

Throat and Lung Troubles.

Boston is often abused without cause, as being the natural home of more cases of throat and lung troubles than any other part of the universe.

This disease was an epidemic of bronchitis, influenza or catarrhal cold, and, as everyone knows, tended to seriously affect every weak part of the patient's system.

Reports from all parts of our country show that the number of persons who have been left with a sort of chronic catarrh, laryngitis, catarrhal sore throat, and bronchial affections likely to cause serious throat and lung troubles if not checked, is in proportion to the population about the same the country over.
