PARLIAMENTARY NEWS FROM OTTAWA

Senator Ferguson's Bill Considered

AN ENTHUSIASTIC CONSERVATIVE CAUCUS YESTERDAY.

Sir Charles Tupper Sails For England on August 3rd.

[SPECIAL TO THE EXAMINER.]

OTTAWA, July 27.—In the Senate, yesterday, the bill to amend the Dominion Franchise Act for Prince Edward Island was further considered.

It is amended to provide that the Judge shall examine into all the disputed votes on elections, instead of those only cast against the petitioner.

The bill was read a third time.

The most enthusiastic meeting of Conservative members held this session took place at the caucus yesterday.

Sir Charles Tupper is to sail for England on August 3rd, but the Government will not be allowed to rush all manner of deals through parliament in the last hours of the session without consideration and discussion.

GOLD IN SOUTH AFRICA

Ever Increasing Quantities Taken Out.

LONDON, July 25.—Advices just come to hand show the gold production of the Witwatersrand district of South Africa to be steadily enlarging. The output for June amounted to 445,763 ounces, valued at nearly \$9,000,000, representing the largest total of any month in the history of the district. It compares with a product in June of last year of 344,640 ounces and in the same month of 1897 of 251,499 ounces. Since June, 1896, the output has much more than doubled. The following statement of the output for the six months ending with June for a term of years shows the continuous increase: 1899, 2,685,865 ounces; 1898, 1,961,663 ounces; 1897, 1,388,431 ounces; 1896, 1,054,503 ounces.

RECIPROCI TY

A Treaty Between the United States and France

WASHINGTON, D. C., July 26.—The reciprocity treaty negotiations between the United States and France were brought to a successful close at the State Department on Monday afternoon, when Ambassador Cambon, in behalf of France, and Commissioner Kasson, in behalf of the United States, affixed their signatures to the reciprocity treaty. It is by far the most important treaty concluded under the reciprocity provisions of the Dingley law, and the only one effecting the trade with a large commercial nation.

THE CLEVELAND STRIKE

A Boy Deliberately Murdered.

CLEVELAND, Ohio, July 26.—The scenes of wild disorder and violence witnessed in this city throughout in connection with the street car strike were succeeded by marked quietness, that was soon to give place to renewed excitement, arising out of the first actual killing of the struggle. A boy named Cornzwitch was a passenger by a Broadway car, and made an insulting remark to a non-union conductor, Ralph Q. Hawley, of No. 103 Bolivar street. Cornzwitch then alighted from the car and the conductor then followed him. Near Perry street the lad looked around at Hawley, and the latter pulled a revolver and shot him through the head. The weapon was fired at short range and Cornzwitch died almost instantly. The boy's body was carried into a nearby drugstore. Patrolman Heilman was riding on the car and he at once placed Hawley under arrest. The people enraged at the shooting, quickly gathered at the scene and the police charged on the crowd and made several arrests. The mob was partially dispersed, but soon another congregated. Another Broadway car came down Orange street and was stoned. The police again charged the mob with their clubs and dispersed it.

NEW INDIAN TREATY

Hon. David Laird Reports Upon the Commissioners' Success.

WINNIPEG, Man., July 26.—A letter has been received from Indian Commissioner Laird, dated Lesser Slave Lake, June 24, in which he states that the members of the Treaty Commission, and all the party, are in excellent health. They were delayed by bad weather and compelled by the rapid current of the Athabasca to make a slow journey, so that they could not meet the Indians at the advertised date of the first council. The council was held at Lesser Slave Lake, and a most successful arrangement was arrived at, all the Indians being most happy and contented at the settlement.

India Harvest in Danger.

BOMBAY, July 26.—The partial failure of the monsoon has occasioned grave anxiety. The rainfall has been injuriously excessive in Bengal and the northwest provinces, but in the Deccan, Berar, Gujerat, and some of the central provinces there has been almost no rain. The situation in western India is already critical. The plague is increasing in Poona, where there were 116 cases on Sunday and 82 deaths.

—The Montreal Star refers to the difficulty arising out of the United States refusal to be reasonable about the Alaskan boundary, and says: "Perhaps the most gratifying feature of the situation is the absolute accord between the English and French-speaking citizens of Canada over this question. Pessimists like Mr. Goldie Smith have predicted that in an hour of danger the two races would not co-operate; but we now see Sir Charles Tupper and Sir Wilfrid Laurier supporting each other and the French-Canadian Mayor of Montreal, a Liberal member of Parliament, steps forward to congratulate the Conservative leader on his patriotism, assuring him that he has eloquently expressed the views of the whole Canadian people. No country ever before made such progress towards unity and greatness in so short a period as Canada has made during the thirty-two years which have elapsed since Confederation, and many children born in the United States in the year 1858, when Senator Seward made his prediction, will live to see Canada a great and powerful nation, exercising a most potent influence in shaping the policy of the British Empire with its world-wide power."

Walmer Castle, where Lady Salisbury is lying ill, is one of the most ancient on the south coast—close to Deal and Dover. Lord Salisbury holds it from the crown by virtue of his office of Lord Warden of the Cinque Ports—a position held by the late Lord Granville and W. H. Smith and by Lord Dufferin for a few years. The old castle faces the Downs and commands a fine view of the shipping which is always passing. One of the rooms will long have an historic interest as the meeting place of Lord Nelson and Mr. Pitt on the eve of Nelson's departure for Trafalgar. Another room is that in which the Duke of Wellington died—and visitors are shown the place with its furniture exactly as it was in the duke's time.

ASSASSINATION OF A PRESIDENT.

The Head of the Dominican Republic

WAS MURDERED YESTERDAY AT PORT DE FRANCE.

The Murderer Escaped, but is Being Actively Pursued.

[SPECIAL TO THE EXAMINER.]

PORT DE FRANCE, Island of Martinique, July 27.—General Ulysses Heureaux, President of the Dominican Republic, was assassinated at Moca, at half-past four o'clock yesterday afternoon.

The name of the murderer is Ramon Caerros.

He succeeded in making his escape but an energetic pursuit was at once begun and it is probable that he will soon be captured.

President General Wenceslas Figueroa, immediately upon the announcement of the President's death, assumed the direction of affairs. At present calmness prevails everywhere in the republic.
