If we told you that your baby was starving, that it actually didn't get enough to eat, you might resent it. And yet there are thousands of babies who never get the fat they should in their food or who are not able to digest the fat that they do get.

CHINESE SQUEEZES.

Official Promotions Go Hand in Hand With Enormous Bribes.

Prior to each promotion the official has to be received in audience by the emperor. But this is a very costly affair, for no one's presence in the capital city is recognized until he has bribed the gatekeeper to register his name as having passed into the city and duly report his advent.

The governor of Kiang-su province, who was an intimate friend of Prince Kung, thought to take advantage of his great influence by coming into the city without bribing the gatekeeper. When he called upon his royal friend, Prince Kung exclaimed: "When did you come? I cannot possibly recognize your presence, for I have not seen your name in the chung-wen-men report," and he had to return and pay double the usual bribe to the gatekeeper before Prince Kung would receive him.

When on his coming to the city the chung-wen-men, or gatekeeper, demanded 80,000 tael, he refused to pay anything. But even he was not officially reported, and after he had remained several months in Peking, waiting for an audience, the emperor issued another edict, asking why he had never come.

Never Drink on the Water. "It is a curious fact, easily verified, that domesticated aquatic fowls do not drink while they are swimming," remarked M. A. Fulton of Arkansas.

Two weeks ago I watched a flock of tame geese nearly all day to see if one of them would not dip his beak down in the water while paddling along its surface and take a drink. One shrewd old gander twice startled me by swimming ashore and satisfying his thirst, after reaching terra firma, by guzzling copiously and with manifest relish from the water along the bank and then swimming out to deep water again.

Safety Elevators. An improved system has been adopted in respect to the new elevators for the library of congress. They are built with a special view to safety, and in addition to a safety catch are provided with what is termed the air cushion—the latter not a real cushion, inasmuch as it is not soft, nor is it made and put in position, being formed only when the elevator is dropped to the bottom of the shaft, and thus all wear and tear on the cushion is avoided.

Our shirt waist stock takes in this large sizes as well as the medium and small. A good assortment shown in 38, 40 and 42 inch at Stanley Bros., the Always Busy store. 2in.
