

P. E. I. LEADS THE WAY!

1957
1958
1959

The wise judgement of the voters of P.E.I. triggered the Diefenbaker victory in 1957; the unprecedented "grand slam" was repeated in 1958 — our Province led the way for the great Conservative victory of the Diefenbaker Government in Canada! Again, Canada looks to this historic Island to lead the way!

Elect The Party of...

MARITIME RIGHTS

Prince Edward Island, New Brunswick and Nova Scotia gave overwhelming support to the Conservative Program for Maritime Rights! After years of neglect, we now have a friendly, Maritime-minded Government at Ottawa: the Atlantic Provinces Grants meant \$10,000,000 to the Island; millions for roads, tourist promotion and improved benefits for the fisheries industry have helped our economy. Let's strengthen the Stanfield-Flemming team for Maritime Rights with a Conservative Government in Prince Edward Island!

Elect The Party of...

CO-OPERATION WITH OTTAWA

The present government's leader says he'd "rather deal with a Liberal Government in Ottawa." This, in spite of the long history of neglect from Liberal Governments of the past — in spite of the friendly help from the new Diefenbaker Government: the \$10,000,000 air-force program for Summerside; the \$2,000,000 airport improve-

ments at Charlottetown; the \$7,500,000 federal grants for Roads to Resources; the 50% cost-sharing for hospital insurance; the increased pensions for senior citizens, veterans and disabled persons; the increased grants to universities; a government building at Souris; the new car ferry between Borden and Cape Tormentine; improved harbor facilities for Alberton, Beach Point, Sturgeon, Naufrage and North Lake. The Government of John Diefenbaker needs co-operation not political hostility! There's no progress without change, no progress without teamwork.

Elect The Party of...

THE CAUSEWAY

The Diefenbaker Government's national policy is to unite the Canadian nation, develop our great resources and make the most of our opportunities. The old government at Ottawa "voted" \$23,000 to search for rocks — the Diefenbaker Government has spent \$600,000 in two years getting expert advice on construction. Which party do you think will build the causeway?
