marine architecture is such that cush-
ions may be required on the same vessel
in a great variety of forms, and of vary-
ing dimensions even within given lines,
narrower at one end, for instance, than
at the other. And cushions are made to
fit around masts, and around the round-
ed ends of cabins, and in other spaces
where they must be made in the form
of an arc of a circle, and ship cushions
are made V shaped and in other shapes
to fit into various nooks and jogs.

All cushions are made with a vertical
front edge, and most of them are made
with a vertical rear edge, but ship
cushions are often made with a rounded
or beveled rear edge to fit handsomely
against the side of the vessel, which
serves as a back to the seat, but may
slope away at a sharper angle than seat
backs commonly do.

Practically every boat that is set
afloat, whatever she may be, big or lit-
tle, is individually measured through-
out for her cushions. The same materi-
als for stuffing cushions that are used
on land are used on the water—hair,
moss, cotton and so on—and ship cush-
ions are sometimes stuffed with cork
clippings for their buoyant properties.
The materials most commonly used in
covering church cushions are damasks
and reps, the damasks more generally.
The material most commonly used in
covering ship cushions is mohair plush,
which is made in various colors and
qualities. Leather is also used in cov-
ering ship cushions, especially in smok-
ing rooms and chartrooms and aboard
yachts, and it costs little, if any, more
than a fine quality of mohair plush.—
New York Sun.

Modern Awnings.

"Scarcely any object is more conspic-
uous in the summer season than the
awning," said Mr. Biffleton. "In none
is our progress in civilization more ap-
parent. Awning stripes are made now-
adays in a great variety of styles and in
various colors and shades of color. It
is quite possible to get an awning to match
a building, or one that shall contrast
with it agreeably. I have seen lately a
large brownstone building equipped
with awnings having alternate stripes
in two shades of brown, shading admi-
rably with the stone, the whole produc-
ing a massive, harmonious and pleasing
effect. I have seen buildings of light
colored bricks with light stone or terra
cotta trimmings equipped with awnings
in stripes of darker colors and of some-
what fanciful design as to the width
and grouping of the stripes, giving an
effect somewhat striking perhaps, but
decidedly picturesque.

"The fact is that in the hands of a
competent person the awning may now
easily be made a great embellishment
of the building, and properly put up, as
indeed most of them are nowadays, it
becomes a thing of beauty and a joy, if
not forever, at least for the summer
months."—Exchange.

The process of scouring needles bright
takes about a week. They are mixed
with oil, soft soap and empty powder,
wrapped in loose canvas and placed in
a kind of mangle worked by mechanical
power. This scouring process done, the
needles are washed in hot water and
dried in sawdust.

In India the flesh of the elephant is a
favorite dish, while in Arabia the horse
and in Egypt the camel are eaten with
relish.
