CITY COUNCIL MEETING.

The Electric Light Tenders and Other Matters Considered.

The regular monthly meeting of the City Council was held last evening, the Mayor and all the Councillors being present.

After routine, a letter from the Stipendiary Magistrate was read informing the Board that policeman Thomas Taylor has been off duty since the 8th June in consequence of an injury sustained while on duty, and that his place has been filled by William Taylor.

A letter was read from the Secretary of the City School Board informing the Council that Hon. D. Farquharson's term of office as a member of the School Board had expired, and asking the Council to fill the vacancy.

Councillor Hughes moved that Mr. Farquharson be re-appointed. Councillor Tanton moved in amendment that Hon. T. H. Haviland be appointed. The amendment was not seconded, and the motion appointing Mr. Farquharson carried.

A petition was read from a number of residents of Grafton Street east, asking that the macadamizing of that street be extended to Wernmouth Street. Laid on the table.

Councillor Hughes presented the report of the Street Committee respecting the Bolger nuisance. According to the report the committee consider it injudicious to expend money in an attempt to drain Mr. Bolger's cellar. They also consider that if a sewer were placed, as requested by Mr. Bolger, it would injure the property adjoining and in all probability entail an other lawsuit on the city. The report was adopted.

Councillor Tanton submitted the report of the Public Property Committee concerning the management of Victoria Park. The report reads as follows:

To His Worship the Mayor, and City Council: The Public Property Committee and Mayor, under instructions of a resolution of Council have made careful investigation into the management of Victoria Park.

After making diligent enquiry and hearing all available evidence your committee report: 1. That the Park keeper admitted having cut down forty (40) trees of which ten (10) were sound live trees and that he sold about twenty of the trees receiving therefor the sum of two dollars. 2. That the Park keeper advised the Park Committee when spoken to, relative to the cutting of the trees—in fact denied at first having cut down good trees. This conduct your committee consider reprehensible and censurable and recommend that the Park keeper be reprimanded and that a repetition of the same or a similar offence ensure instant dismissal, also that he refund to the City, the \$2 collected and an additional sum of \$10 in part compensation for the trees taken.

Your committee feel that dismissal from the position of Park keeper would be in order, and the Council would be justified in so acting, but under all the circumstances, probably the best course recommended will for the present cover the case.

L. P. TANTON, D. L. HOOPER, F. P. MCCARRON.

After some discussion the report was adopted. Councillor Tanton then submitted the tenders for lighting the streets of the city. For reasons which he gave he said the Public Property Committee had not made a written report, but had decided to place the tenders before the Board and let them take such action as they deemed advisable. He pointed out that the lowest tender was from Mr. Walter P. Doull, who would undertake the work at \$60 a lamp per year. The tender has since been withdrawn.

CITY SCHOOL BOARD.—The regular monthly meeting of the Board of School Trustees was held last evening at 7.30. The enrolment for the past month was 1390—860 boys and 530 girls. The percentage of attendance was 86. Miss Sarah Harris, a teacher in the 7th grade in Prince Street school, was appointed Vice Principal, vice R. H. Campbell, whose resignation was accepted. Miss Lena Barrett was appointed to teach in the new department to be opened in West Kent street school. It was ordered that all the male pupils be transferred from Prince Street School to West Kent after the re-opening of the schools. The tender for coal for the city schools was given to Clarkin Bros., and the tender for whitewashing class rooms and halls in Queen Square School was given to Charles Matheson—these being the lowest tenders. The Secretary stated that he had received the Governor-General's medals for the city schools for 1895, but that those for '93 and '94 had not been forwarded yet. The grading report for the year was submitted. After reading a number of applications from teachers for positions in the city schools and the passing of bills the meeting adjourned.

BUILDING NOTES.

Our local architects, Messrs. Harris and Chappell & Phillips, have been quite busy of late making plans for churches, public buildings and private residences both here and elsewhere. Mr. Harris has made plans for St. Paul's Church, a description of which has already been published, and the work on which is being rapidly pushed forward by the contractors, Messrs. Lowe Bros. As the work progresses the artistic effects and colorings of the Island stone are becoming more and more apparent. It seems strange that this stone is not more generally used.

Mr. Harris has also made plans for a dwelling house for Mr. Rowland Moore, to be built on the corner of Rochford and Richmond streets, having a lawn in front, with verandah and bay window overlooking the avenue of willow trees in the lower portion of Richmond street. He has also prepared plans for two other dwelling houses in Charlottetown, and for a new Anglican church in Arichat, Cape Breton, and for a parish house for St. John's church, Annapolis.

Mr. Harris has also partially prepared the drawings for the interior completion of St. Joseph's new church at Kelly's Cross.

New Glasgow, N. S. is making preparations to build a new General Hospital. Plans were recently asked for and submitted by architects in Halifax, Charlottetown and other cities, and those prepared by Messrs. Chappell & Phillips, architects, of this city, were selected for erection. There will be a central administration building with wings containing large wards and an annex building for infectious cases, one story high.

Besides the new St. James's Hall, a description of which was published a short time ago and the work on which is being well pushed along by Mr. Chas. McGregor, Messrs. Chappell & Phillips have prepared plans and let contract to Lowe Bros. for a four story brick and stone building on the side of Queen Square for Mr. D. Gordon. The building will be 39x70 ft., and will be specially fitted up for Mark Wright & Co. as a furniture show and sales room establishment.

The same architects have prepared plans for a large brick and stone warehouse and show-room building for R. C. McLeod, Esq., of Summerside. The building will be erected near the Revere Hotel, on Kent St., and will be 42x120 feet, three stories high. The whole of the first story will be clear without posts, making the largest and finest show rooms on the Island. There will be a general and private office on the left, and the private office will be fitted up with an old-fashioned mantel of Island sandstone. The building will be completed early in the spring of 1896.

Messrs. Chappell & Phillips have also prepared plans for a handsome house for Charles Hermans, to be built on a site adjoining the residence of the Judge Palmer on Queen Street. Parkman & Crabbe have secured the contract for the erection of the building.

Mr. Thomas Campbell has during the summer made an extensive addition to his cottage on Richmond street. The rear portion of the house was moved back sixteen feet, and that much was added to the main building, giving a fine sitting room down stairs and allowing space for a comfortable bath-room, hall and spare bedroom upstairs. The work has been done under Mr. Campbell's personal supervision, and his cottage is now one of the best finished and most completely equipped in Charlottetown. The plumbing, etc., was done by McInnis & Thorne.

Davidson & Co. are building a store and warehouse on the corner of Kent and Great George Streets, into which they expect to move about the 1st of September. Parkman & Crabbe are the contractors.
