BUCKEYE MOWER & REAPER

MANNY'S & BUCKEYE

COMBINED

Mowing and Reaping MACHINES.

AND

Whitcomb's Patented Wheel HORSE RAKES!

THE SUBSCRIBER has just imported into this Island, and is now receiving quite a large number of those celebrated Machines, embracing the MANNY COMBINED REAPER and MOWER, the COMBINED MOWER and REAPER HAND RAKE MACHINE, and the BUCKEYE SELF-RAKING MACHINE, for Reaping and Mowing. Also a lot of WHITCOMB'S PATENT WHEEL HORSE RAKES.

The MANNY MACHINE has this season some important improvements, such as an extra Wooden Wheel and Axle for Reaping, together with an extra Bevel Gear with a Flange, so as to prevent the Cogs from breaking. These two important improvements makes the MANNY MACHINE a perfect one of its kind.

The BUCKEYE MACHINE having been manufactured for the Subscriber under special contract, by ADRIANCE, PLATT & CO., of Poughkeepsie, in the State of New York, who are the original manufacturers of the BUCKEYE MACHINE and are the largest manufacturers of this Machine in the States, manufacturing from six to eight thousand Machines each year; and it is their Machine manufactured at their works, and entered by them for competition at all the great National and State Fairs in the United States, and for which they have taken the Gold Medals and all the highest prizes in the States; they have also justly obtained the reputation of manufacturing the best Machine in the States both for Mowing and Reaping. All other establishments manufacturing the Buckeye are small compared to theirs—none of them making, I believe, over six or seven hundred machines each year;—and all improvements on the Buckeye come through ADRIANCE, PLATT & CO.

The SELF-RAKER is the best and latest improvement on the BUCKEYE MACHINE, and is not manufactured by any other establishment making the Buckeye. The SELF-RAKING MACHINE has proved a complete success the past year, and completely distancing all other Machines as Self-Rakers, made in the United States by others. This Machine saves the labor of one man, and the weight of a man on the team while Reaping. This Self-Raking Machine will also Reap and deliver in sheafs grain which has been broken down with rain or wind, unless very badly tangled, as the rake strikes the grain in front of the knives, and brings the grain on to the platform, when it is impossible for the hand rake to do it.

In consequence of my long connection with the Farmers of P. E. Island, in the sale of MOWING MACHINES, I feel it my duty to explain to them my views, and the motives that actuated me in first bringing the MANNY MACHINE to this Island some eight years past. It was then the best, and I might say about the only combined Machine in the States. The Manny gradually worked its way into general use on the Island, proving itself to be a good Machine to the Farmers, doing its work well, and all that was required of it to do, and to the full satisfaction of all who have used them here; and I could find no Machine in the States so well adapted for this Island as the MANNY MACHINE.

Last year I bought four of the Buckeye Machines, manufactured by A. Richards & Co., of Worcester, but I was not satisfied with them, as they were not a perfect Machine, nor such as they ought to be, in my opinion, and I therefore could not feel that it would be right for me to say to the Farmers that the Machine was all right as a Reaper, when I did not believe it: but as a Mower I was willing, and did say to all, that they were good Mowers. When I returned home from the Island last fall, and knowing that Adriance, Platt & Co. were ahead of all the manufacturers of what they termed a BUCKEYE MACHINE, I went to their establishment, one hundred and fifty miles distant, hoping to find there a combined Machine that would satisfy my mind; and I did find the desired Machine, it having a separate cutting bar, guards and knives, all attached to the Platform, and fitted and ready to hitch on to the Machine as a Reaper, which made a perfect Machine, and fully satisfied my mind. This was the HAND RAKING MACHINE.

I then examined their SELF-RAKING MACHINE, and was better pleased with that than the Hand-Raker, as it is a splendid machine, doing all, and even more, than could be expected of a machine. The consequence was, I purchased my Machines of Adriance, Platt & Co., and in the course of the winter A. Richards & Co. went to Adriance, Platt & Co., and purchased a Platform from them, with their improvement of a separate bar and knives for Reaping attachment, and attached them to their Machines—sent to the Island this spring. I did not purchase any No. 1 Buckeye this year, as I found they had gone out of use altogether, or nearly so. They made the No. 1 in the first place, but found them too heavy and clumsy. The No. 2 proved more acceptable to the Farmers for Mowing and Reaping.

My own individual opinion now is, and so is that of most of the farmers who have used the MANNY MACHINE that the MANNY MACHINE, with its improvements, is the BEST MACHINE for all Farmers of limited means, as it does its work well, and all that the farmers require it to do, and has no complication, and the mechanics of the Island know how to repair it. But those Farmers who have more means, and wish to have a nicer looking machine, and can afford to pay a higher price for it, I would say purchase the SELF-RAKING BUCKEYE MACHINE, as then they will get all that any Farmer can wish in a Machine.—But come and see and examine for yourselves, and decide what Machine you like best.

These Machines will be on exhibition and Sale at the Warehouse attached to the Store of Henry Haszard's, opposite the Post Office, on Queen Square, where I shall be very happy to exhibit and sell the above Machines at the usual accomodating terms, from one to three years, as the Farmers may wish;—and those Farmers who wish to pay the money down, I shall be more particularly pleased to see and sell to, and of course at low prices. But all who wish machines will be very welcome. Hoping that no Farmer will purchase a Mower until he has seen mine, and examined them as I believe I have a splendid lot of Machines, and can satisfy almost any one. I have appointed agents in the following places:—

H. C. GREEN, Summerside,
Hon. G. W. HOWLAN, Cascumpec,
J. D. McLEOD, Charlottetown,
R. J. CLARK, Orwell, Sole Agent for King's County, will act at Souris, Georgetown, Montague, and Charlottetown, and at Orwell Cheap Store.

ASAHEL BOOTH,
Proprietor.

Charlottetown, July 6, 1868.

TO THE FARMERS

OF

Prince Edward Island.

GENTLEMEN,—As we have noticed, in your local newspapers, certain statements, over the signature of "A. Booth," respecting the origin, manufacture, and sale of the Buckeye Mower and Reaper, calculated to mislead those who are unacquainted with the facts, we deem it our duty to place before the public a *truthful* and *lucid history* of the *machine*; and in order to be understood aright in the matter, we shall dispose of A. Booth's advertisement in the order in which it appears.

First, Mr. Booth asserts that Adriance Platt & Co., were the original manufacturers. The Buckeye was first invented, manufactured, and patented by *Aultman & Miller, of Canton, Ohio* (from which State it has derived its trade-mark *or name*) they obtaining the first Gold Medal at the Great Field Trial held at Syracuse, New York State, in 1857, and they still continue to make nearly twice as many machines as any other establishment in the United States. The original inventors sold the right to *manufacture, and sell* their invention in certain territories; and among the different manufacturers the custom has been that in whichsoever territory a trial is held they enter and exhibit. That is to say: If a trial is held in the New England States we exhibit; if within Adriance, Platt & Co.'s territory they exhibit, and so on, Mr. Booth's *assertion to the contrary* notwithstanding, that Adriance, Platt & Co's manufacture is entered for competition "at all the Great National and State Fairs in the United States."

Mr. Booth further asserts that all 'improvements come through Adriance, Platt & Co. Scarcely a year has elapsed but we have found something new wherein we could improve the machine, and assist to bring it up to its present high standard. Last year, after much expense, we radically changed our mode of gears, by which we dispensed with the internal gearing, (which we always considered a hard running gear,) by substituting an external gear, by which more perfect gearing is secured—which runs lighter, stiller, and is more durable, and more easily repaired should any repairs be required. This, and other improvements of smaller importance were originated by us; and we make bold to say, and have ample testimony, that the machine exhibited for sale by A. Booth is the style which we made two years ago, save and except some minor alterations, which, in our opinion, are of a *damaging nature to the machine.*

Respecting the "Self Raker," when our minds are satisfied of its practicability, and it becomes simplified, and brought out of its present complicated condition, we will apply it to our machine, as we are of opinion that in its present stage it requires too much motive power, and is too expensive to be of general use; yet we believe that, in the course of time, it will be accomplished. Furthermore, Mr Booth asserts that he brought on your Island, last season, four 'Buckeyes," made by A. Richards & Co., of Worcester. No such manufacturing establishment exists in Worcester or elsewhere, to our knowledge, in the United States. Mr. Booth had four *machines of our* manufacture, which he obtained after some solicitude, which we are led to believe he purchased for sinister purposes. Mr. B. was too well aware of the repute of the "Buckeyes" in the U. S. to compete against it here with his favorite "Manny," should it get into the hands of the farmers. Although Mr. Booth's estimate of your intellectual capacity was by no means high, we are glad to find that he has altered his mind, and discovered that you have sufficient "brains" to run a Buckeye this season. Besides the Machines which Mr. B. had last year, we consigned ten machines to Mr. John Higgins, of your city, which were all sold, despite Mr. B.'s stiff bow at their introduction, and we leave it to those farmers who ran the Machine last year, to say "whether they were perfect, and such as they should be, or not." We have in our possession testimonials from many of the most respectable farmers, who ran the machine last season, respecting its merits, and we have yet to learn of any dissatisfaction,—not one purchaser has yet enquired for an extra pirce to suply any defect or breakage, although our agents have extras constantly on hand.

The Machines sent to our Agents this year have been made with usual care, put together by first-class workmen, and manufactured of the best material, which we warrant in every particular. We have every encouragement to continue to ship our manufactures to the Island, and shall have on hand each year, a supply of "Buckeyes" to meet the demand. They will be in the hands and under the control of our Agents, all of whom are reliable, and whom the purchasers can fall back upon for any misrepresentations.

The Machine will be on exhibition by our Agents hereunder named, who will be most happy to point out the difference between the two "Buckeye's" now in the Island and thankful for past patronage, we shall continue to dispose of the Machine at the lowest prices, and on such terms as will suit all. Considering this explanation called for, to refute A. Booth's assertions, made either through ignorance or maliciousness, we are, yours truly,

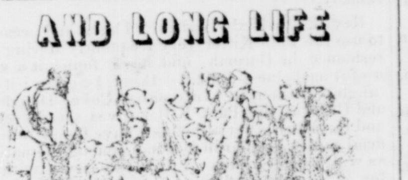
THE ROAD TO HEATH AND LONG LIFE



SECURED BY

HOLLOWAY'S PILLS.

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretory powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements for sustaining and repairing the frame.

Weakness and Debility.

How many persons suffer from debility without knowing the causes why they are feeble! In most cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are, therefore, confidently recommended as a never failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Disease of the Head and Heart.

These formidable diseases are, unfortunately, of frequent occurrence; for the most part they creep on gradually, but may be prevented by proper precautions. Holloway's Pills are the surest preservatives against all derangements of the brain, and are the speediest correctors of irregular circulation. If they be taken without delay, when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvellous.

Females of all Ages & Classes.

The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the peeress, universal favor is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach and Bowels.

Whenever the stomach, liver, or bowels are disordered by high living, climate, over-indulgence undue exertion or other causes, these fine regulating Pills will soon rectify the evil, and speedily bring back energy, strength and cheerfulness to the frame where previously all was lassitude, gloom and dejection.

Despondency, Low Spirits.

The misery occasioned by a disordered disgestion is, unfortunately, felt by most. These famous Pills should be taken in appropriate doses to adjust the disturbed functions. They dispel headache, biliousness, nausea, lowness of spirits, and all similar ailments. A course of these invaluable purifying Pills never fails in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience

Influenza, Diptheria, Bronchitis, Coughs and Colds.

In our changeable climate few persons escape without colds, sore throats, influenza, diptheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure. While the Pills are expelling all impurities from the body generally, Holloway's Ointment should be well rubbed upon the chest and throat, it will penetrate the skin, reduce inflammation; and restore lasting soundness.

Holloway's Pills are the best Remedy known in the world for the following diseases:

The unequalled success that has attended the application of this medicine in all cases of

has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact over their own signatures. We have space only for the names of a few of these:—

Such testimony

CANNOT BE DISCREDITED.

From the mass of evidence in our possession we select the following:—

From L. J. RACINE, Esq.,

of *La Minerve*, Montreal. "Having experienced the most gratifying results from the use of *Dr. Wistar's Balsam of Wild Cherry*, I am induced to express the great confidence which I have in its efficacy. For nine months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter. The symptoms increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned. At this juncture I commenced taking the Balsam, from which I found *immediate relief*, and after having used four bottles I was completely *restored to health*. I have used the Balsam in my family, and administered it to my children, with the happiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. It is a preparation which has only to be tried to be acknowledged as the remedy *par excellence*."

A CURE FOR WHOOPING COUGH.

ST. HYACINTHE, C.E., Aug. 21, 1856.

Messrs. SETH W. FOWLE & SON.

Gentlemen:—Several months since a little daughter of mine, ten years of age, was taken with *Whooping Cough* in a very aggravated form, and nothing we could do for her seemed in any way to relieve her suffering. We at length decided to try a bottle of *Dr. Wistar's Balsam of Wild Cherry*. In three hours after she had commenced using it, she was greatly relieved, and in less than three days was entirely cured, and is now well. I have since recommended the Balsam to many of my neighbors, who have used it, and in no case have I known it fail of effecting a speedy cure.

You are at liberty to make any use of the above you think proper. If it shall induce anybody to use your Balsam I shall be glad, for I have great confidence in it.

Yours, P. GUITTE,
Proprietor of the *Courrier de St. Hyacinthe.*

Clergymen, Lawyers, Singers,

and all those whose occupation requires an unusual exercise of the vocal organs, will find this the ONLY REMEDY which will effectually and instantaneously relieve their difficulties. This Remedy, unlike most others, is extremely

PLEASANT TO TASTE.

A small quantity allowed to pass over the irritated part at once removes the difficulty.

BEWARE OF COUNTERFEITS AND IMITATIONS.

Remember, they imitate in *name* only, without possessing the virtues. Buy none unless signed "I. BUTTS" on the wrapper.
