

Forgive.

Is it rarewell? I murmur not, Mine was the fault, be mine the loss!

Forgive! Forgive! No more I ask! Forgetting easily will come, But pardon is the heavier task!

Let me not pass beyond thy sight With soul of all its sins unshriven, To wander in an exile's night, Forget but not forgiven!

No Bank There.

There was an eastern man with us in the stage as we were making a route in Kansas, says the New York Sun, and at noon, as we stopped at a new town for dinner, he said to the landlord of the board shanty tavern:

"This seems to be a brisk sort of a town." "Yes. She's gaining right along." "Is there a bank here?" "Regular bank?" "Yes."

"Regular bank, with president, cashier, and so on, where they receive deposits, give drafts on Chicago, and so forth?" "Yes."

"No, there isn't any such bank here now." "Then there was one?" "Yes, but it's closed up. The president and cashier are here, though."

"Then perhaps I could have a little talk with them before dinner?" "Hardly. They are lying underground out here in my back lot."

"What! Dead?" "As dead as nails." "Sickness or accident?" "Well, sort o' betwixt. The bank tried to fail and pay fifty cents on the dollar, and the boys turned out and hung 'em to that telegraph pole there, and divided the cash, so that we got \$1.10 apiece on our deposits."

"If you want to start a bank, however, I'll—"

"Oh! no! no! no! I had no idea of it. I'm going on to Emporia to go into business."

Cause of Summer Complaints.

The direct cause of pain and looseness of the bowels is an irritation of the mucous membrane of the same, sufficient to produce excessive peristaltic or worm-like motion in the interior of the bowels, by which means the matter in the bowels is naturally carried through them. This excessive irritation causes more than a natural peristaltic action, and the partially digested food matter is kept constantly passing along and evacuated freely. This is called a diarrhoea; where the irritation is enough to cause bleeding, we have dysentery. Indirect causes of diarrhoea, by which an irritation is started, are intestinal dyspepsia, overeating, unripe or overripe fruit, tainted meats or oysters, etc.; torpor of liver, by which not enough bile is secreted; excessive flow of bile, etc.

Treatment:—Thoroughly evacuate the bowels with (say) Parson's Pills, which are among the best to get rid of all irritating matter. Then take Johnson's Anodyne Liniment in teaspoonful doses diluted with water every four hours, and often if the case is severe. In cases of Asiatic cholera, one teaspoonful should be given every half hour. Thousands of people remember the year 1849, when that worst known epidemic disease spread over this country. Johnson's Anodyne Liniment at that time was but little known outside of the State of Maine. In Bangor, Me., the home of old Dr. Johnson, the cholera got a firm hold—people dying in that small city at the rate of "thirty-six in one day."

Many old citizens of that place look back upon that wholesale death scene even to this late day, and shudder at the pangs it cost. Johnson's Anodyne Liniment is now in its full vigor, and they feel that with it at hand cholera cannot again devastate their fair city as in 1849. But for its use at that time by its friends, many would not now live to spread the joyful news that any case of diarrhoea, dysentery, cholera morbus, cholera, or kindred diseases, if taken in season, can be cured by Johnson's Anodyne Liniment. It never yet failed. No matter how well you know this medicine, it will pay you to send to I. S. Johnson & Co., Boston, Mass., for a pamphlet free just to learn how to use the liniment economically. A teaspoonful properly used will often do more good than a half bottle as some people use it.
