ENTITLED TO THE BEST.—All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when constipated or bilious. For sale in 75¢ bottles by all leading druggists.

PENNY READINGS.—The next Penny Readings will take place at St. Peter's Schoolroom on Tu-day evening, the 22nd inst. Remember the date, Tuesday the 22nd inst. This will be the last reading of this winter's series. Full particulars later.

CONCERT.—Don't forget the Sacred Concert at Vernon River to-night, by the choir of St. Dunstan's Cathedral, assisted by some of the best musical talent in the city. A splendid program has been prepared, and there will likely be a large attendance. A goodly number of Charlottetonians have signified their intention of being present. The weather is fine and clear and the crossing is reported safe between this city and Kelly's Cove.

FIRE.—We hear with regret that a fine large barn on the farm of Mr. Geo. E. Hughes, of the Apothecaries Hall, was destroyed by fire yesterday afternoon, together with one horse and all the farm implements and crop. The farm is at Brookfield, about two miles from Hunter River. The barn destroyed was one of the best in that section of the country. It was located about sixty feet from the dwelling house, which is occupied by William Hughes (brother of the owner) who manages the farm. Mr. Hughes was away at the time of the fire, and there was no one home but his wife. Several of the men living in the neighborhood were also absent from home. The fire evidently started in the loft among the hay, and was caused, it is thought, by a spark from the chimney of the dwelling house entering through the loft window or door which was open. Mr. John Henderson, of North River, who was passing the premises, saw the fire through the opening in the barn, and with the assistance of some neighbors, set about releasing the horses and cattle. In all, five horses and several head of cattle were saved. Everything else was destroyed. Mr. Hugh estimates that his loss will be about \$1000. The barn was insured for \$200.

QUEBEC ELECTION

A Significant Fact.

No Grit Candidates in Twenty Constituencies.

MONTREAL, Feb. 11.

There are twenty constituencies in which no Mercierite candidate has yet been nominated, and the rout of the Count and his boodle brigade becomes more apparent as the fight dies on.

The latest rumor is that Hon. Felix Marchand will be elected Leader of the Quebec Grits, or as many of them as are left, after the night of the 8th of March.

NEWS FROM THE SEA.

A False Report Corrected.

LONDON, Feb. 11.

The British steamer Rutland, arrived at Havre from Swansea, had on board three engineers and the Greek seaman of the steamer Embrosica, which foundered last Friday night off St. Martin's island. The other men from the steamer, supposed to have been lost, have arrived at Cardiff. The rescue of these survivors disposes of the murder part of the mutiny story. Chief Engineer Kowles, of the Embrosica, who has arrived at Liverpool, denies the reported mutiny among the steamer's crew before she foundered.

The Behring Sea Difficulty

Means of Settlement.

WASHINGTON, Feb. 11.

The Department of State has confirmed the report from London that Great Britain and the United States had agreed to invite France, Sweden and Italy, each to designate the person to serve as a member of the tribunal to be selected to arbitrate the Behring Sea controversy. This tribunal will have seven members, two representing the United States, two Great Britain, and three the neutral governments.

Negotiations at Washington.

WASHINGTON, Feb. 11.

Yesterday there was a preliminary session, during which the Canadian Ministers and the United States Government representatives agreed upon the ground for the coming conference, which will last several days. This series of negotiations is indicated by the Canadian authorities as a preliminary interchange of views for the purpose of ascertaining the nature of the subjects each side is willing to discuss, and the form the discussion will take.

Ottawa Notes.

OTTAWA, Feb. 11.

James McLaren, the leading lumber king of the Ottawa Valley, died yesterday afternoon. His estate is worth seven or eight millions of dollars.

The Supreme Court has dismissed the motions to quash the North Perth and West Northumberland election appeal. They will, therefore, be heard next week.

The polling will take place in London, Ont., and in Quebec West, on February the 26th.

Weather Bulletin.

General Telegraphic News.

TROY, N. Y., Feb. 8.—The thermometer registered 23 degrees below zero at Saratoga, N. Y. this morning. It was 25 degrees below in the Adirondacks.

VIENNA, Feb. 8.—Following influenza a new epidemic, seemingly of poisonous origin, prevails here. Its symptoms are fever, acute colic and ejection of blood.

MONTREAL, Feb. 8.—There is considerable anxiety in Canada over the action of Mr. Newberry, of Chicago, who was introduced into the United States Congress a bill providing that no pensions shall be paid to any person who is not a citizen of the United States, the object being to compel all the recipients of government bounty to be residents of the republic. As there are 1,313 persons residing in Canada, permanently, who draw pensions for services rendered the United States during the war of secession, the progress of Mr. Newberry's bill will be watched with interest here as in congress. If it becomes law the pensioners of Canada will have to choose between giving up their rewards or giving up their citizenship.

NEW YORK, Feb. 8.—Carlyle W. Harris, who poisoned his wife, was sentenced to death to-day, by Recorder Smith the execution to take place during the week beginning March 21st. The motion for a new trial was denied.

MONTREAL, Feb. 8.—Dr. Fulton announces that he is going back to Brooklyn. The people have not rallied around him and the banner of anti-Romanism in Canada as they had in the States. He had thought that Montreal would be the best centre for him, but he now thinks Brooklyn will be better headquarters.

OTTAWA, Feb. 8.—The Postmaster-General has been notified that the Government of the Leeward Islands have assented to a convention for a direct parcel post between Canada and the islands. The convention was received yesterday, duly signed by the West India authorities. It will go into effect on the 1st of April. It has also been decided to establish a direct money order service between the two countries, and as soon as the preliminaries have been completed due notice will be given as to the date on which it will go into effect.

SNOW.—Complaint is made that certain persons are in the habit of hauling snow out of their yards and depositing it in piles on some of the streets of the city. This is particularly the case on Prowal Street, near St. Joseph's Convent. The police will likely attend to some of the offenders in a day or two.

ELECTIONS TO-DAY.—Seven by-elections take place to-day, as follows:—Peel, North Victoria, South Victoria, East Simcoe, East Bruce, Halifax and East Middlesex. Peel, East Bruce, North Victoria and East Simcoe returned supporters of the Opposition last election, and Halifax, South Victoria and East Middlesex returned the Government candidates.

FRANCE and England wouldn't be without it for the world. Canada is fast feeling that way too. The great Lasive Phenix, the marvellous washing solutive. The common powders and the common ashes, which the housewives had to use, have now fallen into the contempt which is their proper portion. Lasive Phenix is a synonym for beauty. Bony of hands in the wash; beauty of clothes when washed; beauty of the skin when used in the bath. You use it for all kinds of washing; and then you use it for all kinds of cleaning and scouring. A boon to tired, worn woman.

The Watchspring

CORSET,

—WITH—

Sliding and Detachable

Watch Springs,

Superior to Whalebone, Horn, Reed,

Cord or any other compound of

Mexican Grass.

This is the most PRACTICAL and

COMMON SENSE invention of the present

period.

The Springs are VERY FLEXIBLE and

LIGHTER and yet MORE DURABLE

than any stiffer heretofore used in

Corsets.

They are not fixed or fastened permanently

in the pockets, BUT ARE

SUSPENDED, yielding to every CON-

CEIVABLE MOVEMENT of the body—

whether bending, sitting or stooping—

and CANNOT PENETRATE the material

of the Corset.

These Springs are UNBREAKABLE,

of which any Lady can convince herself

by simply removing one of the

SPRINGS and testing the same. With

each Corset TWO EXTRA SPRINGS

are enclosed, which can also be used

for DRESS STEELS.

The Corset is so constructed that it can

actually be STIFFENED or BONED by the

wearer AT HER OWN PLEASURE.

If the Corset should hurt on the side, a

complaint so general to other Corsets,

THE SPRING CAN BE REMOVED.

This can be accomplished by simply raising

the flaps and withdrawing as many

springs as the wearer may find convenient.

The WATCH SPRING, owing to the

many superior advantages which it possesses,

is to-day the CHEAPEST and

MOST DURABLE Corset ever offered to the

public, and one which will be MOST

ACCEPTABLE to the wearer.
