

Mr. Tilley's Loan.

A SPECIAL dispatch to the Toronto Globe, dated Dec. 3rd, states that Mr. Tilley had that day, through Messrs. Baring Bros., and Glyn, Mills & Co., placed the new Canadian loan on the London market.

The Halifax Herald says that comparing this loan with Mr. Cartwright's loan of two years ago, and supposing Mr. Tilley to succeed in obtaining the money on the terms proposed (of which we entertain but small doubt), the gain will be enormous.

The Provincial Secretary and Treasurer.

We note that Mr. Dodd invariably writes "Provincial Secretary and Treasurer" after his name. This must be in obedience to a vulgar craving for great swelling titles; for the law says Mr. Dodd "may be termed 'Provincial Secretary' and 'Provincial Treasurer,' according as reference is made to either branch of his department."

The Address Nuisance.

THE Governor General and his wife submitted very gracefully to the shower of addresses with which they were greeted. But it is expedient that in future the nuisance be abated.

Turkey.

The Ministry has been dismissed, and the following new Ministers have been appointed:—

Grand Vizier, Kheireddin Pasha; Shieku Islam Ahmet Assad Effendi, Minister of War; Ghazi Osman Pasha, Minister of Foreign Affairs; Karatheodari Pasha, Minister of the Interior; Kadri Pasha, Minister of Justice; Said Pasha, Minister of Commerce; Djedvet Pasha, Minister of Public Works; Sawas Pasha-Phoetiades, who has been raised to the rank of Pasha, will succeed Karatheodari Pasha as Governor of Crete; Reouf Pasha has been dismissed from the post of grand master of artillery.

LORD BEACONSFIELD, according to Mr. Blake, the Liberal member for Leominster, is "the greatest troubler of England and Europe. He has 'abused the prerogative of the Crown, ignored Parliament, favoured despotism, restrained liberty, broken European law by secret treaties, duplicitous and double dealing, sacrificed the national honour, deceived Turkey, betrayed Greece, insulted friendly powers, stimulated the war feeling, squandered the revenue, increased taxation, depressed trade, upheld ecclesiastical intolerance, and opposed all popular reforms.'"

The Marquis and the Princess.

We are glad, says the Ottawa Herald, for many reasons, that the change of Royal representatives has brought about the appointment of the Marquis of Lorne, because there is always a certain amount of satisfaction in having a gentleman as Chief Magistrate of the Dominion.

Iron Making in Toronto.

The city of Toronto is moving in the matter of getting iron manufacturing established. A mass meeting of citizens was called on Tuesday evening for the purpose of considering the matter and taking into consideration what encouragement should be offered by the city towards this end.

"Resolved—That, in the opinion of this meeting, the establishment and construction of iron works in the city of Toronto would greatly tend to the advancement and prosperity of this city, if the corporation would lease to a responsible company twenty acres of the marsh land lying on the south side of the river Don at a nominal rent for the first twenty-one years, and to exempt the said iron works company from taxation for the first ten years."

The Latest Fish Story.

A WHALE TOWING FOUR FISHERMEN'S BOAT WITH ASTONISHING RAPIDITY.

LONG BRANCH, R. I., Dec. 1.—In the past three months whales have often been seen spouting off our coast, and the scarcity of small fish has been attributed to their presence. On Friday last three large ones were seen three or four miles out. On Saturday morning Capt. Wise, of the American Hotel, Samuel McLean, Daniel Wright, and Martin Dangler—the three latter old fishermen—started out fishing in a boat about twenty feet long.

How we Die.

A statistician in England, in studying a generation of a million of people from birth to death, finds that one-fourth of them die before they reach five years; less than one-twenty-eighth between five and ten years; in the next five years the mortality is lower than at any period; in the next five years an increase, especially among women—the influence of dangerous occupations begins to be seen in the death rate.

IMPORTANT TO SEAMEN.—A new regulation has just come into force in the Dominion of Canada, whereby candidates for masters' certificates of competency are required to have previously held mates' certificates for a period of at least one year. The following is the regulation:—"A master must be twenty-one years of age, and have been either six years at sea, of which one year must have been as first or only mate with a certificate, and one year as second mate, or he must have been six years and a half at sea, of which two and a half years must have been as second mate, during the last twelve months of which he must have been in possession of a first mate's certificate."

To the Editor of the Examiner.

DEAR SIR,—You will oblige me very much by inserting this in your most valuable journal. On Saturday last, as I was taking a stroll near the Railroad track, I noticed quite a number of riflemen out on the Kensington range; and in going out I learnt that they were firing a challenge match between the Engineers, under command of Capt. Dogherty, and the Dundas Company of Southport, under command of Capt. McRae.

On Thursday evening, Messrs. A. A. The Advertiser says her construction was superintended by competent workmen. She was immediately towed to Montague Bridge by the steam tug "Lion," where she is now loading with potatoes for the United States.

The People Want Proof.

There is no medicine prescribed by physicians, or sold by Druggists, that carries such evidence of its success and superior virtues as BOSCHER'S GERMAN SYRUP for severe Coughs, Colds settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person afflicted, can get a Sample Bottle for 10 cents and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing everyone that use it. Three doses will relieve any case.
