Paving Plant Being Moved To Murray R. Area

A paving plant, being moved from Souris, is now being set up south of Murray River. Owned by the Island Construction Company, the plant will provide paving material for the shore road from Wood Islands towards Murray Harbor.

The equipment is being assembled on a site alongside Norman's Road, on land owned by Wilson Moore, between Murray River and High Bank. Actual placing of pavement is expected to begin shortly.

Would Eliminate Auto Excise Tax

OTTAWA (CP) — Removal of the excise tax on automobiles would accomplish more than any other government action to help employment in Canada, Hubert Badani (L—Fort William) said Thursday in the Commons.

He attacked Finance Minister Fleming's budget for "ignoring" the automobile industry which paid millions in taxes and provided employment to thousands.

Mr. Badani quoted Mr. Fleming as saying in 1956, when in opposition, that a 1955 cut in the tax had actually resulted in higher revenues because it stimulated sales. "Evidently he no longer believes in his own statement."

THE GUARDIAN

TWO DAMS at Harvey Moore's Sanctuary at Milltown, on the Commercial Road some four miles south of Montague have just been rebuilt. They were washed away during a sudden freshet caused by torrential rain last spring.

TOP PICTURE shows the earthenware upper dam. It was this structure washing out which was blamed for causing the lower dam beside the road to let go. This dam, which has several small islands dotting its surface, covers an area of approximately 2 acres. In places it is more than 20 feet deep. The entire area is an exceptionally fine camping and picnic site.

BELOW is a view of the lower dam showing the washed out centre section before reconstruction was completed. Both dams have now been made into by-pass ponds and are expected to withstand future floods. The lower pond covers some 16 acres. A concrete spillway is planned for this pond in the fall.

The ponds are wildlife refuges and attract great numbers of wild fowl, particularly black ducks and Canada geese during the autumn months.

There have been suggestions that the sanctuary be taken over by either the Federal or Provincial Governments and operated as a tourist area with trailer and camping facilities, with Mr. Moore in charge.
