

Earncliffe Notes.

We are glad to learn that Miss Clara I. Young, who was very ill during the past winter, has got quite well again.

In connection with many others the writer has much pleasure in tendering his congratulations to the editor of THE EXAMINER on the brilliant success of his talented young son at King's College.

Those who were present at the tea party at Brush Wharf on the 29th ult., spent a very interesting time. Mr. Scott Act was conspicuously absent. Had our Premier been present, he would have seen a "golden stream of blood-money" that would have made his eyes water. Fighting was indulged in by the few who are adepts at the art of "dissecting" with the teeth. Truly the tea-party is a great invention.

The northern part of the western Earncliffe road is not fit to travel on. One of our young men, while enjoying a pleasant ride a few evenings ago, had a narrow escape from being severely injured. One of his carriage wheels suddenly went into one of those deep and treacherous ruts with which the road is lined, and the gentleman only escaped from being violently hurled into the ditch by his great presence of mind in holding on to his companion.

At our annual school meeting last month a supplement of \$15 was voted. The trustees for the ensuing year are Messrs William Carey and Roderick McLenis, and Malcolm McLeod, Secretary. The semi-annual examination was held on the 30th ult. The pupils were examined in their various branches of study, and at the conclusion of the examination the raters spoke in high terms of praise of the excellent progress the scholars were making under the tutelage of their worthy teacher, Miss Genevieve Macdonald.

The remarks of your China Point correspondent in regard to the method employed by our young men in driving, recalls to the writer's mind the last verse of the poem "Pleasures of Farm Life." I repeat it here for the benefit of the boys:

How pleasant to ride in a buggy at night
When the moon in the moon is on deck,
With a sweet little girl so winsome and gay,
And the reins hanging loose round your neck.
But not half so pleasant when bringing her home,
The old farmer greets you with a gun,
For the earth and the girl disappears from your view
As you make home on a two minutes run.

Japan on the "Qui Vive."

TACOMA, Wash., July 4.—Japanese papers say that Marquis Ito, former premier of Japan, in a recent address, declared his firm belief, that the partition of China among the powers of Europe is only a question of time. He added that Japan must take steps for her own protection, making every effort to maintain a rate of progress equal to that of the countries by which she will be confronted.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that their feeling shall be regular and right. While he is doing this it is as likely as not that he himself is suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can find no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong, assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

The words of praise bestowed upon Hood's Sarsaparilla by those who have taken it prove the merit of the medicine.

Life insurance is a good thing, but health insurance, by keeping the blood pure with Hood's Sarsaparilla is still better.

A MOTHER'S THANKS.

No Questions as to the Permanency of Cures by Dodd's Kidney Pills.

Two Years Ago [the Case was] First Published—T.-day the Cure Holds Good—What the Mother Says.

Fredericton, N. B., July 5.—Two years ago the cure of Edna Rathburn from Diabetes was reported. Her case was a most pitiful one, the child having never known what health and freedom from pain was. When two years old she had an accident which broke off two ribs from the backbone. The bones refused to set and the little body remained doubled up. Diabetes attacked her and the doctors couldn't cure it. She was sent to the hospital at St. John, but the authorities there advised that she be taken home as they could do nothing for her.

The child was not expected to live long, but as she suffered the greatest pain night and day the parents continued their efforts to find a cure. They tried many remedies and at last seeing the advertisements of Dodd's Kidney Pills tried those. She was then seven years old. Mrs Rathburn wrote two years ago, "Edna has used six boxes of Dodd's Kidney Pills and is now completely cured of Diabetes and is as sound and smart as can be."

A report of this case was included in the Dodd's Kidney Pills scrap book mentioned, described in this paper recently, and the owner of the book wrote Mrs. Rathburn, enquiring about the case. Here is Mrs. Rathburn's reply:

Hampstead, N. B.,
May 28, 1898'

Dear Sir,—I received your kind and welcome letter and am very glad to answer you. I am happy to say that Miss Edna is just as smart as a whip and with no symptoms of Bright's Disease or Diabetes. There is nothing to be compared with Dodd's Kidney Pills. We thank God that we ever heard of them."

Mrs. G. E. RATHBURN.

Drugs are expensive. Sometimes they are more expensive than need be. And sometimes they are not so reliable as they ought to be.

There was a time when the prices of drugs were away up—too high altogether.

That is not the case now. The Apothecaries Hall changed that some time ago. You can get prescriptions from pure drugs at the proper prices—no fancy profits.

You can get all my reliable special remedies; they've been tried and found effective.

The price—the main thing—will be found right in every case.
