TWENTY-FIVE YEARS OF PRIESTHOOD

WC W.H. Dunphy, Command R.C. chaplain at R.C.A.F. station Trenton, recently celebrated a quarter century as a Roman Catholic priest. Father Dunphy is seen here sitting in a lazy chair given him by his friends at a gathering at RCAF Station, Trenton's Social Centre. With him are his two nieces and nephew, Ann, Wilfred and Rita Dunphy.

After celebrating High Mass, Father Dunphy proceeded to the station Social Centre where his numerous friends had planned an interesting evening in his honour. Following dinner, the station choral group gave a pleasant rendition of "This Is Your Life".

BORN CHERRY VALLEY
Wilfred Dunphy was born on the 17th of August, 1904 in Cherry Valley, P.E.I. and was educated at St. Dunstan's University, Charlottetown, and St. Augustine's Seminary, Toronto. In May 1931, he achieved the goal he desired when he was ordained a priest.

Clean-up Day Planned For St. Peter's Bay

A meeting of the residents of St. Peter's Bay was held in the St. Peter's Hall on Monday, June 25th, at 8:30 p.m. The purpose of the meeting was to organize a clean-up day for the village. Mr. Joseph O'Hanley was appointed chairman.

A lengthy discussion on a proper dumping place was held. It was decided to ask the use of a government machine to make the dumping ground available. Mr. G. L. Sanderson was asked to contact Mr. Webster for this purpose. A motion was also passed empowering the commissioners to hire a truck and two men for the purpose of cleaning up and carting away the refuse accumulated in the ditches of our incorporated district. It was decided to leave the actual date of clean-up day to the commissioners. They were advised to name that day at least a week in advance. Mr. MacDouall very kindly offered his truck gratis, provided it could be used on Saturday afternoon.

After the conclusion of the regular business the chairman called the attention of the meeting to the fact that a new site for the relocation was required immediately. The chairman was asked to investigate several possibilities. Following a vote of thanks tendered the Management of St. Peter's Hall for its use meeting adjourned.

ATOM BOMB VICTIM WEDS

HIROSHIMA, Japan (AP) The first of the atom-scared Hiroshima maidens who received plastic surgery in the United States was married Wednesday. Yostie Harada, 22, who returned from treatment in the U.S. only 10 days ago, was married to Tozo Yanagibas III, 32, a factory worker.

During the next two years he really learned about travelling; Sixty-one Base, Seventy-six base, Thirty-nine Wing, Nine Personnel Distribution Centre.

In time, Father Dunphy returned to Canada, spent a short time at number One Repair Depot and eventually was transferred to No. 6 RD in January 1946. On the first of October 1946 Father Dunphy was taken on strength of the RCAF as a Squadron Leader. On the move again in Oct. 1946, he was transferred to Eastern Air Command in Halifax. In July 1947, St. Dunphy was transferred from Eastern Air Command to Central Air Command now known as Training Command Headquarters.

On the 15th of Oct. 1950, his untiring efforts were rewarded by

the RCAF, when he was promoted to the rank of Wing Commander. His services have been recognized by these honours and awards: Canadian Forces Decoration, France and Germany Star, Defence Medal, War Medal, CVS M and Clasp, and Croix de Guerre with Palm.

SL H.J. Lynch was master of ceremonies for the remainder of the program, which consisted mainly in handing out gifts and wishes from the WC's numerous friends. Father Dunphy then took the stand to thank all his loyal friends and to do some of his personal reminiscing. The Choral Group ended the evening by presenting three numbers: Neapolitan Nights, Barcarolle and Blue Danube. (National Defence Photo)

Here's why You get GREATER VALUE when you use SHERWIN-WILLIAMS HOUSE PAINT!

SWP HOUSE PAINT
LOW PRICE OR "BARGAIN" TYPE HOUSE PAINT
45% F.S.
90% F.F.S.

SWP contains double the quantity of FILM-FORMING SOLIDS which determine the true value of paint!

High GRADE PAINTS are made from the best pigments and oils, which when properly combined and processed, produce approximately 90% of efficient film-forming solids. That is to say, approximately 90% of the paint actually remains on the surface to protect and beautify. Whereas cheap paints are made from inferior and sometimes worthless pigments in combination with excessive quantities of mineral spirits and water which after they have evaporated, leave from 40 to 45% of inferior film-forming solids.

The term *FILM-FORMING SOLIDS as applied to a house paint means the film or coating which remains on the surface after the paint dries. In the case of SWP House Paint, they equal 90% of the paint applied. In "low price" or inferior paint, their content is as low as 45%.

This means SWP House Paint will cover twice as much surface per gallon as cheap paint. In addition, the user of cheap paint sacrifices such important characteristics as durability, gloss and color retention, and self-cleaning properties.

Next time you paint, choose SWP quality House Paint for true economy.

*Figures shown on test tubes are based on white paint. Film-Forming Solids vary in case of certain colors.
