States are constantly evincing for Great Britain, the *Scottish American* says :—

It cannot well be denied that the tendency so far as the intercourse of the two Governments is concerned, is rather towards estrangement than friendship. And many little incidents show this to be the case. Admiral Farragut is not sent to Europe to fight anybody. He is sent there to give the United States fleet in European waters additional prestige, to attract attention to the growing importance of the American navy. The object is perfectly legitimate. Every leading Power does the same thing. The commerce of the United States does not require the presence of a powerful fleet in the Baltic or the Mediterranean. It is there so that everybody of any consequence may hear about it. Well, then, Admiral Farragut's instructions are to go first to France on an official visit of courtesy. Then he is ordered to take the fleet in hand and sail directly for St. Petersburg—while Portsmouth, lying direct in his course, he is instructed to avoid. Probably when he gets through at St. Petersburg he may be allowed to make a hurried call at some British port, just to remind the folks there that he has been calling on greater folks before. There is no mistaking the meaning of all this. It is a pretty way of resenting assumed injuries. Fortunate it is that the British Government and the British people are indisposed to resent such snobbishness. At the very moment when these attempts to slight a leading Power were being conceived in the Navy and State Department at Washington, a British ship-of-war was voluntarily engaged in punishing the pirates of Formosa, in the China seas, for the murder of the crew of an American merchantman. That is the way we like to see things done. No resentment but kindness—kindness steady and unremitting whenever the opportunity offers.

COWARDLY MURDER IN TEXAS.

On Saturday morning, the 10th inst., says the Jefferson *Implicate*, our city was thrown into mourning, by the news that Col. William H. Fowler, Assistant Collector of Revenue for this county, had been shot and killed at his office, on Austin Street, by Davis B. Bonfoey, collector of the district. The killing took place at an early hour, before most of our citizens had come from breakfast, and a large crowd assembled around the office where lay in death's cold embrace one who was universally esteemed by all who knew him, and who had been so suddenly called from time to eternity. We had not the most remote idea that any difficulty existed between the deceased and his assailant, until the dreadful news reached us. Up to this time we have not been able to ascertain any facts, or cause, if any, for the dreadful crime. The evidence given before the jury of inquest was very strongly against the prisoner. Deceased was shot in the back of the head, and the pen with which he was writing at the time remained in his hand. The prisoner was tried yesterday and committed to jail by Justice Jones, without the knowledge of the prosecuting council, and no evidence (that he could hear of) was taken down in writing. The jury of inquest found Bonfoey guilty of "wilfully, and of his malice aforethought," killing and murdering Col. Fowler.

A maiden lady, by the name of Klingling, who settled in Warren County, Ohio, many years ago, from Germany, was killed by being thrown out of her buggy recently about a mile west of Lebanon. She leaves an estate worth $20,000 or $40,000, which she bequeaths to Warren County, for the purpose of building and maintaining an orphan asylum, provided the County will raise a like sum for the same purpose. Should this County decline to comply with the conditions of the bequest, the estate goes to the German Orphan Asylum of Cincinnati, named in her will. There is a bit of romance connected with the history of Miss Klingling, that may not be uninteresting. In her youth, in Germany, she had a lover to whom she pledged her troth, but the marriage being prevented by opposing relatives, she and her lover entered into pledges never to marry, and she went with a brother, since deceased, to the United States. Years after, her lover died unmarried, leaving by will a large sum of money to found an orphan asylum at Frankfort. Subsequently Miss Klingling became entitled to an estate in Germany, and thereupon devoted a large portion of it to swell the fund bequeathed by her lover, and now her death reveals the fact that she has devoted the bulk of her property to found a similar institution at the home of her adoption.

At St. Clair, Michigan, Charles T. Wheeler sprang into the river and saved a young girl from drowning, but while himself climbing back on the dock, he was struck by a propeller coming up, and injured so severely that he sank back and was drowned. A few days before he came into possession of $22,000.

The Wisconsin papers tell of a gentle zephyr which passed through the town of Mondovia the other day. "It swept nearly everything in its path for a space of from eight to ten rods in width, twisting trees from one to two feet in diameter in tow, and carrying the tops some distance. The bodies of large trees were distinctly seen at the height of one hundred feet in the air, tossed and whirled about with tremendous force."

A severe practical joke was played upon a Newburyport yachting party on the 20th inst. The wind having died away, the yacht was anchored for the night, and the tired party turned in for a snug sleep till morning; during the night three of the party spoke a passing boat, and, unobserved, took passage for the city. At daybreak signals of alarm and distress were made by those left on board, and boats were obtained, grapnels set, and every effort made to recover the bodies of the supposed lost ones. After a day's fruitless search, and in the greatest alarm, the anxious ones returned home, to be laughingly accosted by the jokers as they landed on the pier.

WEST INDIES.

JAMAICA.

Our correspondence from the British West Indies, is dated at Kingston, Jamaica, on the 20th July.

The Governor had received a communication from the agent of the International Telegraph Company, of New York, on the subject of extending the line to Jamaica, if the government offered sufficient inducement.

An agent from the Southern States of the United States was in Jamaica prospecting for a field for white emigration from the ex-rebel confederacy.

A negro riot broke out at Bushy Park. The negroes were occupying lands to which they had no title, and when the authorities attempted to eject them, a serious fight ensued. Several of the rioters were captured and committed for trial.

During the month of July upwards of £10,000 had been paid out of the Jamaica Treasury for loan debentures falling due, and £7,000 for the importation of coolies.

For a fortnight the weather has been very dry, with strong sea breezes. The growing crops, however, were not yet suffering. Sugar making was closed. The amount of crop produced turned out from one-third to one-quarter less than last season. A fair average crop of coffee was looked for.

Yellow fever had all but ceased, and the health of Kingston was good.

One vessel only offered for charter in fourteen days.

BARBADOES.

From Ridgetown, Barbadoes, we are informed of the arrival of a cargo of Chinese coolies, numbering four hundred and thirty, in the Austrian bark *Niemen*.

Two days after, the Chinese became so mutinous that Capt. Beckwith was compelled to arm his crew (thirty) and ordering a volley to be fired into them, killing three and wounding several others. He then desired the interpreters to tell them that if they did not go below he would repeat the dose; after some hesitation they did; but had not been down very long when it was discovered they had set the vessel on fire, in the expectation that the crew would go below to extinguish it, when it was their intention to have murdered them. Captain Beckwith, it appears, thoroughly understood the character of the people he had to deal with, for instead of sending his crew below he put all the hatches down, and commenced pouring water down through one of the ventilators, which caused it to steam and smoke, so that they soon volunteered to put it out themselves.

HAVANA.

We have dates from Havana to the 13th ultimo. The financial crisis continued without abatement. The masses were becoming destitute, and all trade was paralyzed. The sugar prospects were promising, but the other crops had been irreparably injured by the heavy rains. The Director General had announced that on the 12th inst. a remittance had been made to the Spanish Minister at Washington, to pay the interest of the debt due Americans, on the 14th. The claims against the Imperial Mexican war vessels, *Salazar* and *Musquito*, are being prosecuted by the American Consul. After the 15th instant the entries of goods on the manifests of vessels must be made out strictly in accordance with the new system, under penalty of sixteen per cent fine on the amount of the invoice. The sugar market was quiet. Exchange was firm, United States currency quoting at twenty-four per cent. *La Prensa* attributes the troubles in Porto Rico to the nonimportation of slaves for the last twenty years, and the bad influence engendered by free trade principles.

ANTIGUA.

From St. Johns, Antigua, we learn that on the 6th of July, the Island treasury was in a more flourishing condition than for four or five years past.

Private advices received to-day from the West Indies, convey intelligence that an extensive fire occurred at Georgetown, Demarara, on the 29th ult., which destroyed a large portion of the city, including many of the most important business places. It is supposed the fire was the work of an incendiary. The loss is estimated at $250,000.

LATEST FROM MONTREAL.

CARTIER AND MCGEE HANDSOMELY ELECTED.

MONTREAL, Sept. 6—ev'ng.

At the final close of poll at 5 o'clock, to-day, the vote stood: for the Commons Cartier's majority 348, for the Local about the same. McGee's majority is 268.

McGee's majority would have been much larger if Devlin's men had not taken possession of some of the polls and beaten many electors.

Devlin openly told them to hold the polls at his meeting last night, and they partly took his advice.

There were several rows in the East Division, but no one seriously hurt.

After the close of the polls about 100 of Devlin's men came up to McGee's Committee room and broke almost every window in the house.

The fight lasted an hour before the Police and Cavalry came up.

Johnson's majority 500 votes.

The opposition to Mr. Johnson was the fiercest and most bitter yet offered him by the anti-Confederates. Everything that his backers could accomplish with "money, rum and biscuit," was done. Nothing was left undone. Yet their failure is complete and overwhelming.

MACKEREL FISHERY.

The American fishermen don't appear to have been very successful at the mackerel fishing so far. The Cape Ann *Advertiser* of the 23rd ult. says that only twenty vessels had up to that date arrived; less than one half the number that had arrived last year up to that time. About 3500 barrels have thus far been landed, which is exceedingly slim doings. The fleet arrive home very slowly, and the prospect now is that a large proportion of them will make but one trip. All the mackerel that had arrived had been sold, and the market was completely bare of both Bay and shore.

We learn that the fishing fleet sailing from P. E. Island ports have done very well this season. The schr. *Rattler*, belonging to the Messrs. Owen Brothers, arrived at Georgetown on Tuesday morning with 256 barrels of mackerel, most of which was caught the previous few days.

The Directors of the P. E. Island Steam Navigation Company have kindly consented—for the sake of encouraging the object in view—to carry passengers, etc., by their steamers, on the occasion of the *Fair* and *Exhibition* for the encouragement of Agriculture, to be held in Charlottetown early in October next, as follows:—Return Tickets from Shediac, 9s. Summerside, Pictou, Murray Harbor Georgetown, Souris, 6s. each passenger. Also will carry horses, cattle, or any articles intended for the Exhibition *to and from any of the above named ports for one single ordinary rate of freight.*

The following gentlemen have been appointed Assessors for Charlottetown and Common in terms of the New Education Act:—Owen Connolly, W. McGill, Neil Rankin, Artemas Lord, Esqrs., and Mr. John Quirk.

To the Editor of the Examiner.

SIR:—I have read the letter of "Ixion" (McMahon, senior.) which appeared in the *Herald* of this day's date, wherein he accuses me of "a base, malicious, and wicked falsehood," in referring as I did to the position of his son's character in the records of the Police Court, and says "Mr. Frederick McMahon was never brought before the Police Court or any other court in this Island, and I defy Mr. Welsh to prove it." The proof shall not be wanting. I have obtained from the City Clerk the following certified extract which will speak for itself :—

"NOVEMBER 6th, 1866.—Frederick McMahon was arrested by Police officers Richards and McCabe, at 8. p. m. for fighting in Sneeston's yard—discharged by Mr. Councillor Heartz—fined five shillings, and discharged."—*Extract from the Record of the City Marshal of City of Charlottetown.*

PETER MACGOWAN, City Clerk.

I might reply to "Ixion" (McMahon, sen.) at greater length, and take up his remarks in detail; but I deem a man who could deliberately write such untruths as are contained in the letter which appeared in the *Herald* of to-day, unworthy of further notice. I will simply leave the public to judge which of us is truthful, and which false, "malicious and wicked."

Thanking you, Mr. Editor, for the space which you have afforded me.

I am, Sir,
Yours respectfully,
W. WELSH.

Sept. 4, 1867.

P. S.—I may state that Mr. Owen and myself have sailed within the last ten years over two hundred vessels of various sizes, and no Captain in our employ has ever had to enter on his log book the record of a man or a boy lost overboard; nor until Mr McMahon's alleged case have any of our officers been charged with ill-using those under their control.

Holloway's Pills.—Diarrhœa, Dysentrey.—The medicines commonly used for the subjugation of these diseases so frequently fail of effecting that object that it should be known to all sufferers from these maladies that Holloway's Ointment, well rubbed upon the abdomen two or three times a day, with the application of warm bran poultices in the intervals, gives immediate relief, gradually soothes the irritable bowels, and assuages their most distressing pains. This treatment is applicable to all forms of diarrhœa, dysentery, and cholera, and, with attention, will always be successful. Farinaceous diet, milk, and barley water should give subsistence during the continuance of the disease, to the utter exclusion of all solid food, which the deranged bowels are incompetent to assimilate.

All the Ladies Say so !

That Selee's Hair Life is just the nicest Hair Restorative in Charlottetown. It never fails to restore grey hair to its original color, and always stops the falling of the hair, while it promotes a lively, luxuriant growth, removing all Dandruff, scurf and humors, especially Salt Rheum. It is, also, a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft and glossy.

Mayor DesBrisay has sold it the past year, and says *all* give it high praise. Our customers will find a fresh supply at Apothecaries' Hall. Money refunded if it fails to satisfy, so you will not be *humbugged*, as with other things.

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

OR WORM LOZENGES. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

Ayer's Pills.

Are you sick, feeble and complaining? Are you out of order—your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural operations of that part. This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative expels them. Caused by similar obstructions and derangements, they are surely, and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by DR. J. C. AYER & Co., Lowel Mass., and sold by all Druggists and dealers in medicine everywhere.

[*Transmitted to Lieutenant Governor and the Executive Council 21st day of May, 1867, and not disapproved of within three months, 27th August, 1867.*]

BE it enacted by the City Council of the City of Charlottetown, as follows:—

Section 1. The plot of ground at the west end of Queen Square, vested in the City by the Statute of 23rd Victoria, Cap. 26, shall hereafter be known as the Market place of the City of Charlottetown, and the building thereon as the Charlottetown Market; and it shall not be lawful, after the publication of this Law, within the said Market place or the Streets surrounding, viz: from the west corner of Grafton and Queen Streets to the south corner of Richmond and Queen Streets, thence along the south side of Richmond Street for the distance of about One hundred and sixty-eight feet, thence along the north side of Market Street to the north side of Grafton Street, thence along Grafton Street to the place of commencement, for any person or persons without being licensed so to do, to sell or expose for sale any meat or other articles, except beef by the quarter, or mutton or veal or pork by the carcass, the owners or vendors of which shall pay toll for the same according to the List of Tolls now in force, or such other toll as may hereafter be decreed under and by virtue of any Bye-law.

Section 2. All persons found retailing, or offering for sale by retail, any of the above kinds of meat outside of the Market House, and within the said limits, without being so licensed, or any other description of articles, without permission first had and obtained, shall forfeit and pay for every such offence a sum not exceeding twenty shillings, to be recovered in the Police Court, on the evidence of one or more credible witness or witnesses; and in default of payment, the party convicted may be confined within the City Jail for a period not exceeding fourteen days, unless the fine or penalty be sooner paid.

Section 3. The Market Clerk may grant daily licenses for selling by retail meat or other articles liable to the payment of toll, to the person applying for the same, and on the payment of a sum not exceeding three shillings for each license, to be by him accounted for and paid into the City Treasury, the payment of which shall exempt the party from the payment of toll.

Section 4. No person or persons shall at any time sell or expose for sale any goods or chattels, wares or merchandise, within the said reserved plot of ground, by auction or otherwise, except the party selling be permitted as hereinafter mentioned. And persons attempting so to do and not desisting when desired by the City Marshal, Clerk of the Market, or any of the City authorities, shall be forthwith taken into custody or summoned to appear in the Police Court, to answer the charge of violating this Bye-law, and on conviction shall be liable to a penalty not exceeding five pounds, or imprisonment, in default of payment, for a period not exceeding one month.

Section 5. The Market Committee shall have power to form a List or Table of Rates, to be paid by persons having permission to sell by auction or otherwise, within the said reserved plot of ground, such permission to be granted by the Mayor or Presiding Councillor. The said rates not to be enforced until a list of the same shall have been printed and published pursuant to the Bye-law, passed and approved on the 5th day of June, 1865, entituled a Law in addition to the Law respecting Markets.

Section 6. No huckster or other person shall occupy any place or stand within the said Market place, or reserved plot, for the purpose of exercising their trade or calling, without being licensed so to do, and in the stand assigned by the Market Clerk, the fee for such license not to exceed ten shillings per day. Under the patronage of His Lordship the Bishop of Charlottetown.

THIS INSTITUTION is situated on the Princetown Road, a mile and a quarter north of Charlottetown. The site is peculiarly beautiful, healthy, and far removed from the distractions and moral dangers of the city.

The halls and rooms of the building are spacious, airy, and comfortable.

The College Grounds are large, affording ample room for games and athletic exercises.

The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin, and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music, vocal and instrumental—is also taught.

The College possesses a large and well selected Library, as well as an extensive Philosophy Apparatus.

The Professors and Teachers reside in the Institution, forming but one family with the students, and exercising a constant supervision, favorable to discipline, decorum and good morals.

Catholic students are carefully and frequently instructed in their holy religion, which they are required to practise. The most solicitous attention is paid to the morals of all; and whilst within the College enclosure, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced.
