Dear Ben

by Richard Arsenault

You've trained long and hard
 To get to the top
 You've done it in quick easy strides
 And then came the day
 In Seoul, I must say
 Where you took Canada's first gold with pride
 Canadians cheered
 With national pride
 When you finally crossed that white line
 As you broke the old record
 And ran like a leopard
 You became the fastest man alive
 But now there's a fuss
 About steroid and stuff
 They've taken your title away
 You've shattered our hopes
 And left us to cope
 With our newest hero flushed down the drain
 Hang in there Ben

Album Review:

The Judds (Wyonna & Naomi)

Greatest Hits

This album was produced in 1988 by Brent Maher for Maher Productions and RCA Records. *Greatest Hits* features the best of the Judds. This mother-daughter team has become a major country music act in just five years. This album features one new single, *Give a Little Love*, which has already done very well on the country music charts. Among my favorite songs here are their early smash hit, *Mama He's Crazy*, as well as *Grandpa (Tell me 'Bout the Good Old Days)* - winner of several country music awards. Two other judsy songs are *Girls Night Out* and *Love is Alive*. For this album the Judds really collected their best. *Greatest Hits* is a must for any Judds fan.

Other Problems

by Cal T.

I switched on the news the other day
 Popular brawny man got his medal taken away
 How could we let this happen, we should have known
 "I think he'll loose up to 15 mill"
 "Why did he take those damn pills" man asks
 How could we let this happen, we should have known
 I picked up the paper the other day
 Flicked through the greyish pages
 What did it say?
 Nation disgraced, nation mourns ruling
 How could we let this happen, we should have known
 20 pages, 1 1/2 hours later now I've got all the information
 Made headlines, front page stuff, topic of discussion on TV
 for days
 Tonight man beats wife, child goes hungry, teenager OD's
 How could we let this happen, we should have known

Quote of the Week

'We have to educate ourselves on the things that are completely obvious.'
