Meyer's Signal Code.
A simple international signal code for bicyclists has been devised in Paris. It is to be sent to all bicycle clubs and organizations the world over and may prove of value not only to bicyclists, but to pedestrians. Founded on the Morse system of telegraphy, its simplicity is expected to contribute to its general adoption. The strokes are made on the bicycle bell. The code is as follows:

- Greeting.....
- Halt.....
- Follow me.....
- Call {Where are you?}
- Here I am.....
- Go to the right.....
- Go to the left.....
- Look out! Danger.....
- Come to my assistance.....

On Sept. 9 next people will date their letters—not all people, but a large number—9-9-99.
How long will it be before a similar collocation of numbers occurs and how often will it occur in the twentieth century? Perhaps 1-1-01 might be accepted, and 2-2-22, meaning Candlemas day, 1922, would certainly be so.
There is no prize attached to the answer.—London Chronicle.

As Nearly as Possible.
She—Tell me truly, now, is your heart wholly mine?
He—As nearly as it is possible, I being a loyal patriot. George Washington, you know, is first in the hearts of his countrymen.—Boston Transcript.

Must Be a Boston Girl.
If Anna's heart I fain would ask a working claim for me, her fond like, But, lo, she is a small Alaska And twice as cold as any Klondike! —New York Journal.

France and Colonizing.
The French cannot colonize, and they know it. Their population is, to put it moderately, stagnant. In 50 years' time the laws of nature will have reduced them to the rank of a second rate power, unless they meanwhile adopt and act upon the device, "Liberte, Egalite, Maternite." Meanwhile they have not a surplus population to be employed in colonization. Their colonies are not even self supporting. Leaving out Algeria, they cost the republic 100,000,000 francs a year.

And concerning Algeria, one of the few Frenchmen who regard these questions in the light of plain facts, G. Garreau, writing in the Siecle a few days ago, makes the painful confession "During well nigh 70 years we have failed to make Algeria pay. Have we even striven to make it? During 20 years we have been pursuing Ahmadon or Samory. What have we done with the Sudan? We have contributed to depopulate it, we have made waste, directly or indirectly, immense territories, on which a rich population formerly lived; we have extended the desert instead of reclaiming it. Our soldiers have labored so well that they successfully thwarted all useful beginnings and blocked the road to the pioneers of our commerce."—Contemporary Review.

A foul breath is one of the greatest afflictions that a man or woman can have. An affliction not only to themselves, but to those with whom they come in contact. A foul breath is a great discourager of affection. It would probably be more so if people only realized what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headache, dizziness, heartburn and distress after eating. These things mean indigestion. They lead to dyspepsia and worse things. They all start with constipation, and no constipation is inexcusable because it can be cured, —cured easily, quickly and permanently, by the use of Dr. Pierce's Pleasant Pellets. They give to nature just the little help that she needs. There is no case of biliousness, constipation, indigestion, heartburn, or any of the rest of the night-mare breeding brood, that these little Pellets will not cure.

Send 31 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address World's Dispensary Medical Association, Buffalo, N. A.
