Toronto: Industrials mixed; selected issues advance.

New York: Stocks mixed; prices soften near close.

Montreal: Prices mixed; trading moderate.

N. Y. Stocks

NEW YORK (AP)—A lusterless session in the stock market Tuesday found prices mixed and headed lower at the close after spending most of the day on a higher level.

Aircrafts were quite strong in the afternoon but lost their best before the close. From Washington came reports of new and heavier emphasis on air defence spending.

The Associated Press average of 60 stocks lost 20 cents at $179.70. The industrial component was up 30 cents and the rails were down $1.00 with utilities holding unchanged.

Canadian issues were mixed. Distillers Seagram added ¾ and International Nickel gained ½. McIntyre lost ½, Canadian Pacific slipped and Dome Mines fell ⅛. Hiram Walker remained unchanged.

On the American stock exchange Lake Shore and Royalite Oil both remained unchanged and Giant Yellowknife dropped ⅛.

Montreal Stocks

MONTREAL (CP) — Industrial issues displayed a majority of minus signs at the close of moderate trading on the stock market Tuesday. A few good gains were scattered throughout the list, however. Mines and western oils fluctuated in a five-cent range.

Heaviest losers were the miscellaneous and pulp and paper sections. Utilities declined fractionally, while base metals pushed up strongly. Steels and senior oils were firm and carriers, beverages and banks were trendless.

International Paper dropped more than 3 points and St. Lawrence Corporation was 1½ points lower. Bathurst B slipped a point.

Winners in the base metal group were Aluminium, up 1½ points and Hudson Bay, up 1¼.

In the mines, Arcadia Nickel firmed 5 cents and Belle Chib slipped off the same amount. New Vinray closed 2 cents lower after hitting a new high of 70 cents during the day.

Industrial volume was 52,600 shares and mines 635,900. Of the 250 issues traded, 64 were up, 79 down and 107 unchanged with 6 new highs and 4 new lows established for the year.

The stock exchange's closing averages show banks up 0.14 at 49.69, utilities off 0.7 at 130.0, industrials off 0.1 at 288.7, combined off 0.3 at 253.8, papers off 9.81 at 1366.57 and golds off 0.44 at 74.37.

Toronto Stocks

TORONTO (CP)—Caution underlined Tuesday's stock exchange dealings, but while the market was rather mixed, selected issues mustered enough strength to push the base metal and western oil indexes ahead a point or more.

Chibougamau area issues continued active and mostly higher in the mines section. Campbell Chibougamau was up ⅜. New Royran and Merrill Island gained pennies. Quebec Nickel added 22 cents at $2.52 and Cassiar 40 at $8.75. Falconbridge and Step Rock were unchanged after touching new highs. Coppercorp lost 19 cents at $1.40.

A 35-cent advance to $7.20 by Preston East Dome was the main change in golds.

Uraniums were generally sluggish, but Algom moved up $1.25 to 18½ and the warrants 70 cents to $8.80.

Among the higher-priced western oils, gains ranging from 20 to 40 cents were marked up to Gridoil, Home Oil, Bailey-Selburn, Calgary and Edmonton and Pacific Pete. Petrol fell 31 cents to $1.76 as the heaviest loser.

Currencies

MONTREAL (CP)—The U. S. dollar closed Tuesday at a discount of 1-16 per cent in terms of Canadian funds, up 1-16. It took 9915-16 cents Canadian to buy $1 American. Pound sterling $2.80¼, up 3-16.

New Copper Ore Body Has Possibilities

TORONTO (CP)—A third copper ore body is a possibility at the Newfoundland properties of Maritimes Mining Corporation and Bathurst Mining Corporation, shareholders of the two companies were told at special meetings of shareholders which approved merger of the companies on a share-for-share basis.

M. J. Boylen, president of both companies, said two drills are being used to test a copper showing about five miles northeast of the main orebody at Gull Pond.

Efforts so far have been concentrated on the Tilt Cove property, where production is planned on an initial basis of 1,000 tons a day and a later 2,000 tons. First production is expected by late next year or early 1957. Ore reserves at Tilt Cove are estimated at 2,500,000 tons of two per cent copper.

The Gulf Pond property is expected to be brought into production about a year later. Ore reserves are estimated at 5,000,000 tons of 1.45 per cent copper and, on a selective mining basis, at 2,000,000 tons of two per cent.

Ailing NS Coal Industry Still Fighting Strongly

By IAN MacDONALD
Canadian Press Staff Writer

HALIFAX (CP) — Nova Scotia's ailing coal industry is still fighting for survival but two collieries have taken an optimistic view of the future.

One, the Four Star Colliery at Broughton in central Cape Breton, is a relative newcomer to the field while the other has been in operation for more than 75 years.

The Princess Colliery at Sydney Mines, operated by Old Sydney Collieries Ltd., gambled on failing markets recently and announced plans for an extensive mechanization program.

Company President L. A. Forsyth said that in the near future all coal will be mined by machines and the colliery's entire transportation system would be reorganized. The plan called for eight new mechanical miners, designed to tear coal from the working face and load it into waiting cars.

DOUBLES CAPACITY

Mr. Forsyth threw a switch to send a new 3,800-foot cable belt into operation and end a four-year $2,315,000 tunneling operation. The belt, designed to double the pit's daily 2,000-ton capacity, carries coal from the mine to the preparation plant where it is screened, washed and oiled.

The washing plant was installed last yeear at a cost of $1,000,000.

News of the proposed expansion was hailed by industry officials as the greatest advancement made in Nova Scotia mining methods since the Princess Colliery was opened in 1876.

J. Clyde Nunn, provincial labor minister, said the plan showed "a most graphic and compelling faith in the industry."

And Cape Breton miners feel the same way about the Four Star Colliery—which started as a multi-million-dollar project in 1903 and the same year was destined to become a dream that failed.

A British company built a model community as the first step in the project. A townsite was laid out with taverns, hotels and dance halls. All along the main street which stretched for two miles, miners waited to unearth the black gold.

PLANS WRECKED

At the 11th hour they learned the coal couldn't leave the pithead because running rights on the nearby railway has been denied the company.

Broughton became a ghost town and fell into decay until it was taken over in 1953 by George B. Burchell, president of the Bras d'Or Company Ltd., at a time when oil was making serious inroads on coal markets.

Today a series of conveyor belt carry the coal from the face of the seam to the pithead where it is processed and loaded into railway cars and shipped to Maritime points.

Broughton residents claim their mine is one of the most highly mechanized in Canada and one which has built an enviable reputation for good quality fuel in a few short years.

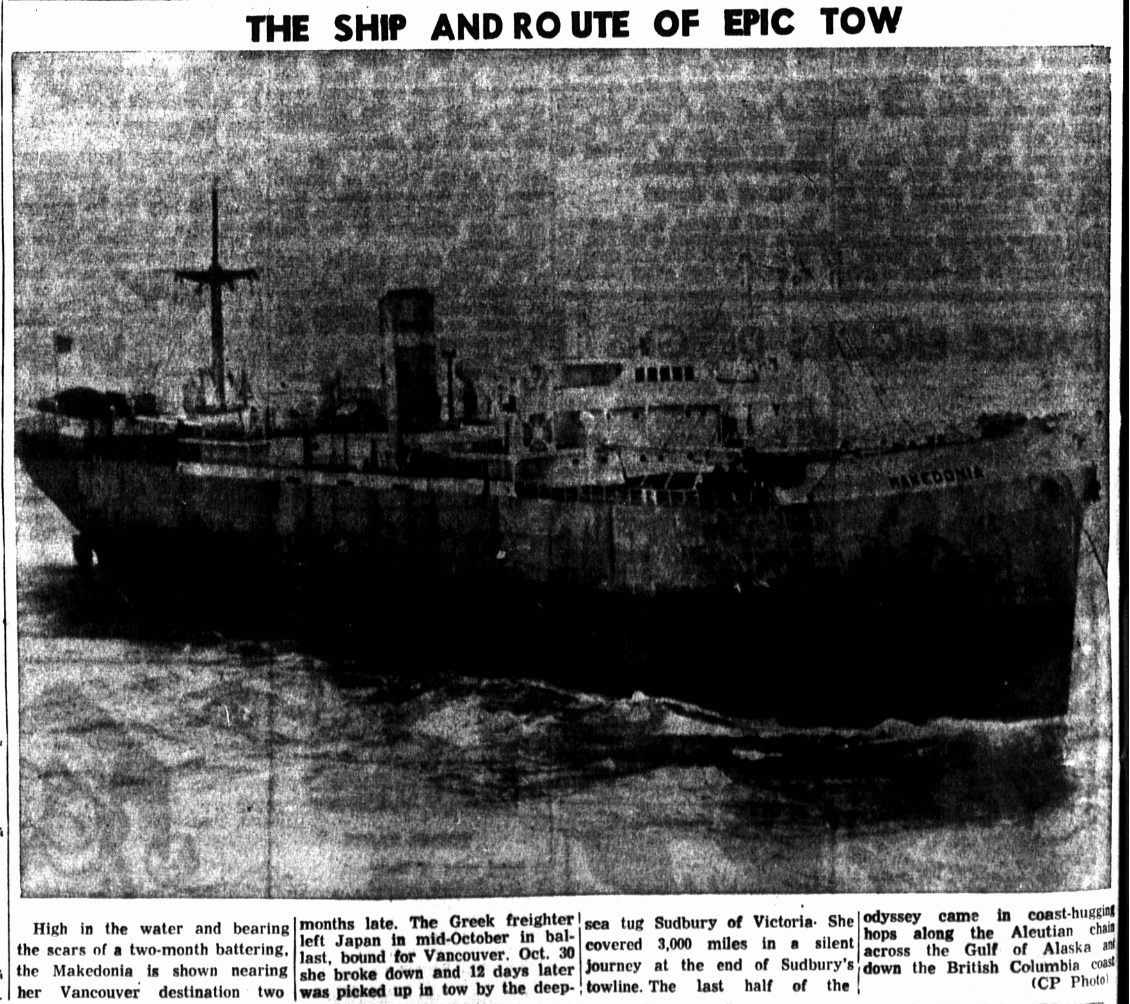
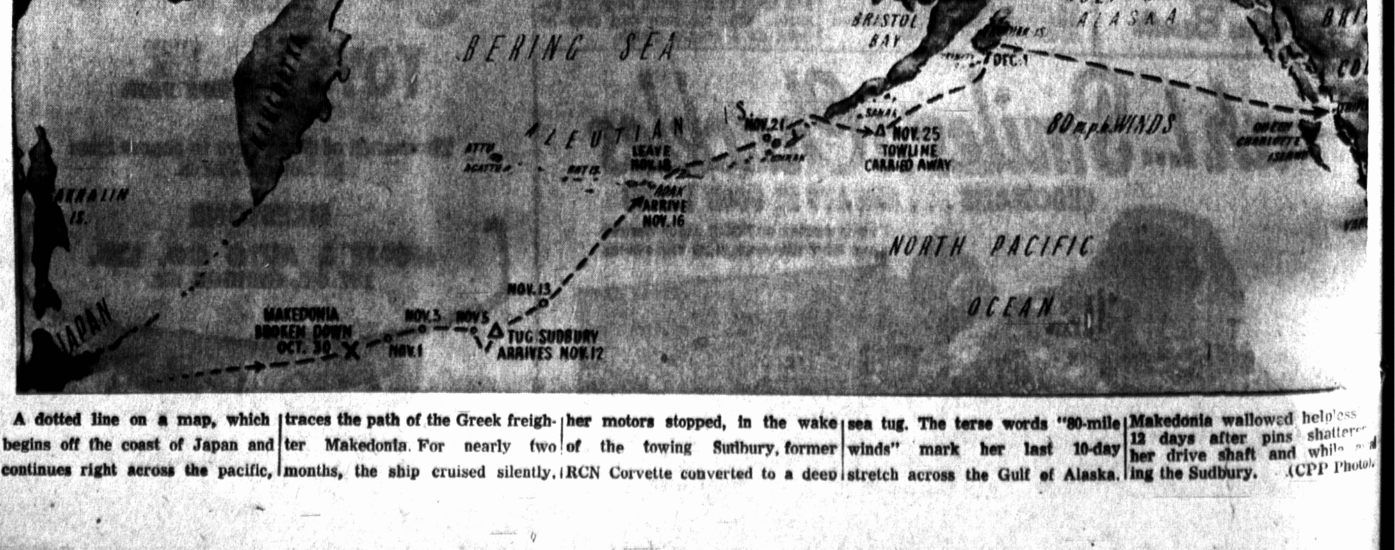
HUGE STATE

South Australia, one of the six states of the Australian commonwealth, covers 380,000 square miles.

THE SHIP AND ROUTE OF EPIC TOW



High in the water and bearing the scars of a two-month battering, the Makedonia is shown nearing her Vancouver destination two months late. The Greek freighter left Japan in mid-October in ballast, bound for Vancouver. Oct. 30 she broke down and 12 days later was picked up in tow by the deep-sea tug Sudbury of Victoria. She covered 3,000 miles in a silent journey at the end of Sudbury's towline. The last half of the odyssey came in coast-hugging hops along the Aleutian chain across the Gulf of Alaska and down the British Columbia coast. (CP Photo)



A dotted line on a map, which begins off the coast of Japan and continues right across the pacific, traces the path of the Greek freighter Makedonia. For nearly two months, the ship cruised silently, her motors stopped, in the wake of the towing Sudbury, former RCN Corvette converted to a deep sea tug. The terse words "80-mile winds" mark her last 10-day stretch across the Gulf of Alaska. Makedonia wallowed helpless 12 days after pins shattered her drive shaft and while awaiting the Sudbury.
