IN MEMORIAM

MacDOUGALL —In loving memory of my husband Charles MacDougall who died Nov. 14, 1941.
At home in the beautiful hills of God,
By the valley of Rest so fair
Some day some time when our work is done,
We shall meet out dear one there.
Lovingly remembered by his wife and family.

CARMODY—In loving memory of our dear father, Sgt. W.W. Carmody, who passed away Nov. 16th, 1953.
It was in the beautiful month of November
We stood by an open grave,
And saw friends lower our loved one
We would have given our lives to have saved,

But we knew that our tears could not waken,
Our dear one in his silent clay,
So we laid down our hearts beside him,
And silently walked away.
Always remembered by mom, brothers and sisters.

N.S. Premier Pleased With Power Project

ANTIGONISH, N.S. (CP)—Premier Stanfield is "very pleased" with the Maritime power plan unveiled in Ottawa by Prime Minister Diefenbaker. He said Thursday night it meets "the reservations and objections to power proposals of the previous federal administration."

Here to address students at St. Francis Xavier University. Mr. Stanfield said in an interview that the plan "meets our requests."

He said he is pleased by the subventions allowed by the federal government on the movement in the Maritimes of coal destined for use in power plants.

"The project will substantially reduce the cost of power," the premier said, "and will encourage the expansion of present industries and attract new ones."

No definite sites have been chosen for the Nova Scotia plants. Their location will be decided over a period of years "as the need arises," he said.

However, he said the 20,000-kilowatt $3,000,000 expansion program at the provincial power commission's plant at Trenton in Pictou County will continue. The expansion, started several months ago, may be brought under the new scheme, Mr. Stanfield said.

TO START RIGHT AWAY

He said he understands construction of a steam plant at Saint John, N.B., will start immediately.

Mr. Stanfield said it is "difficult to forecast" the ultimate cost of the whole project. The generating plants would be paid for over a 30 - year period, and the transmission lines' cost over 40 years.

Verbal Swing At CCF Leader

OTTAWA (CP) — A newly-elected Progressive Conservative Commons member Thursday took a hard swing at CCF Leader Coldwell, charging him with "the crudest kind of political horse-trading I have ever heard of."

Donald MacInnis, representing Cape Breton South, made the remark in commenting on a statement last week by the CCF leader.

At that time, Mr. Coldwell said the Saskatchewan government had offered to pay for power installations on the South Saskatchewan River. But since the federal government had promised aid to develop electricity in the Maritimes, Saskatchewan did not want to be discriminated against.

Mr. MacInnis said that all Commons members supported aid to Western grain growers on its merits, "not on a quid pro quo basis in return for comparable aid to the Maritimes."

If everything were done on that basis "it would mean putting national policies on the auction block of local self-interest."

Hisstatement followed an earlier announcement by Prime Minister Diefenbaker of federal aid to build thermal power plants in Nova Scotia and New Brunswick and to help finance the Beechwood hydro - electric project in New Brunswick. Mr. Diefenbaker said the basic concept of the policy would apply to the South Saskatchewan project if the provincial government made out a case for it.

NOTES COAL AID

Mr. MacInnis also referred to Mr. Diefenbaker's announcement that freight subventions will be paid on Maritime coal for power development in the Maritimes, aimed at reducing power costs.

He said that contrasts with an election campaign statement by Opposition leader St. Laurent that if power couldn't be produced at reasonable prices, the Maritimes would have to do without.
