DENTAL.

I take pleasure in announcing to my patrons and the public generally that I have fitted up an apparatus for generating and administering

NITROUS OXIDE GAS,

which enables me to EXTRACT TEETH WITHOUT PAIN. Nitrous Oxide acts as a healthy stimulant, unattended like other stimulants by subsequent depression. It gives to the patient VIGOR for resisting the exhausting effects of the operation, Ether and Chloroform on the contrary depress rather than elevate the tone of the system.

I have prepared also an excellent TOOTH POWDER from Cuttle fish bone, which removes Tarter and Stains from the teeth and hardens the gums.
