First Drive-In Bank Office

VANCOUVER, June 26 — The first drive-in office of a Canadian chartered bank opened for business here today. A branch of the Bank of Montreal, designed to serve our highly mobile age, the new bank provides speedy, efficient services for motorists at its outdoor drive-in wicket, a car parking lot, and even an indoor parking space for baby's pram.

Motorists intending to cash a cheque or make a deposit at the B of M's drive-in wicket, enter a driveway at the rear of the Bank

conduct their business without leaving their car and continue on out. The bullet-proof glass wicket is equipped with an inter-communication system to make conversation between teller and customer easier, and a buzzer to summon the teller if she happens to be away.

The bank's second special feature is its indoor parking space for baby carriages. The carriages are easily wheeled in through the front door, and can be left in safety while the lady of the house does her banking.

siderable importance and a feature of every good garden. It is still of real decorative value and gives interest and beauty to otherwise dull, shady corners of the garden. The fragrant hardy Dianthus or garden Pinks. They are easily grown from seed and every year I add new plants to the garden; there are many varieties in all shades of red and rose also in beautiful white and pink all with delicious fragrance and the old Sweet William is also making the garden bright in the different corners coming when it is needed so badly before the Summer blooming plants begin, they are a good companion for the blue Delphinium and the Foxglove.

Helleborus in the variety Aquilegillum and Diplocaepum, adding its feathery spray of mauve and cream flowers to the garden borders and with finely cut foliage resembling the Columbia is a hardy perennial and easy to raise from seed.

The bush Clematis is finer this year than I have ever seen, with sprays of fragrant cream flowers suitable for cutting and it is also a hardy plant for our climate.

There are a few Iris in bloom and since joining the Iris society and receiving the beautifully illustrated year book I would like to have many more of these wonderful hardy perennials in all the colors of the rainbow.

This week we had the longest day of the year and it was necessary for this gardener to arise at the early hour of four a.m. but the birds were singing an hour before that time and what singing! the poet Bilas Carman writes about birds in this poem.

When earth was finished and fashioned well,
There was never a musical note to tell
How glad was God, save the voice of the rain
And the sea and the rain on the lonely plain
And the rivers among the hills.
And so God made the marvellous birds
For a choir of joy transcending words,
That the world might hear and comprehend
How rhythm and harmony can mend
The spirit's hurts and ills.
So music dwells in the glorious throats
Forever, and the enchanted notes
Fall with rapture upon our ears,
Moving our hearts to joy and tears
For things we cannot say.
In the wilds the whitethroat sings in the rain
His pure, serene, half-wistful strain;
And when twilight falls, the sleeping hills
Ring with the cry of whelp-poor-wills
In the blue dusk far away.

ever see-Daddy's arms were full... and white sheep and black ones are all naked now, and the dear little lambs don't know their own mothers! They bleat and bleat... But you'd better hurry with the dinner for gran-daddy and me!

And tonight a South wind whippers a vague promise of rain to farm folk.
Until tomorrow, Diary, goodnight.

"NERVES" She Called It

Being interest-ing friends—she never went out any more—always too tired. "Nerves", she thought—but it was her kidneys—the filters of her blood—that needed attention. She used Dodd's Kidney Pills at once. The improved action of her kidneys helped to clear away blood impurities and excess acids. Fatigue, backache, headache, lack of energy disappeared. Dodd's Kidney Pills contain essential oils and medicinal ingredients that act directly upon the kidneys—and help restore their normal action.
