

Britain Sets Terms For Peace Talks With The Yemeni Gov't

LONDON (Reuters) — Britain has set terms for peace talks between Yemen and the adjoining British-protected sheikhdoms of Aden.

The government said it would take part in talks to be held in the Aden protectorate frontier village of Sanah anytime after today, provided Yemeni troops withdraw from positions overlooking the territory of the Sharif of Beihan, and his source of water is restored.

Britain said it is obliged to make these conditions under terms of its treaty with the individual sultans and sheikhdoms that make up the territory of Aden outside the city of Aden itself.

"The British government now is awaiting a reply from the Yemen government," it said.

The government said the Aden rulers had agreed in principle that officers of the Aden and Yemeni governments should meet on the frontier for talks in an attempt to put down the border skirmishes that have plagued the area for years.

Canada Urging Britain To Retain Forces In Europe

By DAVE MCINTOSH
OTTAWA (CP) — Canada is quietly and politely urging Britain to keep its NATO forces in Europe.

LONDON has warned that Britain may have to withdraw two of its four divisions stationed in West Germany as part of NATO's ground defence force.

It is realized here, of course, that the United Kingdom is in hard financial straits. But at the same time it is felt that NATO has proved effective in Europe and therefore should not be weakened.

Britain has started negotiations with West Germany for continued German financial support of British troops stationed in that country. Germany is contributing \$100,000,000 for the 1956-57 fiscal year but Britain wants this amount doubled in 1957-58.

MORAL SUPPORT
Informants say that Canada is prepared to give Britain all the moral support it can in this matter though this country is not directly involved in the negotiations.

West Germany paid the capital costs for bases in Germany now occupied by the 2nd Canadian In-

Urges Need For Basic Research In Dairying

WINNIPEG (CP) — Imports of dairy products will have to expand unless total milk production in Canada now about equal to domestic requirements, keeps pace with population growth, Dr. H. A. Derby, chief of the dairy products division of the federal department of agriculture, said today.

He told members of a Dairy Farmers of Canada convention that 1957 milk production has been estimated at 17,500,000,000 pounds, an increase of 500,000,000 pounds compared with total production last year.

"Basic research is required in Canada today in all phases of dairying," he said. "Herd improvement, sire - proving programs, feeding, herd management, manufacturing, marketing, and consumer preference, all require our constant attention if we are to progress on a sound basis."

The text of his speech was released to the press in advance of delivery.

He said creamery butter production in Canada dropped by 18,000,000 pounds last year from the 1955 production total of 318,200,000 pounds. Dry skim milk production in 1956 totalled 78,500,000 pounds, a drop of 9,000,000 pounds from the previous year.

Seek Rare Pouched Tiger In Tasmania, Thought Extinct

ROBERT, Australia (CP) — A zoological expedition is being organized in Tasmania in another effort to capture alive one of the rarest of living creatures, the marsupial tiger.

For 27 years naturalists have been seeking this carnivorous marsupial. For a time it was believed to be extinct but one has just been reported in wild and almost unexplored country in western Tasmania. It was seen by three men in a low-flying helicopter.

This so-called tiger has a body like that of a large wolf. The back has 16 transverse blackish brown stripes, very like those of a tiger. The head is tapered and foxlike. Unlike most other marsupials, which hop, the tiger runs on four legs, and unlike them too it eats meat, instead of herbs or foliage. The female, like other marsupials, has a pouch, in which it carries its young—up to four at a time. The opening of the pouch is at the back, instead of in front as
