DISTURBANCES FLARE AT STRIKE-BOUND TOBACCO PLANT

London Paper Says Missing Diplomats Located

French Baker Says Sack Of Flour Cause Of Violent Deaths

PONT-SAINT-ESPRIT, France, Aug. 29 (AP)—A baker in this tiny Rhone River port told investigators today he felt that one of his sacks of flour was responsible for "the bread that kills and makes men mad."

one of my clients, M. Nizon, in nearby Carsaw. "He came by the next day to reproach me for it and I sold him several sacks of bread made from that particular flour. A little while afterward, he died."

Coming Events

- Dance, Orwell Hall, September 3rd.
Dance, Timothy Seed daily, McGowan and Boyle.
Dance, Elliotvale School, Thursday, August 30th.
Dance, Morell Rear School, Thursday, August 30th.
Regular Dance, French River Hall, Thursday, August 30th.
Dance, St. Andrew's School, Monday, September 3rd.

Farewell Orders For Local S. A. Corps Leaders

Farewell orders have been received by Major and Mrs. E. Hutchinson, in charge of the local corps of the Salvation Army, effective after the Sunday services of September 23rd. Major and Mrs. Hutchinson succeeded Major and Mrs. V. MacLean at the Charlottetown Citadel in November, 1948, after serving five strenuous years at the Cunard Street corps in Halifax, which included the latter years of the war, with all the problems of a naval and dis-embarkation port.

MacLean And Burgess Missing Two Months

LONDON, Aug. 30 — (Thursday) — (AP) — The Daily Herald reported today the Foreign Office has learned the whereabouts of two missing British Diplomats, Donald MacLean and Guy Burgess. The paper said secret service agents have located the two men after a three-month search of Western Europe. Mrs. Melinda MacLean, wife of one, has been vacationing on the French Riviera with her three children and has received a message from her husband, the Herald said. The report appeared only in the Herald. The paper, which has close government connections, said the Foreign Office probably would make no announcement until next week. No one at the Foreign Office early today would comment on the Herald story. MacLean, 38, left his job in London May 25, a Friday evening. Due for a long week-end, he had three days to cover his tracks before his disappearance was discovered. Burgess, 40, was on leave at the time his future in doubt because of his recall from his job with the British Embassy in Washington. Unofficial speculation ranged widely. There were suggestions that MacLean and Burgess were mentally unstable and had gone to Russia, in a belief they could effect a reconciliation between the Western powers and the Soviet Union. Others thought the two simply had gone off on a "bender" and were reluctant to return and face certain scandal.

Schurman's Get Contracts On Mainland

It has been announced that the M. F. Schurman Co. Ltd. has received two major building contracts in Nova Scotia. This company has until now confined its contract activities to Prince Edward Island. The first contract which was awarded few weeks ago to the firm, is for the new East Pictou rural school which will cost \$500,000. This school will be situated approximately eight miles east of New Glasgow, N. S., and will be a modern two-story building with steel frame and wooden interior. It will have eighteen classrooms and is being built for the Nova Scotia Provincial Department of Public Works and Highways. (Continued on Page 5 Col. 4)

Boss Has Warm Praise For Princess Patricias

TRENTON, Ont., Aug. 29 — (CP) — Bill Boss, Canadian Press war correspondent in Korea since last December, said today "the Patricias are the finest thing the Canadian Army has ever created." The red-headed reporter, who crossed the Pacific last November with the 2nd Battalion Princess Patricia's Canadian Light Infantry and has been with the Canadians in Korea constant since, said he was back in Canada "to work at fishing and resting for a change." He arrived from Tokyo by R. C. A. aircraft early today. Instead of carrying on to the Doval base of No. 426 R. C. A. 1st Squadron, which flew him from Japan, he wanted at Trenton air base and motored to Toronto for conferences with CP executives. Boss said the Patricias had "an esprit de corps so real you could touch it." The rest of the 25th Canadian Infantry Brigade Group was a first-rate fighting outfit which already had established a name for aggressiveness. The troops' morale was outstanding despite a largely hot summer. Announcement of the government's rotation policy had enabled the men to adjust themselves to the certainty of either being home by Christmas, or of spending the next winter in Korea, as indicated by their service. He was critical of the Kaesong incident, said he remained confident they would resume and would lead to cessation of hostilities, but added that if they were abandoned it would be "excepted into a terrifying battle between two heavily built-up armies." At Kaesong, he said, "both sides have been desperately and obstinately attempting to bargain from extreme positions which are equally unreasonable." "The Communists are unreasonable in holding out for the parallel as a military line, while we are balking for the present line—which is no more defensible in the long run, militarily, than is the parallel." "The correct line is one north of the parallel all right, but only to the extent dictated by the ground, and one very obvious one reached at the very 10 miles into North Korea."

Canadian Soldier In Korea Sentenced To Life Term

SEOUL, Korea, Aug. 29 — (CP) — A Canadian infantryman today was sentenced to life imprisonment by a general court-martial which convicted him of manslaughter in the grenade death of a South Korean army officer March 17. The sentence passed on Pte. Glen Roland Blank, 27, of Winnipeg, by a five-man Canadian military court is subject to review by a high military board in Ottawa. If it is confirmed Blank will serve the life term in a Canadian prison. Should there be an appeal against the conviction or the sentence it would be heard in Canada by the permanent military appeal authority, made up of high Canadian jurists. The court-martial acquitted

REJECTION — South Korean Lt. Col. Lee Soo Young (right) hands Gen. Matthew Ridgway's rejection of the Reds' protest to Col. Chang (left), the chief Communist liaison officer. Interpreters watch tensely. Late reports said Reds would not resume talks unless the Allies change their "savage attitude."

New Wage Rates For Local Longshoremen

A new agreement was reached between a committee from the longshoremen of Charlottetown and representatives of the shippers regarding the handling of produce for export here. A dispute involving wages and practices had developed and meetings between the representatives had been held for the past two days. They were attended by Mr. Horace Pettigrove, Senior Industrial Relations Officer for the Federal Department of Labor in the Maritimes. He was named conciliation officer for the dispute by the Federal Minister of Labor under the Industrial Relations and Disputes Investigation Act. It was understood that the longshoremen, through their bargaining agent, the L.P.U., had originally demanded an increase of 20 cents per hour. It is believed the terms of the new agreement will give them 15 cents an hour increase in rates. Although the various parties agreed in principle to the new terms they still had to be presented to the executive of the L.P.U. by the conciliation officer. The L.P.U. was understood to have held a lengthy meeting last night to discuss the matter, but results of the deliberations could not be learned at press time. Accompanying Mr. Pettigrove here was Mr. John R. Kinley, Industrial Relations Officer, Halifax, who came as an observer. Representing the shippers were Mr. George H. Buntain, of Buntain and Bell, and Horace B. Willis, of Horace B. Willis Inc., while acting as observers were Mr. Austin Scoble, president and manager of the Island Fertilizer Company, and Mr. C.P. Reddall, manager of the P.E.I. Industrial Corporation. The committee from the Labourers' Protective Union was comprised of the president, Mr. Lemuel E. Rush, Mr. William Quinn and Mr. William Hughes.

Veteran Nova Scotia Skipper Passes

GRANVILLE FERRY, N. S. Aug. 29 — (CP) — Walter Ratchford Merriam, skipper of sailing ships and seafarer for 54 years, died at his home today following a lingering sickness. He was 80. Among survivors is a daughter, Mrs. George W. Wilson, Truro, N. S.

News In Brief

- KINGSTON, Jamaica, Aug. 29 — (AP) — Colonial police have recaptured 23 of the 76 convicts who escaped the Kingston jail after it was damaged in the West Indies hurricane Aug. 17-18.
LONDON, Aug. 29 — (Reuters) — Housewives will be limited to three ounces of butter a person a week after Sept. 9, government food rationing authorities announced tonight. The current ration is four ounces.
VICTORIA, B.C., Aug. 29 — (CP) — The cruiser Ontario and the destroyer Huron will sail together for Halifax from Esquimaux Friday, navy officials said today.
OTTAWA, Aug. 29 — (CP) — The cabinet has agreed to accept Transport Minister Chevrier's recommendation to appoint a transport controller in an attempt to untangle a critical Western grain transportation tie-up, it was learned tonight.
THREE RIVERS, Que., Aug. 29 — (CP) — Further hearing by a board of inquiry into the collapse Jan. 31 of the \$3,500,000 Duplessis Bridge was adjourned late today until Sept. 5.
LONDON, Aug. 29 — (Reuters) — Field Marshal Montgomery, Atlantic Pact army deputy commander, may visit Yugoslavia in the late fall. It was reported here today. The invitation was believed to have come from Marshal Tito.

All Off-Duty Montreal Police Called Out

MONTREAL, Aug. 29 — (CP) — All off-duty police were called back to duty tonight because of disturbances at the strike-bound Imperial Tobacco Co. plant in west-end St. Henri. The order went out following a disturbance between police on duty near the plant and strikers who threw stones through the windows of the building after preventing railway cars loaded with cigarettes from leaving a company siding. All police on duty at police stations were placed on the alert and reinforcements were rushed to the working-class district where thousands of curious spectators jammed the streets blocked off by many picket lines. The disturbance lasted about two hours and by 11 p. m. EDT police said violence had ceased. The crowd of spectators was dispersed and groups of pickets and police remained at the scene. The five freight cars were loaded earlier in the day by office and maintenance workers. When word got around that the company planned to move them out, striking members of the International Tobacco Workers Union (A.F.L.) gathered at the plant. The strike began two weeks ago. An earth barricade was erected across the railway siding and some pickets lay down on the tracks. Police were summoned to prevent violence and a large crowd gathered. Two plant employees — Jean Claude Leduc, 19, and Andre Desaulniers, 23, both of suburban Verdun — were arrested for disobeying police orders to move. The pickets began stoning the building after police arrived on the scene. Many first-floor windows of the four-story plant were smashed.

Prominent Movie Actor Dies At 32

HOLLYWOOD, Aug. 29 — (AP) — Actor Robert Walker, 32, who zoomed to fame during the Second World War in "Shy Guy" movie roles, died last night at his home while undergoing treatment for an emotional disturbance. Dr. Frederick J. Haaker, a psychiatrist who said he had been treating Walker for 18 months, was summoned by the actor last night. The doctor said he talked to Walker for two hours, then called Dr. Sidney Silver, another psychiatrist, to administer a sedative. Dr. Haaker said the sedative (an injection of sodium amytal) had been given Walker many times for emotional disturbances and with good results. However, this time the actor lapsed into a coma, the psychiatrist said, and developed respiratory failure. An inhalator squad was called but failed to revive him. The physician added that Walk-

C.P. Newsman Says South Korean People Anti-Red And Anti-U.N.

TRENTON, Ont., Aug. 29 — (CP) — A war correspondent here from Korea said today that both sides in the Kaesong cease-fire talks seem more concerned with making propaganda points than in reaching an agreement. The lanky reporter, Bill Boss, who has seen war at first hand in the Second World War and in Korea since he went there last December with the Princess Patricias, said the only thing the United Nations had accomplished in the peninsula was the destruction of Korea "on a massive scale" and its denial to the Communists as a base. The south "certainly is anti-reconstructed Korea," he said. "It is equally anti-U.N. a tragedy worked by the conduct and attitude of the Western troops," he said. The United Nations had failed to understand the Koreans' hatred of the Japanese, who had kept them in subjugation for two generations. The Koreans feared that the forthcoming Japanese peace treaty would reopen the way for their return to Korea in a new guise but for the same purpose — the exploitation and perhaps domination again of their country. Boss said: "Last Saturday in Tokyo I found support for this in the recommendation by an official of the United Nations Korean reconstruction agency that a corps of Japanese engineers be employed to 'help reconstruct' Korea." Boss, 34, is home on leave "to work at some fishing and rating." He also plans a number of public addresses.

Russian Fake Lecturers Get Severe Punishment

MOSCOW, Aug. 29 — (AP) — Officials of a lecture bureau in Siberia who collected money for lectures that never were given and sponsored some which never should have been given have been handed "severe punishment," Pravda said today. The charge, said Pravda, was "stealing state funds." But there was much more to it than that. The Pravda account went this way: The Novosibirsk city prosecuting attorney recently became interested in finding out how certain lecturers from the Lecture Bureau were able to deliver four of five lectures on the same day in places several days' travel apart. He was interested particularly in a certain lecturer billed as "Professor Alerov." Investigation showed Alerov was not a professor but a city engineer. Further, he never delivered any lectures and never collected any money for lectures. "It developed," said Pravda, "there were certain individuals in the Lecture Bureau who occupied themselves with forging documents on fictitious lectures which were never given." The investigation continued, and there were "more shortcomings." In addition to the fake lectures, the investigation showed there were some real ones, given by lecturers whom Pravda labelled "pot-boiler artists." Particularly, Pravda was incensed by the lecturer who told his audience that a meteor which fell in Siberia was really a space ship, from the planet Mars. The story was that the "space ship" was wrecked. This story had caused quite a stir among the peasants several months ago, and they wrote to the newspapers wanting to know when the space ship could be expected to return. Pravda was pretty mad about the story then, too. In fact, it touched off this investigation.

Worthington Scores Delay In Civil Defence Planning

OTTAWA, Aug. 29 — (CP) — Maj. Gen. F. Worthington today called for immediate action by Canada either to spend a civil defence program for the country or "kill it completely." He said he is meeting "terrible delay" in getting the program developed. His feelings are, he said, that the program should be advanced quickly "or killed completely." The Federal civil defence coordinator made the comment at a press conference called to introduce the Civil Defence Director-General for Sweden, Ake Sundelin and his assistant, Ivar Muller. Gen. Worthington read a message which he said he had received from Washington quoting Millard Caldwell, U. S. C. D. director, as saying that either the U. S. required the use of civil defence to win a major war or the program should be "kill forthwith." "Those are exactly my feelings," Gen. Worthington said. Asked where the main trouble in the Canadian delay was rooted, Gen. Worthington replied: "The trouble lies behind you." He was pointing to the Parliament buildings which could be seen from his office window.

Gen. Worthington said late that the situation in Canada was not nearly as bad as in the United States, but there are "irritable delays."

"There is no point," he said, "in publishing a book telling Canadians to go to shelters in case of a raid, when actually no shelters are being built." "Time is running out and we've got to get action." Gen. Worthington said late that the situation in Canada was not nearly as bad as in the United States, but there are "irritable delays."

HANAU, Germany, Aug. 28 — (AP) — A German prosecutor today charged two Hanau hotelmen with damaging property and causing bodily injury, declaring they bought 30 fat bedbugs at one mark apiece. Turned the bugs loose in a rival hotel.

Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight Thursday.

Synopsis: Cooler air advancing into Northern New Brunswick has set off a rush of showers and thunderstorms in that part of the district. This air will continue its advance across the Maritimes, preceded by showers and thunderstorms, and is expected to reach the south coast of Nova Scotia about noon Thursday. With the arrival of the cooler air the showers come to an end, but the temperature and humidity are slow to change and skies remain generally cloudy. Prince Edward Island: Cloudy with a few clear intervals. Slightly cooler. Light winds. Low and high Thursday at Charlottetown 58 and 75. High tide today at 8.25 A. M. and 10.23 P. M. Sun rises today at 5.31 A. M. and sets at 6.56 P. M.
