

Our Future

Canada's universities are a window on the world. They're about people and ideas, research and development, next door and around the world. They're a vital part of our community, making our best resource - our people - even better.

From October 24 to November 1 universities across the country are celebrating National Universities Week. Running under the slogan of "Investing in our future", this week is designed to draw attention to the fact that our universities are essential to the present and future life of this country. This is the third time such a united effort of provincial, regional and national academic communities is directed at the Canadian public. It is essentially an awareness campaign.

UPEI is scheduling a number of activities intended to draw the public at large to its campus. You are invited to participate in tours of the new college of

Veterinary Medicine as well as other points of interest on campus. These tours, (AVC and campus tours) are available throughout the week. Check the schedule elsewhere in The Gem. On Saturday, Oct. 24 Theatre PEI will present *The Chappell Diary* in the Duffy Amphitheatre at 8:00 pm. Writer in residence Adele Wiseman will hold a public reading on Monday, Oct. 26 at 8:15 pm in room 108 of Robertson Library. The UPEI Bookstore will be holding a special sale on Wednesday, Thursday, and Friday when customers will obtain a 20% discount on all purchases of clothing. These are just some of the events starting next week. ■
