SIR PHILIP MILLER, the great English horticulturist, writing in 1740, says: "The best method to have cabbage good is to procure fresh seed from abroad every year, for it is apt to degenerate in England in a few years."

The above is a simple illustration of the fact that the best seeds will rapidly degenerate under unfavorable conditions. The wise will take heed, therefore, and buy their seeds of D. M. Ferry & Co., Windsor, Ontario, whose world-wide reputation as the best and most reliable, as well as the most extensive seed growers and dealers, is due to the fact that they take advantage of every circumstance of climate, soil, methods of culture, selection of seed-plants, etc., to procure the best possible seeds and keep them up to that high standard.
