RENT IT!

The underwatched film, *Wonder Boys*, has finally come out on video. One of the best movies of the year, it stars Michael Douglas as an English professor who tries to help one of his students, played by Toby Maguire, while trying to sort out his own life.

READ IT!

Local author and bon-vivant Richard Lemm's latest book of poetry, reportedly his fourth, *Four Ways of Dealing with Bullies*, is reportedly good. You can get it at a book store near you (the Reading Well or the UPEI Bookstore).

DOWNLOAD IT!

Check out explodingdog.com. People send in captions to the person who runs the site and he draws an image that matches the caption. The images are hand-drawn, but the result is hilarious.

HEAR IT!

PJ Harvey's latest album, *Stories From the City, Stories From the Sea*, has been making a lot of top ten lists for 2000. It is an intense, spiritual odyssey of a one-woman search for greater meaning. Thome Yorke is on it too.

DIG IT!

Our new travel columnist has a car underneath five feet of snow (reportedly). He also (reportedly) had his appendix removed during the holidays and the result is unable to dig out his car. He would appreciate some help.
