Major Sale in Pearson Spends Out Bold Federal Offer

By ALAN DONNELLY
QUEBEC (CP)—A bold new federal offer that the province will sell its full control of individual provisions to "contract out" of the insurance system on which Ottawa now pays half the costs, in return for tax concessions from the federal government. All provinces need not take full responsibility for the program.

His proposal submitted at the conference opening would free Ottawa of a heavy cost burden of \$429,000,000 in the new fiscal year starting today.

Under certain circumstances, the province would get new freedom to run the hospital insurance plan. An amendment, Mr. Pearson suggested, they might receive an additional 12 per cent of the personal income tax field—a sum of \$200,000,000.
