TORONTO

TORONTO (CP)—Base metals stretched their advance to six sessions as they led the stock market ahead today in moderately-active trading.

Base metals added 1¼ points to raise their 1958 high to 175.41, their best showing since mid-August of 1957. Golds saw most of their early gains disappear but closed ahead several decimal points.

Western oils were the only losers as the profit-taking, that began Tuesday continued.

Wednesday's increase in the price of copper in the United States and lead and zinc in Canada gave senior mines a boost. International Nickel set the pace up ¾ at 86½. Falconbridge and Noranda each gained ½ and Consolidated Mining was ahead ⅝ at 22⅛.

Western oils dipped as Calgary and Edmonton were off ⅝ at 29¾ and Home B eased ⅜ at 19¾. Pacific Pete and Pembina were unchanged.

Index changes: Golds up .02 to 83.21; base metals up 1.23 to 175.41; western oils off .55 to 141.49.

Better Forest Management Is Theme Of Papers At Meeting

FREDERICTON. — (CP) — Better forest management was the central theme of technical papers presented here Wednesday as the Canadian Institute of Forestry moved towards conclusion of its 50th annual meeting.

More than 400 foresters from all parts of Canada heard summaries of forest industry surveys conducted by —five provinces. Also presented was a paper on the Gordon Commission's study of forestry across the nation.

Emerging from the overall picture of these studies was the apparent need of a tighter program of forestry control to expand development. Several provincial surveys suggested more government action towards the appointment of non - political supervising boards.

The New Brunswick commission survey noted that 14,800,000 acres, or 83 per cent of the total land area of the province, is forested. Bulk of the present production is from softwood, forming 75 per cent of the forest inventory.

Annual value of forest products in New Brunswick is about $152,000,000, and a rise within two decades to $275,000,000 was predicted. A crown land rental scheme in lieu of stumpage, revision of the private land tax structure, —and appointment of a forestry advisory council were among the recommendations of the New Brunswick commission.

A summary of the Gordon Commission's section on forestry noted ehat in 1954 Canada had to cut 3.1 billion cubic feet of merchantable lumber to meet wood requirements. By 1980 it was estimated 4.9 billion cubic feet would be needed for this purpose.

The Gordon Commission forecast indicated that Canada seemed to have sufficient forest resources to cope with the predicted demand. But it emphasized that good management, cost control and greater productivity would be necessary.

H. J. Hodgins, Vancouver, vice-president of the Canadian Institute of Forestry, presided over the session.

$9,000 Gamble On Holstein Cow Pays Off

BEETON, Ont. (CP)—A $9,000 gamble has paid off for a Holstein breeder in this community 25 miles north of Toronto.

Experts shook their heads last May when H. J. Wilcox paid that amount for a 15-year-old former All-Canadian cow named Glenvue Nettie Jemima at the dispersal of the Rosafe herd of Dr. Hector I. Astengo of Brampton, Ont., and Rosario, Argentina.

To friends who thought the cow was on her last legs he explained:

"I've a hunch she's carrying a bull calf."

This week Glenvue Nettie Jemima gave birth to a bull calf sired by ABC Reflection Sovereign, a Rosafe bull considered the best of the Holstein breed during the last 30 years with three all-Canadian titles to his credit.

And Glenvue Nettie Jemima still is in good health for her 15 years, so Mr. Wilcox plans to breed her again to ABC Reflection Sovereign. The famed bull, bred by Armstrong Brothers of Brampton, died two years ago but is still available as a sire through artificial insemination.

Mr. Wilcox plans to get back more than his original investment next month by entering his bull calf, named Rosafe Citation, in the sale of stars at Toronto's Royal Agricultural Winter Fair.

Full brothers of Citation have already brought prices of $18,000 and $20,100 in the sale of stars.

$4 bills, tiny silver 5¢ pieces and large "coppers" would have been your regular "spending money." They are now collectors' rare items.

Added together, this "money" totals $4.19 which is the average interest per year available to investors on each $100 Canada Savings Bond bought and held to maturity.

These Bonds are truly "collectors' items." There isn't another Bond like them for safety, income and the unique "cash when needed" feature.

We recommend Canada Savings Bonds to every person with savings, or for purchase on the Monthly Payment Plan.
