An Islander highly distinguished in Rome.—We have lately had the pleasure, from time to time, of chronicling the success of many an Islander in other lands. We have never yet, we believe, recorded a more brilliant intellectual triumph than that lately gained by one of P. E. Island's sons in the world-renowned College of the Propaganda, Rome. At the annual examination held towards the end of the scholastic year of 1866–67, Mr. Cornelius O'Brien, a native of this Island, gained the first prize in all branches of the first or highest class of Philosophy; and, what is still more satisfactory, had the honor of carrying off the Gold Medal. It may not be amiss to state that this medal is not, as might be expected, conferred every year on the most deserving: this mark of distinction is reserved for those who display an altogether extraordinary degree of talent and application, and, therefore, is sometimes not conferred for several years. Mr. O'Brien commenced his classical studies, as many of our readers know, in Saint Dunstan's College, and his present brilliant success, against students of every climate and tongue, speaks very highly, indeed, for the thoroughly solid nature of the instruction imparted at St. Dunstan's. We congratulate the friends and relatives of this young gentleman on his marked success, and the Island in general on this great triumph gained by one of her sons in a competition against the world.

Melancholy Accident.—On Tuesday morning last, as Mr. George Scott, of North River, was on his way to town with a load of oats, the cart wheel got into a deep rut, and he was thrown off, and falling with his head downwards remained in that position, until some parties who were at a considerable distance behind, came up, and found him bleeding freely at the nose. Medical aid was sent for immediately, but the injuries received were beyond cure. Mr. Scott died in a few hours after the accident. The deceased was an honest, sober and industrious man, and highly respected in the community where he resided.—*Pat.*

That Enemy of Mankind, Consumption, can be cured, but it is far better to prevent the cruel disease from fastening itself on the system, by the timely use of a remedy, such as *Dr. Wistar's Balsam of Wild Cherry* affords.

A Sign of the Times.—Summerside is beginning to be alive again. The fall trade bids fair to be brisk, and as far as the farmers are concerned, profitable. Oats are in good demand at 2s 6d per bushel. Potatoes sell for 1s 4d; barley is dull, good two-rowed bringing no more than 3s 6d. There are quite a number of vessels at the wharves; three new ones—Capt. Richards', Mr. A. MacMillan's, and Mr. J. A. McDonald's, all loading with oats for the Home Market. The "Princess of Wales" was on Wednesday morning literally crammed with freight. She took on board at Summerside alone about 400 Sheep, 200 barrels of Oysters, and 200 bushels Barley; besides a horse or two. Several horses were left behind, there being no room for them in the boat. The town today is quite a different looking place from the dull, dreary spot it was two or three weeks ago.—*Summerside Journal, Oct. 17.*

The Best Place to spend your Money is undoubtedly, where you will get most for it. And as all are agreed that R. Young's is the cheapest store in town, we would advise all our friends who have money to spend, to do so there. He does business upon the "No second price system," having all his goods marked in *plain figures.* tf

The death is announced, in the parish of St. Martin, Colchester, England, of Mrs. Ann Rumsey, widow, in her one hundred and fourth year. It is an interesting circumstance that she was the daughter of the celebrated navigator Capt. Cook.

How early it gets late now a days.

LATEST NEWS BY TELEGRAPH.

FROM EUROPE.

Paris, Oct. 15.—It is reported that if the condition of affairs around Rome should become critical the Pope will leave the city and take refuge in Bavaria, where he has been offered an asylum.

Florence, Oct. 15, (evening).—Gen. Garibaldi has sent out another address from Caprera, in which he earnestly calls upon the Italian nation to arm.

Turin, Oct. 15—(evening).—Mazzini has issued a manifesto in which he expects the Italian patriots in Rome to raise and proclaim a republic.

Florence, Oct. 15 (evening).—Many people here believe that Gen. La Marmora, who is in command on the Papal frontier, will order his troops to cross the line and occupy the Pontificial territory and possibly march on Rome.

London, Oct. 16.—There is a wild rumor that the Fenians are planning an attempt to seize the person of the Queen at Balmoral. Although little or no credence is given to the report, precautionary measures have been taken, and the household guard at Balmoral is doubled. ....The last advices received from the Roman territory report that the Papal forces are falling back towards Rome.....It is reported that Marshal Narvaez, the Spanish Prime Minister, has offered to the Emperor Napoleon the assistance of Spain in sustaining the temporal power of the Pope.....The Emperor Napoleon, accompanied by Eugenie, has arrived at St. Cloud from Biarritz.....The Fenian alarm is spreading. ...The Government is in receipt of many despatches announcing the possible plans of the brotherhood. ...Troops and gunboats have been despatched to Ireland, and the entire western coast of that Island is guarded with extraordinary vigilance. ....The prize fight between Mace and Baldwin has been indefinitely postponed, owing to the arrest of the former.

London, 16, (ev'ng).—Despatches received from Italy this evening are very important. The entire press of Italy, almost without exception, favor the seizure of Rome by the Government. The strength of the party of action increases hourly; the recent successes have given them new courage. Sharp fights have occurred near Fornez and Alfine, as well as at other points in the Province of Viterbo, in all of which the insurgents have been successful. The Pope has called an immediate meeting of the Cardinals to consider the situation.

London, Oct. 17.—The weekly returns of the Bank of England show the amount of specie in the vaults decreased £847,000 since the last statement made Oct. 10th. Large amounts of specie have been shipped from London to Paris during the past week, and the current still continues in that direction.....The London *Times* to-day contains a long editorial on the Roman situation. It says Prime Minister Rattazi must order the national troops to Rome, and anticipate there the arrival of both Garibaldi's volunteers, and the regular troops of France. The article concludes by declaring that the boldest policy is the best for Italy, and advising her to seize Rome, and then treat with France. News from the South continues favorable to the party of action. The Garibaldians have taken possession of Nerala in the Papal States, where they have entrenched themselves, and wait the arrival of other bands to increase their number sufficiently to enable them to make a further advance.... Signor Acebi, one of the deputies to the Italian Parliament, is Commander-in-Chief of the insurgents in that quarter of the Roman territory.....Just before the departure of the Emperor from Biarritz, on his return to Paris, he summoned a general council of his Cabinet to meet him at St. Cloud, to consider the condition of affairs in Italy, and to decide what action France should take in the matter. The council was held yesterday, the Emperor presiding. The result of its deliberations was the resolution that France should immediately intervene for the settlement of the Roman question, but without acting in conjunction with the Italian Governmen to that end..... The *Moniteur* of yesterday in a leading editorial reproaches the Italians for violating the laws of nations, disregarding the obligations of solemn treaties, and fostering the dangerous spirit of republicanism in Italy. ...Owing to continual disturbance in Italy, and the prospect of French intervention, financial depression on the bourse increases, and rents are steadily declining.

London, Oct. 17, *evening.*—The Emperor of Austria has referred to his council of Ministers for their consideration the address received by His Majesty from the congregation of Roman Catholic Bishops of the Austrian Empire which recently assembled in Vienna. The address protests against the adoption of a new Concordat, and strongly urges the Emperor not to make any revison in the Sacred Treaty now established between Austria and Rome. In his communication to the Ministerial Council the Emperor reproves the Austrian Bishops for adopting a paper so liable to create public excitement at a time when tranquility is indispensable for the restoration of the country; and he takes occasion to remind them that the Emperor of Austria is a constitutional Prince as well as a true son of the Church. ...The Paris *Moniteur* this morning asserts that the inhabitants of Rome and the Papal provinces are loyal to the Pope and only need assistance to drive the Italian invaders from the soil.

Advertising.—The following remarks respecting editorial puffs from the Montreal *Daily News* are to the point:—"The publication of advertisements is as much in the business of a newspaper as the publication of the news, and an editorial notice which is designed to supply the place of or add value to a regular advertisement, has even less claim to a gratuitous insertion than would such an advertisement. Yet there are those who ask just such gratuitous notices, and this almost is a matter of right. If these same persons should be asked to make a present of a dozen yards of muslin to each purchaser of a marino dress, or a dollar's worth of sugar to whoever bought three pounds of tea, or half-a-dozen "free tickets" to whoever engaged twenty seats at a concert, they would resent it as an insult. Yet why should not their wages be given away as freely as should, and are, the product of the editor's and publisher's labor and capital? The merchant makes his profit and living by selling his goods. The publisher of a newspaper makes his by selling his advertising columns, not by giving them away."

At Marblehead, Mass., on Monday, the staging around the new Baptist Church gave way and precipitated seven men to the ground, a distance of forty feet. One man was instantly killed, four were so badly hurt that it is thought they must die, and two were dangerously injured. Among the four who cannot survive is Luke Bogart, of Bear River, N. S. He had his legs and jaws broken. On the same day, four men repairing a building, at West Albany, N. Y., were precipitated fifty feet by the breaking of the scaffold, and were all badly injured. Mrs. Webster, the mother of nine children, died on the same day at New York, from an overdose of morphine, administered through the carelessness of an apothecary's clerk. On Sunday, at Canton, Ohio, Ferdinand Hoffman killed Caroline Jast, during services in a church by stabbing her eleven times with a large butcher knife. She had been divorced from him. He is a well known desperado, and barely escaped being hung by the mob as he was being jailed. On the same night, a New York policeman was so badly beaten by a gang of roughs that he is not expected to live. On Saturday whilst the Massachusetts State Constables were making a descent upon a gambling establishment in Westfield, they were attacked by a mob of several persons. In the *melee* a roiter named Brooks was killed, and several persons were badly hurt.

A Rush after Oats.—The season for grain shipments being at hand, our merchants are busily (fiercely) engaged in buying up oats and barley. Oats is the favorite commodity, and the way our farmers who come in with that grain are beset by runners and excited buyers is a caution. From 2s 3d per bushel, oats rose on Thursday last to 2s 6d, and at that price is disposed of as fast as it arrives. One of our subscribers in the Southwest informed us that he had 1000 bushels of his own raising to sell. At the price of 2s 6d per bushel, he would pocket the snug little sum of £175. Who will say after this that farming is not a good business? Per contra, another subscriber, from the neighborhood of Barret's Cross, informs us that his oat crop, both in straw and grain, turned out poorly this summer.—*S. Progress.*

Academy of Music, Kent Street.—The second of the series of Musical Soirees will take place in the above Hall, on Thursday, October the 31st. If we may judge the attendance by the success of the first of these Soirees, we may expect the Hall to be crowded by those professing to be lovers of the higher class of music.

Holloway's Pills.—Premonition.—The opinion gains ground that disease is a diminution of vitality, and there is little doubt that the powers of life are principally depressed by impurities in the system. This depravity can be corrected by taking a course, or an occassional dose, of Holloway's famous purifying Pills, which expel all morbid matter from the circulation, and thoroughly cleanse and invigorate the glands, viscera, and brain. Through this wholesome influence, Holloway's medicine casts out the seeds of all fevers which, in sultry weather, prove so formidable to health, and in a vast majority of cases destroy by taking these excellent Pills when lassitude, headache or dejection distresses us.

All Four Footed Beasts.—*Horses, Cows, Sheep, Hogs,* "Et Hoc Genus Omni," should be given, at least once a week, a dose of *Carlton's Condition Powders.* By doing this, you will find your reward in the large price you can obtain for them. These Powders are invaluable to all Stock raisers; they Invigorate and Strengthen all animals, enabling them to sustain exposure to the weather or excessive work, without injury, and are useful in all cases, and perfectly harmless. Try CARLTON'S CONDITION POWDERS.

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

Or Worm Lozenges. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "Vermifuge Comfits," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making Brown's "Vermifuge Comfits" is such as to give the best possible effect with safety.

Curtis & Brown, Proprietors, New York. Sold by all Dealers in Medicines, at 25 cents a box.

All the Ladies Say so!

That Selee's Hair Life is just the nicest Hair Restorative in Charlottetown. It never fails to restore grey hair to its original color, and always stops the falling of the hair, while it promotes a lively, luxuriant growth, removing all Dandruff, scurf and humors, especially Salt Rheum. It is, also, a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft and glossy.

Mayor DesBrisay has sold it the past year, and says *all* give it high praise. Our customers will find a fresh supply at Apothecaries' Hall. Money refunded if it fails to satisfy, so you will not be *humbugged*, as with other things.

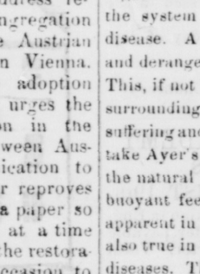
Ayer's Pills.



Are you sick, feeble and complaining? Are you out of order—your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural operations of that part. This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative expels them. Caused by similar obstructions and derangements, they are surely, and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatis countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by Dr J. C. Ayer & Co., Lowel Mass., and sold by all Druggists and dealers in medicine everywhere.

A WORD TO THE WISE.

THE undersigned wishes to notify all those who are indebted to him by Bond, Note, Book Account, Rent or Purchase of Land, that unless their respective obligations, which are over due, as also those which may hereafter become due, are not paid on their coming to maturity—and which have been so often renewed—are not paid, coercive measures will be resorted to for the recovery of the same, without distinction of persons, as he particularly wishes all outstanding debts to be brought to a close.

Hoping that this will be sufficient notice for them to keep out of the Lawyer's hands, from whom they may expect no mercy, as they must do their duty.
