# TAEJON EVACUATED AS FALL APPEARS TO BE IMMINENT

## Britain May Send Tommies Into Korean Conflict

### Military Men Against Sending Brigade To Korea

OTTAWA, July 17—(CP)—Military opinion appeared tonight to be firmly against committing Canada's airborne infantry brigade to Korean action. Some informed quarters expressed doubt that the Cabinet, under present circumstances, will want to send any ground troops at all.

The government's top military advisers met today and will meet again tomorrow to consider proposals to place before Cabinet Wednesday as a result of the call for more aid for Korea.

Official circles said a series of alternative proposals are under consideration but these factors appeared to be shaping up:

1. It now appears unlikely that the Cabinet will consider sending the one regular army formation available, the three-battalion, airborne brigade that constitutes the country's main ground bulwark against attack.

2. People in key positions expressed doubt that Cabinet will agree to send any ground troops at all. But the army has come up with a suggestion that it recruit a new brigade to be trained for some months and dispatched to

Korea. This is under preliminary consideration.

3. If the plan is jettisoned or postponed, the brigade may still be raised to be ready for action elsewhere. This would mean a manpower increase for the army of 2,000 to 3,000 and some such form of manpower expansion is reported under consideration.

4. The government would probably place no bars in the way of Canadian enlistments for an international legion for Korea but no such formal proposition has reached here from U. N. headquarters where it is reported under consideration.

It is possible the government will offer some further Korean aid, say transport aircraft, but that it will suggest to Washington it

## Stalin Replies To Nehru's Message

LONDON, July 18—(Tuesday)—(AP)—Prime Minister Stalin has described the seating of Communist China on the United Nations Security Council as necessary for any settlement of the Korean conflict.

The Moscow radio today broadcast Stalin's reply to a message by Indian Prime Minister Jawaharlal Nehru on means of ending the fighting in Korea.

Stalin declared that the question should be taken up by the United Nations Security Council, with the "obligatory participation" of the Big Five. He also called for the Security Council to hear "representatives of the Korean people."

Stalin's price for far eastern peace was in line with proposals made by Nehru. His price is almost certain to be rejected by the United States and U.N., which have insisted that the North Korean forces must end their invasion of South Korea and return to their own territory of the 38th parallel.

A cooperative organization meeting will be held in Seven Mile Bay Hall on Friday, July 21, at 8:00 p.m. All interested please attend.

Dance, Vernon Hall, Friday, July 21st. Millview Orchestra.

Dance, Ice-cream, Iona Hall, Tuesday, July 18th.

Trustees and all interested please meet at Bradabane Cemetery, Wednesday, July 19th, 1 P.M.

Alexandra Women's Institute Ice Cream Social, Wednesday, July 19th at the School.

Lawn Party at South Millville Thursday, July 20th. MacNeill's Orchestra. Refreshments. Women's Institute.

Don't forget Picnic, Long Creek, Wednesday 19th. Supper commencing 5 p.m. Ice-cream, drinks, etc.

Dance, Bridgetown Hill, July 19th. Turner's Orchestra. Refreshments. Sponsored by Rink Committee.

Orwell Head Anniversary Supper, Chicken, Ham, Slads, etc. in the Orange Hall, Uxg, Wednesday, July 19th. Serving 5-10.

The dance which was to be held in Scuris Lane Road North School on July 19, has been postponed until further notice.

Dance, every Wednesday night at North Rustico Hall. Modern and Old Time. From 9 till 1. Good music. Al Blanchard's Orchestra.

## Will Supplement Naval Forces Now In Action

LONDON, July 17—(AP)—A qualified informant hinted today that British troops will be sent to the side of hard-pressed United States forces in Korea.

"More than just a token force is needed from us and other United Nations members in the long campaign that seems to lie ahead. We are committed to helping. This country does not shirk its commitments."

At the same time the five Brussels pact powers—Britain, France, the Netherlands, Belgium and Luxembourg—unexpectedly called a meeting in Paris of their defence ministers for Thursday.

Diplomatic sources said the five defence ministers probably will consider jointly the request of U. N. Secretary-General Trygve Lie for military aid, especially ground forces.

Their task will be to see how much the five countries can send to Korea in view of the need of defences in Europe.

The hint of possible British land aid in Korea was given after the cabinet met in a special session and discussed the Asian situation with Robert Menzies, Australian Prime Minister; Field Marshal Sir William Slim, Chief of the Imperial General Staff; and Admiral of the Fleet Lord Fraser, First Sea Lord.

## Defence Progress In Newfoundland

OTTAWA, July 17—(CP)—Defence Minister Claxton expressed satisfaction today with the progress shown in defence organization in Newfoundland during the last year.

On his return from a combined holiday and inspection trip, he said he was "greatly pleased" with steps taken to improve the island's air, ground and sea defences.

He also said he hopes to see Canada's west coast defences just as soon as he can arrange to visit British Columbia.

While in Newfoundland he discussed civil defence, visited various units and the American military bases and saw new armories under construction.

He said Newfoundland has set up a naval reserve division, the Royal Newfoundland Regiment, the 16th Field Regiment, R.C.A., the 56th Independent Field Squadron, R.C.E., a search and rescue flight of the R.C.A., Sea Cadets, Army Cadets and Air Cadets, as well as the necessary staff organization to administer these.

"Few of us can be unaware of what will happen to this country unless some positive forces are brought to bear on the development of young citizens," he said.

"We are too well aware of the destructive forces in our midst—of those men and women to whom the spiritual and democratic is anathema—people who thrive on hate; twisted minds which hate all men who believe in freedom. These people never stop in their efforts to lead youth down the lanes of rosy promise, to the eventual slavery of the totalitarian state."

## More Than \$7,500,000 Contributed To Manitoba

WINNIPEG, July 17—(CP)—Manitoba said "thank you" today to some 1,000,000 Canadians and others who have given more than \$7,500,000 to help thousands whose homes suffered damage in the Red River floods.

The Manitoba flood relief fund officially wound up its appeal Saturday. Contributions totalled \$7,537,000, but fund officials said this figure will be increased by donations still coming in. The flow is likely to continue for several weeks.

In a statement expressing the general committee's gratitude, H. W. Manning of Winnipeg, general chairman of the fund, said the public response represented "a great opening of hearts from many lands."

The committee also thanked the thousands of volunteer workers who made the fund possible. It had not been an organized campaign in the usual sense. But the immediacy of the flood disaster had turned it into the largest undertaking of its kind ever conducted in Canada.

"Any expression of thanks," said Mr. Manning, "should incorporate a special word of appreciation to the national press services, daily and weekly press, radio networks and local radio stations."

The money raised is being used to restore household furnishings, goods and personal effects not protected by insurance or taken care of by governmental or other agencies.

## Exploring Possibilities In Fish Marketing Along Latest Scientific Lines

OTTAWA, July 17—(Special)—For upward of a generation, the Federal Fisheries Department has urged greater per capita consumption of fish. In the past, efforts to promote the industry have been chiefly through ministerial speeches and a few booklets, pamphlets and recipes. These have been found inadequate to meet the situation.

Canada's per capita fish consumption still stands among the lowest of any country in the world.

This summer will see a changed picture and vigorous action to develop and expand the domestic fish market. And Fisheries Minister Mayhew has been at his desk for the past month rounding out the master plan for Canada's fish industry.

Both the Minister and his top aides in the Department feel they've scored a bullseye in obtaining the services of Lorán E. Baker, ex-M.P., ex-Parliamentary assistant and ex-fisherman and businessman for the job of Canada's No. 1 fish salesman. Independently wealthy, experienced in the fishing industry and in policies of government, and a worker from the ground up, Mr. Baker is taking the post of director of the Fisheries Department in the desire to do something to aid his fellow-Maritimers. He thinks he can succeed.

Not only will the former M.P. for Yarmouth-Sheburne-Clare be

## Makes Stirring Appeal For Scout Leadership

Scouting, with its army of Canadian youth over 100,000 strong and its smaller army of adult leaders devoting their time, effort and money to the maintenance and development of the movement, was the theme of an inspiring address at the Charlottetown Rotary Club luncheon yesterday by Mr. Jackson Dodds, C.B.E., retired general manager of the Bank of Montreal and Deputy Chief Scout for Canada.

Taking as his subject "Preparing for Tomorrow Today," Mr. Dodds warned that the enemies of democracy are working unceasingly to spread their propaganda and expand their influence. Scouting, which is recognized as one of the best safeguards against totalitarian infiltration, needs above all things more leaders, and in this connection the speaker made a strong appeal for greater support from business and professional men.

"Few of us can be unaware of what will happen to this country unless some positive forces are brought to bear on the development of young citizens," he said.

"We are too well aware of the destructive forces in our midst—of those men and women to whom the spiritual and democratic is anathema—people who thrive on hate; twisted minds which hate all men who believe in freedom. These people never stop in their efforts to lead youth down the lanes of rosy promise, to the eventual slavery of the totalitarian state."

## Bodies Of Trapped Miners Found

LARK, Utah, July 17—(AP)—A mine official reported today five men trapped by smoke in the Lark mine were found dead today. Search for the other three continued.

The dead were identified by mine officials as Horace Martin Seal, 59, a hoist operator, and Byron G. Thomas, 46, surface foreman.

Their bodies were found 7,500 feet back in the Mascotte tunnel of the U. S. Smelting, Refining and Mining Company mine.

The five men have been sought since early yesterday when a fire started in the timbering.

The official said Thomas and Seal apparently were asphyxiated shortly after the fire started.

The bodies were located by rescue crews who entered the smoke filled tunnels shortly after a giant blower was installed to clear the fumes from the labyrinth of drifts.

Two five-man rescue crews still were hunting for the three other men in the lead producer.

## G.I.'s Fight Fierce Rearguard Action For New Stand

TOKYO, July 18—(Tuesday)—(CP)—Taejon's hours seemed numbered today as signs mounted that the United States defenders of South Korea were beginning a wide withdrawal toward a foothill line 35 miles southeast.

North Korean Communists in 10-to-1 superiority pressed on from their Kum River bridgeheads close upon Taejon. But latest field reports said the Americans still held the nearly deserted city.

Gen. Douglas MacArthur's communique issued at 12:35 a. m. Tuesday, (10:35 a. m. Monday EDT) said American troops in the "Kongju-Taejon-Nonsan triangle" had withdrawn to new positions "north and west of Taejon."

This triangle is more than 20 miles wide on each side, embracing an area of more than 200 square miles.

The Americans seemed headed toward more defensible terrain and away from the flat paddery land where Red armor and superior numbers have been so effective.

In Washington, an army spokesman said the next American stand might be on a high ridge some 35 miles southeast on the road to Kumchon. He intimated delaying actions would be fought all the way back.

Kumchon is 35 miles northwest of Taeju, road-rail hub north of the supply port of Pusan, and about 40 miles southeast of Taejon. Taejon airport, three miles north of town, was abandoned Monday

## R.C.M.P. Constable Dies In Hospital

GALGANY, July 17—(CP)—Constable Herschell T. Wood, 25-year-old son of R. C. M. P. Commissioner S. T. Wood of Ottawa, died in hospital here Sunday of injuries received when the R. C. M. P. patrol car he was driving left the road.

He was the third generation of his family to serve with the R. C. M. P. His grandfather, Zachary Taylor Wood served in the N. W. M. P. and R. N. W. M. P. from 1885 to 1915 when he died with the rank of acting commissioner.

Testifies That Former Editor A Communist

WASHINGTON, July 17—(AP)—Senate investigators have testimony from former Communist editor Louis Budenz that Joseph Barnes, former foreign editor of the New York Herald Tribune, was a Communist.

The testimony, taken behind closed doors last April 25, was made public tonight by a senate foreign relations subcommittee.

Budenz, one-time managing editor of the Communist Daily Worker, renounced Communism in 1945 and rejoined the Roman Catholic Church, now is a professor at Fordham University.

Budenz also identified a United States marine corps hero, a Brig.-Gen. Evans F. Carlson, as a Communist. Carlson, much-decorated hero of the Second World War, died in 1947 after he retired from service. He organized and led a group of raiders known as "Carlson's Raiders," which won fame in the Pacific theatre.

## Establishment Of Poultry Improvement Bd. Favored

Plans for the formation of a Provincial Poultry Improvement Board were passed at a general meeting of poultry men at Birch Court last evening.

The purpose of the Board is to improve packing and marketing practices, and to look into the possibilities of more efficient production methods. Plans for the new Board were drawn up by the Federation of Agriculture, and it was suggested that the Board consist of seven men as follows: Representatives of Queens, Kings, and Prince Counties, repr. of Approved Flock Association, repr. of Egg Graders, repr. of Hatcheries, and repr. of Poultry Processors.

The principle of the plan was passed by the meeting of approximately forty men and women from various phases of the poultry industry with details of the plan to be considered at another meeting in about a month's time. Copies of the plan are to be forwarded to interested parties before the next meeting.

The meeting was presided over by Chairman D. A. MacDonnald, Glenfionn, of the P. E. I. Poultry

Advisory Committee, and the plan was read by Mr. Leo MacIsaac, Secretary of the Fed. of Agriculture.

Purpose of the general meeting was to discuss the findings of the advisory committee, appointed last year, after the Dominion Government had advised the poultry industry that unless the methods of producing and marketing were improved, support by the Government could not be expected.

Mr. F. M. Nash and Mr. Leo MacIsaac each stressed the need of such a board as the one proposed, and Mr. Nash stated that unless methods were greatly improved there would be no place for the poultry industry in ten or fifteen years' time.

It was stated that a number of representatives from P. E. I. had attended the Maine Broiler Festival, and one of those who had been present declared he had seen one factory which killed 1,100 birds every hour, seven days a week. Refreshments were served by the Approved Flock Assoc., at the close of the meeting.

## Firearms Expert To Stand Trial

SIMCOE, Ont., July 17—(CP)—A wartime firearms expert was ordered today to stand trial for the cold-blooded murder of two farmers who tried to foil a bank bandit's escape.

Joseph Herbert McAuliffe, 32, was identified by three persons as the bandit who held up the Imperial Bank in Langton, 15 miles southwest of here, last June 24.

The holdup man, police said, shot and killed Arthur Lierman, 31, and William Godyn, 24, as they tried to overtake him and recover his \$22,500 loot.

They were slain after trailing the bandit's getaway car for almost 10 miles and catching up with it when it plunged out of control into a ditch.

The weapon, police said, was a sub-machine gun. Most of the bank money was recovered in the getaway car.

McAuliffe, who was an ordnance artificer—an expert on guns—with the Canadian Army during the war, was committed for trial on three charges: two of murder, one of bank robbery.

Twenty-three crown witnesses testified at the all-day preliminary hearing. Evidence at first related only to the Lierman murder charge. With defence counsel's consent, it was offered also in the other cases.

(Continued on page 5 Col. 5)

## Firearms Expert To Stand Trial

WINDSOR, N. S., July 17—(CP)—A pumping demonstration by the Windsor Fire Department under the supervision of Chief Walter Stephens highlighted today's fire chiefs convention.

Visiting fire chiefs and delegates had high praise for the efficient manner in which the Windsor firemen handled their equipment.

More than 100 delegates are expected to be on hand tomorrow morning for the official opening at which President W. B. McNeil, Summerside, P. E. I., will preside.

(Continued on page 5 Col. 5)

## Scotland Yard Aiding Investigation

PORTSMOUTH, England, July 17—(Reuters)—Scotland Yard's special branch, the Police Arm which counters subversive activities, was called on late today to aid investigators investigating last Friday's dockyard explosion here.

The special branch was asked for any information in its dossiers about suspects in the Portsmouth area.

(Continued on page 5 Col. 5)

## Increase In Lung Cancer Partly Blamed On Smokes

PARIS, July 17—(AP)—Three teams of scientists today blamed most men with lung cancer had smoked cigarettes at least 20 years with less lung cancer among men who never smoked. Women are far less susceptible to lung cancer, Dr. Ochsner said.

Dr. Ernest L. Wynder, Washington, reporting with Dr. Evaris A. Graham of St. Louis, told of a survey of more than 700 persons with lung cancer. In this group there were only nine non-smokers among 650 men, he said.

"About 95 per cent of the men with cancer were at least moderately heavy smokers—a pack a day—for at least 20 years, with over 90 per cent being cigarette smokers," Dr. Wynder said.

"Among cigarette smokers there was more than a 1-2 times more cancer of the lung and larynx than among male non-smokers."

"Pipe smokers had about twice as much cancer of the lip and larynx as non-smokers, but no increase in lung cancer."

"Cigar smokers showed no more significant increase in any type of cancer than non-smokers."

"Persons who used more than one type of smoking had a higher incidence only of lip cancer."
