## James Has Been Cleaning Our Santa Claus Lane!

sun and wind—that was our day: sunshine brilliant on the farmlands down, and on the wave-unsown meadows; wind-no gentle zephyr of summer but a breeze in the leaves and over the farmlands and casing the dream—clouds along before on the clean-washed blue sky. The sky was beautiful today with its great moving cloud-banks especially enchanting in the sunset. We watched Old Sol withdraw from the summer-world for a time—and windows, windows in the reflected fires set the gates of the west.

We saw the flames rise and read with much glory, imparting marvellous hues to the night about, before every shade orange and purple and scarlet was melted into deep rose shadow. The primitive type of picture painting used by Grandma Moses has done a great deal to open the joys of simple painting to fun seekers. It is an escape from servitude and the freedom of a genuine tonic for the beginner.

Later, as experience ripens, the amateur will be able to stand on his own feet and progress along the road to personal expression of art. Should the question of what to paint arise, the answer is anything so long as one is genuinely interested in color, form, life and movement.

There is a world waiting to be explored and it may be just outside your front door, the interior of your living room or in a bunch of flowers discovered in a colorful setting. Wherever one travels whether on sea, land or air, countless subjects await the
