

chandise, while a third demands "such an amendment of the laws of the Colony relating to Licensing Taverns and Stores for the sale of Intoxicating Liquors as shall place similar restrictions on the traffic in city, town, and country." On the question of prohibition, the Convention uttered no uncertain sound. The License system was declared to be unsound in principle, and the Convention pledged itself to work with a view to the ultimate suppression of the Liquor Traffic by Legislative enactment. On Friday, the question of the permanency of the Convention engaged the attention of its members. It was almost unanimously resolved that the Convention should be permanent, that it should meet annually, and should be composed of representatives from the different organizations and clergymen favorable to Temperance. A committee was appointed to prepare a constitution. The report of this committee was received in the afternoon session, and after having been considered clause by clause, was amended and adopted. It was agreed that the next session of the Convention be held in Summerside.

It was unanimously resolved, That the thanks of the Convention should be tendered to the Sons of Temperance of Charlottetown for the gratuitous use of the Temperance Hall and Division Room during the session and its preliminary meetings. Immediately before the question of adjournment was put, the following resolution was moved by the Rev Mr Davies, seconded by the Rev Mr Hunt, and unanimously adopted:—

Resolved, That we express our gratitude to Almighty God for the circumstances under which this Convention has been held, for the conclusion at which we have arrived in the formation of our new organization, and would desire to commit ourselves to the care and guidance of Heaven with regard to our Councils and action for the future.

Thus happily terminated the first Temperance Convention ever assembled in Prince Edward Island. In every respect, this Convention must be regarded as a decided success. The different organizations which have hitherto had no bond of union will, in the future, owe allegiance to a common centre, and in the unanimity of sentiment and unity of effort thus produced, we have a good guarantee that a new era is about to dawn on the Temperance cause in this Island.

BENEVOLENT IRISH SOCIETY PIC NIO.—The Benevolent Irish Society held their Annual Pic Nio on the beautiful grounds of St Dunstan's College on Sunday last. Although threatening rain in the morning, yet the day turned out beautiful and fine, and the members of the Society met at St Andrew's Hall at 10 o'clock in the morning, and headed by the Grand Marshal, marched in procession to the grounds, which now presented a scene of lively animation from the numbers in attendance and the sports carried on. Vehicles of every description, from the "Irish Jaunting Car" to the Express Wagon, plied all day long in conveying guests to the scene of festivity. The arrangements of the Committee were admirable, and tended greatly to the success of the Pic Nio. The Refreshment Booths were well supplied, and the dancing stages sufficiently commodious to suit the Votaries of Terpsichore. Through the kindness of the Rev Angus McDonald, the College was thrown open to the Society and their guests—a favor which was instantly appropriated by turning the large Examination Hall into a dancing Saloon, much to the satisfaction of those who crowded it all day long. Games of Cricket and pitching quoit were also participated in, and afforded pleasure and exercise to a goodly number. The best of order and good temper were observed throughout the whole proceedings, the interest in which was much increased towards the close, when sack and wheel-barrow races took place. These afforded a great deal of fun to the spectators, as well as to the competitors, whose names we regret we are unable to give. Not the least of the pleasures experienced on this occasion was from the courtesy of the Rev Rector in permitting visitors to ascend to the Cupola of the College, and from thence to behold one of the most beautiful natural panoramas in the Lower Provinces. So many parties availed themselves of this privilege that the Cupola was scarcely a moment unoccupied during the day. The Society reformed about seven o'clock in the evening, and marched back to St Andrew's Hall, where, after some remarks from Hon E Whelan, D O M Reddin, and Richard Reddin, Esqrs, and the National Anthem from the Band, they dismissed, each looking forward to another year for a renewal of the pleasures of the Pic Nio of 1867.

LAST week we omitted mentioning that we had received the first No of a new French paper called "Le Monteur Acadian," published at Shediac, N B, by Mr J D Landry, Editor and proprietor. It is intended as the Organ of the French population of the Maritime Provinces, who have long experienced the want of a paper in their own language to post them up in the current news of the day. From the No. before us we feel satisfied that Mr Landry will supply this want in a creditable manner, and we wish him every success in his laudable and laborious undertaking.

We see by Nova Scotia and New Brunswick papers that the tax gatherers of Canada, under the name of agents of the Bank of Montreal, have already arrived in those Provinces, to commence operations. The Government surplus in the Banks is to be first seized, and sent off to Canada, and then a levy "by all and every mode of taxation," will, according to the provisions of the Act of Union, be resorted to. What a blessing these Canadian tax gatherers must prove to poor Bluenose, to be sure. How we envy them their greatness and happy position.

We beg to direct the attention of our readers to the advertisement of our friend Mr A Hermans, contained in to-day's paper, and who, we are happy to see has commenced business in our midst. He advertises a variety of new and useful articles in his line, at his shop, next to the Reading Room. Give him a call.

THE BARQUE EMPRESS, Gillis, Master, from Liverpool, to Messrs. Owen & Walsh, arrived at this Port on Saturday last, and the barque Undine, Kickham, Master, from Liverpool, (25 days out), to Mr J O Pope, arrived yesterday morning, with cargoes consisting principally of Salt.

We were premature in announcing the arrival in Charlottetown, of CW Field, Esquire, two weeks ago. That gentleman and lady arrived here last evening, per steamer Princess of Wales, from Pictou, and will remain until Thursday.

QUICK TRAVELLING.—A gentleman from Prince Edward Island, who took passage in the steamship Cuba at Cork on Sunday afternoon the 7th, left in the cars for Pictou yesterday morning, and would arrive in Charlottetown in the evening—thus accomplishing the whole distance from Cork to Charlottetown, via the Pictou line, in a trifle over seven days.—*See British Colonist.*

We perceive by Halifax papers received last evening, that the Recorder printing office was burnt out on Saturday night last—the work, it is supposed, of an incendiary.

TRADE-UNIONS IN ENGLAND.

A man named Broadhead, of Sheffield, England, has confessed, to a Commission appointed for the purpose of investigation, certain enormities for sustaining his union, that cast into the shade everything of the kind before known. More than ten years he and an accomplice named Crookes have been engaged in outrages upon those not of the Union, or those employing people not belonging to it. More than ten years ago he procured the hamstringing of a horse belonging to a Mr. Parker, and then paid, some men between £20 and £30 to shoot Parker, because he worked in a firm that employed non-unionists. Three guns were fired at him, two of which took effect, laming him probably for life. He authorized the blowing up the boilers of a firm by putting powder under them. A man who had been frequently 'rattened,' without effect, it was determined to lame him, and he was accordingly watched by Crookes for an opportunity, but failing, powder was put into his emery and nearly blinded him. Crookes received for the attempt to shoot him £5 to £10, for blinding him £3. Crookes again endeavored to help the union cause by putting a canister of powder down Samuel Baxter's chimney. In 1859 Crookes attempted to blow down Joseph Wilson's house, because he employed non-union men, receiving therefor £10. For a similar reason another man was blown up by Crookes for £6. An attempt was also made by Crookes, in 1865, to blow up one Roaney's house. A man named Poole, a butcher, and having no connection with the trade, but who was a brother-in-law of Linley, a man who was shot, had a can of powder put down his chimney, for doing which the miscreant received £5 or £10. An attempt was made last autumn to blow up another concern, for which Crookes received £15. And all this scoundrelism is only avowed as a means for preserving the efficiency of the union! Crookes was a sort of black Crooke in the business. 'Rattening,' he said, was too quick; he was most at home in the shooting and blowing up; there was a field for the display of his peculiar genius, and the grand object for the justice of his cause was the air-gun. These offences are all charged upon the Saw-Grinders' Union, to which Broadhead and Crookes belonged, whose money procured the performance of the deeds. Trades-unions with such a record as this cannot put in very strong claims to public favor, and the whole fraternity of mechanics throughout the world are affected by it.—*Boston Pilot.*

Yesterday a man named Andrew McGilvary was tried before His Honor the Stipendiary Magistrate upon a charge of having stolen a valuable coat from the Halifax Hotel, convicted, and sentenced to pay a fine of \$20, or in default, 60 days in the City Prison. This scoundrel has been of late going about the city representing that he was burnt out at Baily's Brook, Pictou county, and soliciting and obtaining money subscriptions from the charitable.—*His. Rep.*

We give up all our editorial space to-day in order to make room for the City School Examinations.

THE PARIS REGATTA!—ST. JOHN OARSMEN AGAIN VICTORIOUS!!

At last we have information from the Paris Regatta, and it is even more satisfactory than we dare hope for. The races took place during the present week, and terminated on Saturday, 13th. The St. John Crew sent home in charge of Mr. Harding entered for the two four oared races in the first competition, described as follows in the programme:—

Four-oared outriggers, prize 1000 fr., (about \$200) or a work of art; second boat return of entrance money, which is 50 fr.

Four-oared gigs, prize 2000 fr., or a work of art; second boat return of entrance money, 100 fr.

The following despatch from Paris is all that has yet been received in relation to the matter:—

PARIS, July 15.

In the great regatta which took place at St. Cloud on the Seine during the past week and closed on Saturday, the Western Boat Club from St. John, N. B., rowing a four-oared boat won two of the International prizes. They had to compete with three Oxford and two London boats of the same class.

The Oxford oarsmen are the crack amateurs of Great Britain, and the members of the Leander Rowing Club and the London Rowing Club of London, are first class oarsmen, while they rank under the head of amateurs. The best oarsmen of France were also in competition, but there were no Americans. Against all these, then the oarsmen of St. John have been victorious, notwithstanding their boats were almost twice the weight of those rowed by their competitors. Our boats, too, are much shorter than theirs, the disadvantage of which will be understood by everyone acquainted with aquatic sports, inasmuch as the water lines of the boat cannot be made as straight and sharp as when there is a greater length to carry them out.

When the news reached the City this morning that in both races the "Western Boat Club of St. John, N. B.," had won the "International prizes" the joy, especially among the young men of the place, was very great, and even men of advanced years took a lively interest in the success. Flags were run out on flagstaffs in various quarters, and particularly in Carleton, where the sturdy oarsmen belong, the display of hunting was very general. If New Brunswick was not represented by any work of art or by native produce at the Great Exhibition, she was well represented in bone and sinew and in native pluck.

As the telegraph wires spread the news through the different towns of the Province, various demonstrations of joy took place. A correspondent at St. George telegraphs us:—

"Flags displayed and salute fired from Fort Carleton in honor of success of New Brunswick oarsmen against the world."

P. S.—A copy of *Bell's Life*, received by mail since the above was written, says that the International Regatta and the English Regatta had been amalgamated, therefore our oarsmen have not only whipped amateurs but professionals of all nations competing.—*St. John Glob.*

Medical Notices.

Holloway's Ointment and Pills—Bowel Complaints, Diarrhoea—when these diseases prevail, immediate recourse should be had to the Ointment, which should be well rubbed two or three times a day upon the abdomen, and the intestinal irritation will gradually subside. All inflammation will be subdued, and excessive action safely restrained. This treatment, assisted by judicious doses of Holloway's Pills is applicable to all forms of diarrhoea and dysentery, attended by heart-sickness, griping, flatulency, and other distressing and dangerous symptoms. After rubbing in the Ointment, a flannel binder should be worn, and the patient should be restricted to a farinaceous diet for a few days, till the urgency of the disease has been diminished by the preserving employment of these remedies.

A Cough, Cold, or Sore Throat, requires immediate attention, as neglect often results in some incurable Lung Disease. *Brown's Bronchial Troches* are a simple remedy, and will almost invariably give immediate relief.

An effectual Worm Medicine.

The combination of ingredients used in making Brown's Vermifuge Comfits is such as to give the best possible effect with safety.

Much sickness with children as well as adults attributed to other causes, is occasioned by worms. Brown's Vermifuge Comfits are effectual in destroying worms, and can do no possible injury to the most delicate child.

Curtis & Brown, Proprietors, New-York. Sold by all dealers in medicines, at 25 cents a Box.

Perry Davis' Pain-Killer.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

At this period there are but few of the human race unacquainted with the merits of the Pain-Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

Ayer's Cathartic Pills

Are the most perfect purgative we are able to produce, and, as we think, has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use of these medicines and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia, Gout, and other kindred disorders arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations on which they make more profit. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.

MANNY'S Reaping and Mowing MACHINES.

THE Subscriber would inform the Farmers of P. E. Island that he has now on the way to the Island a goodly number of those CELEBRATED MACHINES. Also, a number of the far-famed UNION MOWERS, together with quite a number of WHITCOMB'S PATENT HORSE RAKES—the same he sold here last season, and that has given so much satisfaction to those that used them, which they will fully confirm and agree to when asked by any of you—and would also state that he has ordered a number of the BUCKEYE REAPING and MOWING MACHINES, which will soon be here.

As money seems to be quite an article here at this time, and very difficult to get hold of, the Subscriber would beg leave to say, that those parties who may wish to pay money for any of those Machines, he will make a liberal deduction from last year's prices, while those who may wish a long credit on the Machines may be assured of the same liberal terms as usual, say from one to three seasons, divided into equal payments, as the parties may agree upon at the time of purchase.

H. C. GREEN of Summerside, and R. J. CLARKE, of Orwell, will act as my Agents in selling the above Machines in this Province; and the Subscriber will be found at his Old Stand,

the City Grocery Store, North side of Queen's Square, near the Post Office, where he will be very happy not only to SHOW the above Machines but to SELL them to the Farmers. Please call and examine the Machines for yourselves before purchasing elsewhere. I have now on hand a full assortment of Extras for the Manny Machines.
