DAILY CRYPTOQUOTE—Here's how to work it:

is LONG FELLOW AX YDLBAAXR
One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Well stocked booths were patronized by many and an open air dance attracted a large crowd. A neat sum was realized which will be used for the building of the new school.

Let's Talk It Over

Entrance examination results were announced last week together with the winners of Provincial and Bell Scholarships. A Summerside pupil who won a Provincial scholarship will not get the award if he continues his studies at Summerside High, which is the natural thing for him to do.

When these Provincial scholarships were instituted, Prince of Wales College was the only place where a pupil passing Grade X could go, and so the awards were quite in order. As there are now several other centres where Island students may go for Grade XI academic work, isn't it about time some changes were made in the way of distributing these awards?

Talks between teacher and parent are not nearly common enough in our schools. As a result very often parent and teacher who should be pulling on the same end of the rope that will bring junior over the hump in his educational progress, are pulling at right angles to each other.

On the other hand, the parent, who is often dreadfully in the dark as to how things are going in the little red schoolhouse gets a much clearer picture after a talk with the teacher. One of the hardest things for a teacher to do is to tell a fond parent that his or her offspring will never make a prime minister, or even a civil engineer, but it is very important that the teacher mince no words in giving the parent a true picture, insofar as he sees it, of the young student's capacity for learning. Frankness is absolutely necessary. There is an old saying: "Every mother thinks her goose is a swan". It is something of a shock to learn the truth, but the sooner it is learned, the better.

OSLO — (CP) — A large Norwegian chemical firm reported its scientists have developed a new, slow-acting form of the drug ACTH which requires fewer injections for arthritis sufferers. One injection every two or three days is said to equal the former four-a-day treatment.
