N. Y. Stocks

NEW YORK (AP)—The stock market rallied Tuesday with a vigor not matched in more than 15 years.

It was a surging rebound from recent heavy losses. Gains were widespread and went to around points in significant sections of the list. The Associated Press average of 60 stocks advanced $2.90 at $154.40. The gain was the best since Sept. 5, 1939, at the beginning of the Second World War.

Monday the average fell $3.90, sharpest fall in five years.

Tuesday's rebound was surprising but not completely unexpected. Because the Monday break took prices down so sharply, there were many bargain hunters on hand at the opening Tuesday. They rushed in and bought so heavily that the tape fell behind during most of the first hour.

Volume amounted to 3,160,000 shares.

General Dynamics was the day's active issue up 2⅛ at 59. It was followed by Pennsylvania Railroad up 1 at 27¼, Royal Dutch Petroleum up 4⅞ at 81¼, Chance Vought up 3¼ at 51½ and Glenn Martin up 1½ at 36⅝.

International Nickel led Canadian stocks higher, up 3⅛ at 62⅝. It was followed by Hiram Walker, up 1½, Canadian Pacific, ahead 1⅛ and Distillers Seagram, up ⅜. Lower were McIntyre, down ¼, and Dome Mines, off ⅛.

On the American stock exchange Royalite Oil gained ¼ and Giant Yellowknife advanced ⅛.

Ford and Bank of Montreal each lost a point at 106 and 43, respectively.

All sections of the industrial market advanced.

Consolidated Denison was up 55 at $7.20 and Faraday firmed 35 up at $2.85 in a stronger mine section. There was little action in the western oils.

Industrial volume was 98,400 shares and mines were 658,500.

U. S. Aid Shifts To Asia

By WARREN ROGERS Jr.

WASHINGTON, (AP) — President Eisenhower reported Monday a "significant acceleration" of foreign aid operations last year in Asia, "where communism is stepping up its efforts of expansion."

A report covering the July-December period of 1954 was prepared for Congress by the Foreign Operations Administration, headed by Harold Stassen.

It told how the agency is spending the $2,800,000,000 in new appropriations for the fiscal year ending next June 30 and $2,500,000,000 in carryover funds from previous appropriations unused but earmarked for military equipment.

The report did not say specifically how much had been spent during the six-month period, but it said that Far Eastern military aid from its start through December 1954 had reached a total of $1,900,000,000.

One fourth of the new appropriations were earmarked for Southeast Asia and the western Pacific. FOA said that through March 1 this year it had approved $555,000,000 in that area for various mutual security programs other than military assistance.

The report emphasized strongly the shift from Europe to the under-developed areas of Asia, Africa and Latin America.

It said Europe's amazing economic recovery was a key factor in permitting this change.

"Together the underdeveloped countries hold the bulk of the world's population, occupy the largest part of its land area, constitute the major source of its key minerals and raw materials, and contain many of its most valuable military bases," the report said, adding:

"If these resources should fall under Soviet influence, the road to the Communist end goal of world domination would be made relatively smooth."
