

The Zion's Herald comes to us, since the beginning of the New Year, with a new head dress, which much improves its appearance. It is the oldest Methodist paper in the world, and is published by the "Boston Wesleyan Association," composed of twenty members of the Church, who undertake the work solely for the benefit of the Church and the cause of Christ. It is an excellent family paper, always giving its readers something good and spicy. Under the head of "Christian World," it gives an account of the work of God in all the different churches. To the farmer it gives many useful receipts and timely hints. It is well printed, gives fourteen pages of reading matter each week, is folded, cut and stitched when it comes from the office, and is only \$2.50 per year, American currency. We heartily recommend it to any person wishing a good religious family newspaper.

MEETING OF THE LEGISLATURE.—The Royal Gazette announces the meeting of the Legislature of this Island, on the 3rd of March next. We trust the petitions forwarded from the meeting recently held here, to the different parts of the County, will be numerously signed before the above mentioned day. On Thursday last His Worship the Mayor, the Recorder, and members of the City Council, waited upon Sir Robt. Hodgson, and presented him with an address congratulating him on his promotion to the dignity of Knighthood. His Honor made a suitable reply. He thanked them most cordially for the congratulations they offered him.

The adjourned debate on the question, "What are the best means of counteracting the disadvantages incident to our isolated position as a Colony," was resumed on Friday evening last, when the following resolutions were submitted by Mr. A. McNeill. 1st. Resolved, that the subject of such a Railroad, connecting Summerside with Georgetown, is of sufficient importance to make it expedient for the local Legislature to procure a Report from a competent Engineer, as to the best route and probable cost of such an enterprise. 2d. Resolved, that the difficulties in the way of maintaining regular water communication with the Province of Nova Scotia, during the greater part of the winter months, are not insuperable; and that by means of a well equipped Steamer, the mails and passengers might, during this period, be carried from Georgetown to Port Mulgrave, or Port Hood, at a small expense to the Colony, when contrasted with the very great advantages which would result therefrom. After an animated discussion, the first Resolution was carried by a majority of four, and the second was unanimously adopted.

Subject for discussion for next Friday evening: "Vote by ballot." Opener—C. W. Hall, Esq. F. L. HAZARD, Sec'y.

Important Announcement.

We are in a position to state that the British Government, believing that it would be for the benefit of all concerned for the Cabinet to make a clear and explicit avowal of the policy they purpose to pursue in the matter of the agitation for Repeal, kept up by the Local Government here, held a council on the subject recently, in London. Earl Granville has transmitted by the Atlantic Cable, the result of that council. It is to the effect that the British Government, believing that the best interests of the Empire, are subserved by a Union of the British Provinces in North America; that the best interests of Nova Scotia will be subserved by this ancient and loyal colony making common cause with the other confederate colonies, have decided that they cannot entertain any proposal for the withdrawal of Nova Scotia from the Union—that in all respects the policy of the present ministry will be identical with that pursued by their predecessors—Halifax Rep. Feb. 2.
