

THE DAILY EXAMINER. SEPTEMBER 29, 1894.

HARD TIMES IN THE WEST.

A correspondent in Oregon writes to THE EXAMINER:

"Although times are hard out here, still I cannot do without your paper. The crops in Eastern Oregon this year are very heavy—wheat crop is immense, but wheat sells at 25 cents to 30 cents per bushel. Times all over the west are hard, HARDEST, and this winter now coming in will see many starve. Thousands upon thousands are in want—wages down to bed rock. I know lots of good men who are working 16 to 18 hours a day for their bread. People in P. E. Island don't know when they are well off. I advise all to stay there in God's own country. The rainy season is now on. You can get a good meal in this city in a restaurant for 5 cents, and lodging from 10 cents up per night. The doctors and suicides are of almost daily occurrence, and a man has to be careful after night on the streets if he has any money on him. I would ask you to sound an alarm in your paper and warn young men in P. E. Island to stay at home, work on the farm, and keep clear of the West. The soup-kitchen is the order of the day here. People all over the Sound country are in a starving condition. Eastern Oregon is a little better, and British Columbia is much better. Canada, as a whole, is away ahead of the United States. Free trade in wool has brought the price of wool down to 6 cents per lb., and the sheep business, one of the principal industries of Oregon, is knocked out. I hope that P. E. Island will never see a free trade Government."

It need not be said that the writer of this is an enterprising P. E. Islander, who went West some years ago to seek his fortune. A new view is here given of a "cheap country to live in." It is evident that mere cheapness does not help the farmers of Oregon, and it is but reasonable that they accept the arguments of those who preach free trade because it will make things cheap.

TEACHERS' CONVENTION.

Thursday Evening's Session.

The most interesting part of this session was a paper read by Mr. Seaman on "Needs of Our School System." It was exceedingly pointed and interesting, and was warmly approved, especially by Mr. Kieley, who made a vigorous plea for the profession as regards pecuniary matters. An address by Judge Caldwell gave the large meeting much pleasure. Convention adjourned at 9.40.

FRIDAY MORNING'S SESSION.

Chief in interest at Friday morning's session was an address by Superintendent McLeod on his visit abroad. He gave the observations suggested by the visit, which was to note educational methods with a view to improvement. He had visited the schools of Quincy, Mass., and those of Toronto. The conclusion he drew was that our primary departments, particularly those, were defective. His remarks were heard with great attention and applause. A paper by Principal McIntyre on "Regularity of Attendance," and how to Secure It," was read by that gentleman. Mr. McIntyre suggested more attractive work on the part of the teachers, increased attention on the part of parents, and also the offering of some prize to be secured only by unexcused attendance. The paper was applauded. Ex-Mayor Haviland then delivered an enthusiastic address. Discussion on Mr. McIntyre's paper was deferred.

AFTERNOON SESSION.

The Convention re-opened at two o'clock. Superintendent McLeod was appointed Librarian. A committee of three for the supervision of the library was appointed.

The following resolution was carried: Whereas, the text books in history and grammar are unsatisfactory, and that the Government be asked to furnish more suitable books.

A committee of five on text books was appointed, viz., Mr. McSwain, Inspectors Murphy, Campbell, Balderston and Principal McIntyre.

Principal Miller presented the report of the nominating committee as follows: President, W. D. McIntyre, Summerside; Vice-President, Queen's, C. W. Kieley; Prince, R. McDonald, Malpeque; King, A. E. Fraser, M. H. South; Secretary-Treasurer, Jas. Landrigan, Executive Committee, Messrs. Stevenson, McKinnon, Arsenault, the Messrs. McCallum and Ross. Carried unanimously.

A committee was appointed to wait on the Government and press for a representative at the Board of Education, viz., Messrs. Seaman, Boss and McSwain.

Secretary E. Stewart, of the School Board, then gave a stirring address on our delinquencies in "method."

Messrs. Duncan and McSwain took issue with Mr. Stewart's sweeping contentions. President Campbell left the chair with a hearty vote of thanks from the convention. A vote of thanks was tendered the railway and streetcar authorities for kindnesses extended.

CONVENTION THEN CLOSED.

A STRONG DECLARATION.

At the Methodist conference at London, Ont., recently, the following resolution was adopted:

1. That the liquor traffic cannot be licensed without sin.

2. That it is the duty of the civil government to prohibit trade in intoxicating drinks.

3. That the Methodist church stands for righteousness in our nation, and believes the principles taught by Jesus Christ should take precedence of all others in the political councils of our people.

4. That we refuse to consent to and repudiate all compacts and compromises with the licensed liquor traffic as being unchristian.

5. That we hereby give notice that we will do our utmost to utterly destroy all partnerships between people of Canada and dealers in alcoholic liquors and their sympathizers.

6. And, finally, declare that this ultimatum shall be presented by the Methodist electors to conventions of political parties, with the urgent entreaty to nominate only such candidates as will be in accord with these utterances, and we further recommend such electors to refuse their consent to nominations which ignore these principles, and that standing committees on temples and that standing committees on temples be instructed to have this declaration printed in circular form, and circulated throughout the Dominion.

—Advices to Mr. Dillon report that P. E. Island cheese, made by Mr. Thomas E. Jarrett, at the Hampton Factory, won second prize in the competition at the Central Ontario Fair, Ottawa. This is good news.

THE CHINA-JAPAN WAR.

The St. Petersburg Novosti has published a most significant article referring to the war between China and Japan. During the course of this utterance the newspaper says: "The present time is favorable for European intervention in the war, and this intervention should aim at effectually restoring the warlike orders of the combatants. A check to their ambition could be best accomplished by a partition of China between Russia, Great Britain and France. This would be an act comparable with the conquest of America, or the partition of Africa, and would be of some service to civilization, in which China has always been worse than useless or unworthy. Europe can no longer tolerate the pillage of dwellings, the massacre of missionaries, and the violation of commercial interests."

The Pall Mall Gazette of London publishes a letter from Shanghai, dated August 17th, saying that the Chinese navy cannot fight. The ships have only about twelve rounds of ammunition, the regular supply of ammunition having been sold, according to the Pall Mall correspondent, by the captains of the Chinese warships. The correspondent adds that one of these commanders actually sold one of his ship Armstrong guns, and goes to sea short.

A dispatch from Shanghai dated to-day says: The Chinese naval officers now at Port Arthur and Tien Tsin are squabbling among themselves as to the responsibility of the Chinese losses in the naval battle off the Yalu. A court of enquiry is sitting, and has already found Captain Fong of the warship T'ai-Yuen guilty of cowardice in the face of the enemy. He was to be condemned to be beheaded, and it is believed that officers will lose their heads.

INTRODUCING A GOOD THING.

Mr. A. J. Cox, manager, with his eldest son, Mr. Fred L. Cox, of the Prussian Oil Medicine Co., of Halifax, are in the city, inaugurating the sale of their wonderfully good pain relieving medicine through P. E. Island. "Prestissan Oil" is simply the name given to a prescription got by him from the late Dr. Niemyer of Berlin, one of the most distinguished medical men of Germany. Mr. Cox has had this valuable prescription in his possession for 25 years, but as it has been in his hands, in his business he has not had the time to introduce it in anything like a general manner, until a year ago last January; but such has been its wonderful "value and virtue" that wherever it has been introduced, it has, from the start, bounded into popular favor, and is destined to have a rapid sale and grand future in this Island. Although "Prestissan Oil" is well known almost everywhere in Nova Scotia and New Brunswick, where it has been pretty generally introduced, and has thousands of ardent champions there, it is almost unknown here until now, but such is the persevering industry and business snap displayed by Messrs. A. J. Cox & Sons, as shown in their advertising methods in the exhibition grounds and in the Cathedral Bazaar, together with their strong faith in the sterling virtues of this excellent medicine, that it is not hard to prophesy for PRUSSIAN OIL, the most gratifying success in the near future. Already such well known men as Rev. A. D. McLeod, Methodist clergyman, and Mr. W. M. Robertson of Hunter River, and Capt. John Nicholson of the City Hotel, Charlottetown, among others have signified their high appreciation of this medicine, and are glad to make it known, and when we add to this the fact that our popular druggists, Messrs. Johnson & Johnson and Redin Bros., whose business place is so well known, have been appointed to take charge of the business here and to supply the trade all over this Province, its success is assured. Messrs. Cox & Sons in the interest of the above firms and to trade generally will do, through missionary work for a few weeks in explaining its uses and the German method of applying it, and we hope and believe that they will meet with the most triumphant success. "Try it and prove it."

WARD TWO.—THIS WAS nomination day for the vacancy in the representation of Ward Two at the City Council Board, caused by the late death of Councilor Robertson. The time for receiving nominations was from twelve to four. Mr. F. P. McCarron was the only person nominated, and he is therefore elected by acclamation.

J. E. Wyatt, Esq., of Summerside and Mrs. Wyatt are visiting this city.

Captain McElhinney, of Ottawa, arrived here last evening, and registered at the Hotel Davies. He is accompanied by Mrs. McElhinney.

Mr. William W. Wickham, of Summerside, is in the city and is registered at the Hotel Davies. Mr. Wickham is one of the cleverest students in the medical department of McGill University. He leaves for Montreal, to resume his studies, on Monday.

It is important to keep the liver and kidneys in good condition. Hood's Sarsaparilla is the remedy for invigorating these organs.

NEWS NOTES.

Quebec's citizens are agitating for another winter carnival.

The New York Central has declared its regular quarterly dividend of 11 per cent. The dividend for the quarter is \$90,000.

Dr. Parkhurst of New York, is still after Tammany Hall, and says: "I think we can thrash Tammany out of sight on election day."

Life is made up, not of great sacrifices or duties, but of little things, in which smiles and kindnesses and small obligations given habitually win and preserve the heart and secure comfort.—Sir Humphrey Davy.

The European money markets are affected by the news of the Czar's illness, as it is feared in the event of his death trouble would ensue. The Czar is recognized as one of the strongest supporters of peace.

Mr. Powdery, once a Knight of Labor and antagonist of the legal fraternity, is now a lawyer. The Patrons of Industry who are supposed to be on the warpath after the legal profession, have nominated a lawyer for Parliament in Dunjias.

London Truth states that in Russia there are many objections to the proposed marriage of the Czarowitz and Princess Alix of Hesse. In St. Petersburg "big personalities are reported to be working hard to upset the plans made for the marriage."

Only 30,000 francs of the new Panama Canal stock was subscribed for by the French public. In old days 30,000,000 francs would have been struggled for. The lesson of the French investor cost him a lot, but it appeared to have been learned.

The Queen's Printer has published the federal statutes of last session. When it is considered that Parliament did not open until July 23, it is evident that Dr. Dawson has lost no time in getting the statutes out. The bound volumes of the debates will be out in a few days.

Governor Altgeld, addressing the State Board of Equalization at Springfield, Ill., showed many figures and facts concerning the Pullman Company's manner of escaping taxation. The company, for instance, he said, gave in \$36,000,000 as their capital stock, when it should be \$61,000,000.

A story comes from Stamford, Ontario by way of Niagara Falls, N. Y., that Mr. Nelson Stoltz, while climbing over a pile of rock on the Canadian side, ran into a person, mistaking him for an American, by climbing a cedar tree, and when the snakes retired to their den he came home with one of the reptiles which he killed, which measured five feet in length and had eleven rattles.

United States Senator Higgins, in his Oglethorpe speech, dwelt on the advantages enjoyed by Canadian farmers over those of the Eastern United States. After a prolonged tour through the district Mr. Higgins was speaking in Mr. George Taylor, M. P., and his agricultural associates came home to Leeds and said that Canada was the best country for a farmer to live in. Mr. Higgins' observations agree with theirs.

A despatch to the Halifax Chronicle, dated Moncton, Sept. 26, says: The trouble in the Times office took an unexpected turn to-day, and it is said the paper will not appear to-morrow. It will be remembered that last year H. T. Stevens got possession of the paper and after a long and strenuous struggle, his former partners, from interfering with the paper. Barker an expert injunction restraining Stevens, Toole, Oliver Jones and Sheriff McQueen from interfering with the stock generally, and also warning all employees of the firm from interfering. By this injunction the date of the sheriff's sale is held back until after the hearing, which is on October 10th, on which day the application will be made for the appointment of receivers for the estate. There is little doubt that the Times will not appear to-morrow, nor until after October 10th.

There is apparently a boom in the hog business in Western Ontario. The receipts at the Toronto market in 1893 were 74,557 animals. For the nine months of the present year 53,965 have been received, and it is expected the 100,000 mark will be exceeded before the year is closed. Many of the animals are wheat fed. There has been a very marked development in the Canadian hog-raising industry in recent years. According to the census of 1881, there were 1,206,616 hogs in the country; by the returns of 1891 there were 1,702,785. From being a pork importing country it has become a pork exporting country. Even in three years the change is notable, as the following figures of the hog products imported and exported will show:

Table with 2 columns: Imports and Exports. 1890 Imports: \$1,199,930; Exports: \$45,369. 1891 Imports: \$1,778,892; Exports: \$2,052,471.

The exports began to show a marked improvement in volume, it may be remarked, and the imports to fall off, immediately after the increase in the duties.

THE CATHEDRAL BAZAAR.

About 10 o'clock last night the sound of the auctioneer's bell could be heard all over the city, and a few minutes later, when the stentorian voice of Mr. Archd. McNeill, the veteran of his craft, was made to ring through the building, everyone knew that the committee meant business. The cakes were first taken up, and the purchasers being numerous and appreciative, it took but a short time to materially lessen the supply of these excellent goods.

This being, closing night, the auction sales will be resumed at an early hour, when the balance of the cakes, together with the remainder of the stock of useful and fancy articles will be disposed of. This affords an excellent opportunity to bargain seekers to procure what they really require in the way of Christmas cakes, clothing, blankets, &c., &c.

Everybody should patronize the Bazaar tonight to see the close of what may be truly termed a successful undertaking.

John D. McQuaid, of Little York, has the thanks of the Ladies' Committee for a very handsome canopy—a beautiful singer. The election contest between the Benevolent Irish Society and the A. O. H. was exciting and interesting. At the close, 10 p. m., the vote stood: A. O. H., 402; B. I. S., 226. The contest will be continued this evening, when the parties interested should lose no time in polling for their respective societies.

A contribution of \$2 from a friend in Halifax is acknowledged by a member of the Ladies' Committee, and has been given by N. B. and M. Rattenbury is acknowledged with thanks by another lady.

Theo. L. Chappelle, Esq., has the thanks of the Ladies' Committee for a book on that ever interesting subject, the "World's Fair." It is on the literary table and adds another to its already many attractions. Also the Hon. James H. Cameron for a donation of \$5 in cash, and Hope River Parish, per Rev. James E. Macdonald, for \$10 in cash.

There will be tea on the tables at five o'clock this evening. It will be well worth patronizing.

The ice cream and oyster tables are sure to be well patronized tonight. Remember that A. & C. Quirk have had the contract for supplying the ice cream since the first day the Bazaar opened. They save a "snap" on the ice cream and no mistake.

Last night's stereoscopic views, shown by Mr. Walter P. Donell, assisted by Prof. Cox, of Halifax, of Prussian Oil fame, were something magnificent. The views were, many of them, astronomical, and they all held the rapt attention of the lookers-on until the exhibit was over. They will be shown again tonight, with a great many more views, and previously given. As soon as it is dark the exhibition will commence. Come, everyone, tonight, see the free show, and come in to the bazaar.
