

THE DAILY EXAMINER

JANUARY 12, 1900

F. G. A.

The annual meeting of the Fruit Growers Association this year promises to be of more than usual interest. There are many important papers to be read at the day sessions of the Association by competent horticulturists which will elicit much valuable discussion, and no doubt will result in a great deal of good to horticulture in general. The meeting will be held at Charlottetown, morning and evening, on Wednesday the 24th inst., and a public meeting to which the general public is heartily invited, will be held in Kindergarten hall in the evening, where a most attractive programme of vocal and instrumental music, recitations and addresses will be provided. Messrs. Horace Hazard, John Newson and T. A. McLean have the public entertainment in hand, and this is an ample guarantee for its complete success. There will be reduced fares by rail.

THE MORRELL FACTORY.

The reports of the various cheese and butter factories throughout the province for the past year are now (or will be very soon) in the hands of the shareholders. It is pleasing to ascertain from such of these reports as have come under our notice that the season has been a good one.

THE MORRELL FACTORY.

The cheese factory at Morrell opened on the 5th of June and closed on the 27th October. During that time there were 625,873 pounds of milk received and the cheese made totalled 59,986 pounds. The average quantity milk for each pound of cheese was 10.34, and the total value of the cheese sold was \$6,022.34. The average net price of the cheese sold was 10.04¢. There were 95 patrons furnishing milk, 47 of whom were shareholders. The net value of the milk received was 76½ per hundred pounds. The highest amount of milk received was from Mr. Henry Coffin, who furnished 24,048 pounds valued at \$183.96.

ORAPAUD CREAMERY.

A summary of the business of the Orapaud Creamery from the 1st of May to the 30th November, shows that milk was furnished by 246 patrons and that the quantity supplied was 2,909,927 pounds. The quantity of butter fat in milk was 101,703.97, and the average percentage of fat 3.49. The quantity of butter made was 126,168½, the amount from one pound of fat being 1.24. The average price realized was 19¢ per pound, and the receipts from sales amount to 23,965.48. The net value of butter fat was 17.72. The average price per 100 pounds of milk was 62¢.

MOUNT STEWART FACTORY.

The cheese factory at Mount Stewart opened on the 1st May and closed on the 3rd November. Milk was supplied by 110 patrons, and the quantity received was 772,254 pounds. There were 76,851½ pounds of cheese made. The average quantity of milk to a pound of cheese was 10.04 pounds—the lowest average, so far as we know, of any factory in the province. The average value of milk was 82.45¢ per 100 pounds. The average price of the cheese was 10.16¢ per pound, the total receipts being \$7908.40. The value of the fat, plus two, was 14 7/12¢ per pound.

STANLEY BRIDGE FACTORY.

The factory at Stanley Bridge began the season's work on the 29th of May and closed on the 31st of October. There were 144 patrons furnishing milk, and the quantity received was 2,315,765 pounds. There were 215,070 pounds of cheese made, which sold at an average of 10.11¢ per pound. The total receipts for cheese was \$21,751.29. The quantity of milk required to make one pound of cheese was 10.76 pounds. The total quantity of butter fat was 127,843,000, and the average proportion of fat in milk was 3.52. The average price paid for milk per 100 pounds was 79.70. The value of butter fat was 14.44¢ per pound, on a basis of 2 p.c. added.

EMERALD FACTORY.

It was the 29th of May when the cheese factory at Emerald began work, and it closed on the 6th of November. During the season there were 193,377½ pounds of cheese made, the output being valued at \$18,999.59. The average price realized was 9.82¢ per pound. Milk was furnished by 172 patrons, the quantity received being 2,002,294 pounds. The quantity of milk required to make one pound of cheese was 10.35 pounds. The total quantity of butter fat was 115,299.67 pounds, the average percentage of fat being 3.75. The net value of butter fat to patrons was 13.54¢.

THE HAMPTON FACTORY.

There were 106 patrons supplying milk to the factory at Hampton from the 15th of May to the 31st of October, inclusive. The quantity of milk of which butter was made was 472,248 pounds, and the output of butter was 19,143. The average value of fat to patrons was 15.55 cents, while the average value of 100 pounds of milk was 54.2 cents. The quantity of milk of which cheese was made was 770,732 pounds. In all 76,302 pounds of cheese were made. The average value of fat to patrons was 15.61 cents, and the average value of 100 pounds of milk to patrons was 83.3 cents. The receipts for butter amount to \$3,202.56 and for cheese \$7,970—a total of \$11,172.96.

EASTERN ITEMS.

Shipping has closed for the year. Some oats and potatoes were shipped, but not in such quantities as in preceding years. It is well for the farmer that he has not to rely on the raw products of the soil for his income; prices are so low that they do not cover the cost of production. Notwithstanding the fall trade has been very brisk.

The money put in circulation through the cheese and butter factories has given an impetus to trade. The fisheries, too, especially the lobster fishery, were fairly successful and brought a fair amount of money into this part of the country. Merchants who last year were unable to collect their debts are being paid and all classes are more prosperous and hopeful.

Among the buildings erected last year are two handsome and commodious dwellings by Mr. P. C. Campbell and Mr. S. A. Bird Rose, and a barn by Mr. J. Dingwell.

St. Columbia Church and parochial residence have been re-painted, and a hot air furnace placed in the church. The place now presents a pleasing appearance and reflects credit on the parishioners.

The schools are doing good work. The semi-annual examinations have been held in most of them. Ratepayers express themselves as being well satisfied with the results. The ratepayers of Kingsboro, North Lake and Lakeville especially are to be congratulated on the new school houses, the neat surroundings and high efficiency of their schools. This vicinity now sends its yearly quota of students to Prince of Wales College.

Mr. A. Beaton, an old and respected resident of East Point, and for many years keeper of East Point lighthouse, has removed to Charlottetown. He is undecided yet whether he will make Charlottetown or Souris his permanent place of residence. He will be very much missed by the people here.

The East Point Dairying Co. have ceased operations for the season. The output of the factory this year totals over 1,900,000 lbs. of cheese and quite a quantity of butter. The milk netted to the patrons 76 cents per cwt. and the total paid to the farmers will exceed \$8,000. This is much better than in any previous year. The receipts of many farmers for cheese alone will exceed \$200.

This shows that a wide-awake government can do towards helping the people. Five years ago, we venture to say, there was not \$1,000 worth of dairy products reported where there is now \$8,000. A more wide-awake policy would be appreciated now. As our present "business is business" governments, both Federal and Provincial, do not seem to have the ability to start new enterprises let them at least assist the old ones of Conservative origin, by giving us, the former a railroad to E'mira, the latter the advantage of the telephone.

—Is it not strange that Cavendish and Bay View, the people of which are among the most wealthy and intelligent in the Province, still need a daily mail, while other settlements further away and harder to reach are afforded the coveted accommodation? Cavendish is only five and a half miles from Stanley and the Bay View mail is dropped on the way there. We hope that the Postmaster, General will without delay supply Cavendish and Bay View with a daily mail.

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is.

Dodd's Kidney Pills

PHENIX of Hartford FIRE INSURANCE Co.

Cash Assets Over, \$5,000,000.00

Catarh.

Statistics prove that 97 per cent of our population is afflicted with some form of Catarh, but since Catarhazine, the new medicated air treatment for Catarh and kindred diseases, has been introduced, this percentage has decreased. Catarhazine never fails to cure Catarh, Bronchitis, Asthma and Hay Fever, and is warranted to come the most chronic cases of these diseases, even after all else has failed. It cures by inhalation. No danger, no risk, pleasant to use. For sale at all druggists or direct by mail, price \$1.00. For trial outfit send 16c in stamps to N. C. POLSON & CO., Box 540 Kingston Ont.

The child who complains that the nursery carpet hurts its feet is the one most anxious to get barefooted when summer comes.

Startling Confessions

Show that 25 per cent of men and women suffer the tortures of itching soles. Investigation proves that Dr. A. W. Chase's Ointment has never yet failed to cure itching soles, and all of these men and women could end their sufferings at once by using it. Scores of thousands have been cured by this treatment. Everybody can be cured in the same way.

Now is the time to renew that subscription which ran out the other day. Renew through me and save yourself a lot of trouble. Robert L. Cotton, P. O. Box 84 Charlottetown.

Active Man Wanted.

To read this advertisement and then give Putnam's Painless Corn Extractor a trial. It never fails to cure. Acts in twenty-four hours and causes neither pain nor discomfort. Putnam's Corn Extractor extracts corns. It is the best.

Professional etiquette prevents French judges and judicial officers from riding in omnibuses.

To Cure a Cold in One Day

Take Laxative Broom's Balsam Tablets. A druggist should have this ready for you. Dr. E. W. Goss's signature is on each box.

A man always rises in a woman's estimation when he shows real discrimination in the matter of which cushion is made for use and which for show.
