A WATER CYCLE TANDEM.

There have been many efforts to apply the bicycle principle to the propulsion of light pleasure crafts; some of which have been attended by a fair measure of success. An Indianapolis newspaper man has built a water cycle, with which he proposes this summer to make an extended trip over all the rivers of the country.

The water tandem cycle is a German idea, and one of the attractions on the lake of Potsdam. It is a flat-bottomed canoe-shaped boat. The standards of the wheel are stationary. The wheels are paddles and pass through the bottom of the boat. Two lusty cycle motormen are enabled to give the craft a speed of ten miles an hour with a passenger aboard. The cyclist on the front seat steers by means of his handle bar.

Nothing is More Pitiful

Than the condition of the consumptive when the life is slowing ebbing away. But science has come to the rescue, and all afflicted that way may be restored if they will only take Miller's Emulsion of Norwegian Cod Liver Oil. It is as sweet as cream, so that the most fastidious can take it. After a few doses new blood comes to the rescue, and in a short time the patient is about again, hungry and hopeful, with a new lease of life. It will almost raise the dead. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula and all Lung affections. In big bottles, 50c. and $1, at all drug stores.

In all governments there must of necessity be both the law and the sword; laws without arms would give us not liberty, but licentiousness; and arms without laws would produce not subjection, but slavery.—Colton.

A Comfort Sometimes.

When health is far gone in Consumption, then sometimes only ease and comfort can be secured from the use of Scott's Emulsion. What is much better is to take this medicine in time to save your health.

Charlotte Bronte manuscripts have been bought from her husband and others for the purpose of publication. They are more numerous and important than has been supposed, and will make a substantial addition to her work, both in prose and poetry.

PHOTOGRAPHY

Superior workmanship, refined finish and moderate prices combine to make these Photos the most satisfactory in Charlottetown to-day.

Scientific American

Largest circulation of any scientific paper in the world. Splendidly illustrated. No intelligent man should be without it. Weekly, $3.00 a year; $1.50 six months. Address, MUNN & CO., PUBLISHERS, 361 Broadway, New York City.

ODDS AND ENDS.

King Prempeh, of Ashantee, who has bowed the knee to the English, made only one condition before his complete surrender, and that was that on occasions of state he should be allowed to wear the uniform of an English colonel.

Tore His Flesh in Agony.

"I was troubled with blind itching piles for 20 years; was unable to work and tore my flesh in agony. United States and Canadian doctors failed to relieve. Chase's Ointment was a God-send. I am a better man than in 20 years, and am able to work every day." Philip Wallack, blacksmith, Iroquois, Ont. Chase's Ointment cures piles, eczema and irritant diseases. All druggists, 60c. per box.

The great hurricane of August, 1830, which was traced from the Caribee Island to Newfoundland, travelled the distance in 3,000 miles, in six days.

WASTING YOUR LIFE.

Failure of Physical and Mental Force—To add to Length of Life—Use Dodd's Kidney Pills.

With a pathetic sigh how often it has been said:

"Well, then, I suppose I must let go my hold on life."

To fathers and mothers of unreared children this is tragic.

But whence cometh sure and timely help? If death is preventible, how?

The timely answer is: By scientific and successful kidney treatment—by using Dodd's Kidney Pills.

Hundreds write to thank us and tell of their cure, but none to say that Dodd's Kidney Pills have ever failed.

A medical expert says that an excellent test of whether or not a man is sober is to ask him to repeat the sentence: "The artillery extinguished the conflagration early."

With Invalids.

Yes! with invalids the appetite is capricious and needs coaxing. That is just the reason they improve so rapidly under Scott's Emulsion, which is as palatable as cream.

The French State railroads are about to build passenger cars in which the parts usually made of iron and copper will be made of aluminum. The axles and wheels, however, will continue to be made of steel.

A Forty-Year Old Grievance Removed.

In Bath, Ont, Chase's Kidney Liver Pills are a standing remedy. Joseph Gardner, of this town, suffered for 40 years with indigestion and its ever present accompaniments—constipation and headache. K. & L. Pills are the only remedy that gave him relief. 25c. a box, of all druggists. One pill a dose.

Bismarck once observed that "It was a long time before his poor mother could be persuaded that in hatching him she had not produced a goose."

25 cents cures Catarrhal Headache.
" " Incipient Catarrh.
" " Hay Fever.
" " Catarrhal Deafness.
" " Cold in the head in 10 min.
" " Foul breath caused by Catarrh.

25 cents secures Chase's Catarrh Cure with perfect blower enclosed in each box. Sold by all dealers.

"Trilby" has been translated into Russian, and a Trilby craze is agitating St. Petersburg. The Russian name of Mr. Du Maurier's omnipresent novel is "Katia." The translation was made by a Russian named Temnoff.

Rubbing It In.

Never use a liniment for rheumatism, says a high medical authority. Don't rub it in—drive it out. Take something that removes the acid poison from the blood—take something that will improve your digestion, and build up the body to the perfection of robust health. That "something is Scott's Sarsaparilla, a remedy that obtains the best results in the shortest time. $1, of all druggists.

The Russian exiles in London will appeal to the public to contribute to a fund for the support of Mme. Stepniak, the widow of Sergius Stepniak, who has been left in straightened circumstances.

Bad Blood Between Them.

The ever-slaving farmer's wife, her delicate sister in the city, suffer more than they care to tell. The dark rings round the eyes, headaches, dizziness, palpitation or rheumatic twinges, betoken a run-down system. The blood is poor, and is a bar to enjoyment of life. Scott's Sarsaparilla purifies the blood, strengthens and vitalizes the system, and speedily restores the bloom of health to the cheeks. It cures when all others fail.

PAST YOUR PRIME

Perhaps not in years, but in energy. Your health is not good, yet you hardly know what is the matter with you. Your business, too, is on the decline. People miss the old elastic spirit you showed in former years. The secret of all this is that your constitution is worn out and your blood is bad. Set both right by the use of Chase's Kidney-Liver Pills. One box will cure you

Dyspepsia.
Rheumatism
Catarrh.
Headache.
Ailments peculiar to women.
Scrofula.
Enervation.
Sciatica.
Poor blood.
Indigestion.
Liver complaint.
Loss of appetite.
Severe kidney diseases.

Thousands of sufferers have publicly testified to the efficacy of Chase's Kidney-Liver Pills. They are the best, so use the best. One pill a dose; one cent a dose; 25 cents a box.

For sale by all dealers, or by the manufacturers, Edmanson, Bates & Co., Toronto.

Use Chase's Linseed and Turpentine for all throat and lung troubles. Large bottle, small dose, small price, 25c.

Watches, Rins, Chains.

G. H. TAYLOR,
North Side of Queen Square.

Valuable Property For Sale.

The subscriber offers for sale the desirable residence, "Edenhurst," on West Street, between B. Heartz, Esq., and Hon. L. H. Davies'. The property has 84 feet fronting on West Street and 200 feet to the water.

The house is heated throughout with hot water; also a well of spring water in cellar.

LAST OF BUFFALOES.

LESS THAN ONE HUNDRED OF THE ANIMALS IN THE UNITED STATES.

The Fears of the Scientists Who Love the Study of Natural History—Habits of the Buffalo—A Four Million Herd of Moving Flesh

The scientists of Washington are much alarmed at the possible extinction of the buffalo. Mr. Lumley, the head of the Smithsonian Institution, says Frank C. Carpenter in Philadelphia Press, does not think that there are as many as 100 buffaloes left in the United States. There are a few in the National Park, a small herd at Washington and in the Zoological Gardens at Philadelphia. Austin Corbin, the New York millionaire, has several, and it may be that there are some small scattering herds in different parts of the west. Of these, however, the Smithsonian Institution has no record, and such as exist are probably half-breeds. The only pure buffaloes outside the above are those of the Yellowstone Park, which two years ago numbered about 200 head, and which are now reduced to fifty.

It is Mr. Langley's idea that they should be brought to Washington and put in the National Zoological Park there. The main purpose of purchasing this park was for the protection of such things as the buffalo and other American animals liable to become extinct.

One of the largest buffaloes ever known was shot by Mr. Hornaday. It is now preserved in the National Museum. It is now five feet eight inches at the shoulders, and is ten feet two inches long from nose to tail. Many buffaloes weigh over 1600 pounds. The natural life of the animal is about twenty-five years. The cows usually breed once a year and begin breeding at the age of two years. The buffalo calf at birth is covered with red hair. This hair changes after a time to brown and then black. The hair on the head of a buffalo is very long. Many a woman, in fact, would be glad to have as long hair as one of the stuffed buffaloes in the National Museum, which measures, I am told, twenty-two inches.

The buffalo cows weigh less than the bulls, a good, fat one weighing from 1000 to 1200 pounds. They have small udders, but their milk is very rich.

The value of buffaloes has been increasing more rapidly than anything in this country. Town lots in Chicago are nothing to them. About ten years ago they were a drug on the market. Thousands of them were killed for their tongues, but a good buffalo is now worth at least $500 when dead. Its skin is worth from $100 and upward, according to quality, and the head is worth from $300 to $500 for mounting and preservation as a relic of this great animal of the past. Such is the value of a dead buffalo. Like buffaloes for breeding are worth much more, and I am told that the Government buffaloes are worth from $1000 to $2000 apiece.

Few people are now aware of the former wonderful extent of the buffalo. No animal has ever existed in such large numbers nor covered so much territory. In 1871, now only twenty-five years ago, Colonel R. I. Dodge rode for fifty miles through a herd of buffaloes, which he estimated as being twenty-five miles wide. This was along the Arkansas River.

At one point he was able to get upon a hill and he says he could see this vast herd of buffaloes stretching out from six to ten miles in every direction. The herd was moving, and it took it five days to pass a given point. Professor Hornaday says that at the lowest estimate there were 4,000,000 buffaloes in this one herd, and this, as I have said, was only twenty-five years ago. In 1868 a traveler along the Kansas Pacific Railroad states that the train at one time passed through 120 miles of solid buffalo. The plains were blackened by them, and more than once the cars were stopped by them. The best authority of the National Museum as to the early buffalo is George Catlin, who spent the greater part of his life in the west studying the Indian, and who made many pictures of the buffalo as they existed before the great destruction began. He tells of herds of millions, and says that their roaring sounded like thunder; and tells how the Indians killed them by the hundreds of thousands for their skins, for which they received only a pint of whisky apiece.

You would not think that such immense herds could be wiped out. The buffalo, however, are very dull beasts in many ways. They are a mixture of stupidity and intelligence which it is hard to understand. These mighty herds were made up of companions, or clumps, of buffaloes of from twenty to one hundred each, each clump being led and taken care of by one strong bull. In going for water one of the old cows of the clump would start ahead and rose along the track of a dry stream for miles until it found a waterway, the others of that company following in single file. The herd would then drink and would lie down to rest before eating. This would seem to mean a high degree of intelligence. But such eveidence is not shown in their attempting to escape from man. A hunter might lie with a repeating rifle near such a herd and pick off one after the other without apparently frightening or scaring the rest. If they ran it was usually against the wind, and they were cowards except when brought to bay.

A Straight Tip.

Mr. Newriche—What does this mean on Mrs. Bonton's card: "At home Tuesday?"

Mrs. Newriche (severely)—Josiah, I'm surprised at your ignorance. She wants to let us know what day she'll get back from the country.

That Depended.

He—Why not marry me? I am not rich, but what is enough for one is enough for two.

She—Have you enough for one?

He—Yes.

She—Which one?

FARM FOR SALE.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.

Children Cry for Pitcher's Castoria.

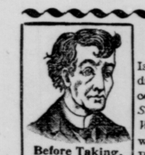
Charlottetown, June 19, 1895—135 w QUEEN STREET.



Before Taking.

Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 25 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.
