# QUESTION FOR THE LADIES.

The question whether college women marry was answered by one of them in the affirmative with the support of abundant statistics. Another girl graduate has gone further, and sets out to prove that college girls marry better and make better wives and mothers than those who have not had the advantage of a college education. This is the conclusion arrived at by Miss Mary Roberts Smith, associate professor of sociology in Leland Stanford University. She compared the records of 343 married college women with their sisters, and found that they had more children, were healthier, and more prosperous. The investigation is on too small a scale to be conclusive but it should be somewhat reassuring to those who fear the higher education of women will put an end to the natural activities of the sex.

# PROSPERITY IN THE STATES.

It is remarked by Henry Clews, that the agricultural sections of the United States have every reason to expect another season of good times. There is an ample harvest of wheat and corn, both likely to bring better prices than a year ago. High prices for cotton also promise to more than compensate for any shortage in yield of that staple; while the South, through development of its industrial, mineral and other resources, is far more prosperous to-day than at any time during its history. In addition to the favorable progress of the foreign trade of the United States there is just one other proof of general prosperity which cannot be too strongly impressed; and that is the steady growth of railroad earnings, which continue to exhibit gratifying gains, even when compared with the large results of the last two or three years. Some decreases in earnings cause no surprise, and in view of heavy expenses no further great improvement in net results need be expected, at least for the present. But the fact that declines of significance are not yet in sight is convincing testimony of the soundness and activity of business.

Lord Robert's latest proclamation points out to the Boers that fifteen thousand of their burghers are prisoners of war in British hands. There have evidently been a great many of the enemy captured of which little has been said in the despatches, there having been only two big hauls, that when Cronje surrendered and that when Priesloo found he had had enough. Practically a quarter of the total burgher force has been captured, and if to it is added the killed, those who have died from sickness and the maimed it would seem that over a third of the Boer army has been put on the casualty list. Much is said about the heavy losses of the British; but they are not without compensation.

# STILL AT IT.

The splendid and just tribute paid by the Montreal Star to Mr. Foster does not please Mr. Tarte's Patrie. Neither is the Minister of Public works willing to admit that Mr. Foster has a friendly feeling for French-speaking Canadians.

"How can Mr. Foster be our friend," asks the Patrie, "when he has for his organizer and right hand in New Brunswick that famous Mr. Hetherington, who last December, in Queens and Sunbury, where Mr. Foster wants to be a candidate, preached the doctrine that the next elections ought to be fought between the English and the French.

"How can he be our friend when he is allied with Mr. Clarke Wallace and the fanatics of the News, the Spectator, the Mail and Empire, and to all those who throw us in the dirt?" Mr. Tarte knows that Mr. Foster has been perfectly fair and friendly to the French people. He knows, for the facts have been explained to him that Mr. Hetherington never made the statements attributed to him. What Mr. Hetherington said was that Mr. Tarte was trying to stir up a contest between the English and the French in Quebec. The course of La Patrie proves that the charge is true. —St John Sun.

# Hay Fever can be Cured by Japanese Catarrh Cure.

IT KILLS THE GERM WHICH IS THE CAUSE OF THIS MOST PREVALENT COMPLAINT.

Hay fever has been the cause of much scientific study and research by many of the most prominent physicians throughout the world. Many of them differ as to its real cause, but the majority agree that the cause is due to the little germs contained in pollen grains, principally hay pollen, but many other flowers and plants contribute largely to its cause. Japanese Catarrh Cure has been found the only complete cure for hay fever. It contains an organic compound of Iodine, which is a thoroughly harmless antiseptic, and destroys the hay fever germs completely. It soothes, heals and gives almost immediate relief. You will find it pleasant to use. We will be pleased to send you a trial quantity free. Enclose 5 cent stamp for postage, to The Griffiths & Macpherson Co., Limited, 121 Church St., Toronto. Sold by all druggists, 50 cents, or mailed direct.

# DOMESTIC ECONOMY

Said Brown unto his wife one day,  
"We've nothing left to eat;  
If things go on in this queer way,  
We can't make both ends meet."  
His wife replied in words discreet,  
"Oh, we won't be badly fed;  
If you can make but one end meat,  
I'll make the other bread."  
Chicago News.

# BUT GOOD WIFE!

You can't make good Bread, if you don't use good Flour. It's a mistake many people make in buying Flour as well as other things, in thinking they are using economy by buying a cheap grade but it generally proves the dearest in the end. When in want of Flour give us a call; we keep most of the standard brands, and can quote as low prices as anyone in the trade.
