THE UNION CONVENTION—LATEST NEWS.

The return of our Island Delegates on Saturday evening was not marked by any manifestation of public feeling. This is, perhaps, owing to the fact that the novelty of the Convention is, in a great measure, wearing away, or that it is not so popular as it might be, if the public knew more about it. We learn from a source that can be depended upon, that the Delegates have not yet *decided* upon any plan of Union, but the impression is, that they will report in favour of a federal union, resembling in its most essential features the federal union of the United States, under the supervision of a Viceroy or Governor General, to be appointed by the Crown. So far, their time has been occupied in collating information respecting the resources, debts, territory, population, tariffs, customs regulations, light houses, &c. of all the Colonies—interchanging their views, in a conversational way, in respect to these topics—considering whether it were best to consolidate the debts, and let the whole be assumed by the Central or Federal Government. The great inter-Colonial Railway, so long talked of, received, we understand, the utmost consideration in the deliberations; and it was determined, unanimously, that in the event of a union being consummated, that great work should proceed without delay. The question of military defences occupied a prominent place in the deliberations. All the Colonial statesmen are now clearly of opinion that Great Britain is determined to be relieved from the charge of defending her Colonial Possessions, and that it becomes the imperative duty of the Colonists to make provision therefor.

Before leaving New Brunswick, the Delegates had agreed, that, with the consent of their respective Governments, they would again meet at Quebec on the 10th October,—the Canadians would then be empowered to join with the Maritime Statesmen, in the Conference, in an official capacity. That, it is well known, they were not able to do in the recent consultations,—the Canadians were admitted merely as visitors, and the Conference was, for the most part, carried on without them. An invitation will be sent to the Government of Newfoundland to allow representatives to come from that ancient Colony to the new Conference; and we have no doubt the invitation will be accepted, for we see by late papers that the Newfoundlanders were anxious to be represented at the late Convention. One of the Government steamers of Canada will call at Pictou about the 6th or 7th October for the Nova Scotia and Newfoundland Delegates—then at Charlottetown for the P. E. Island ones—and then at Shediac for the New Brunswick Delegates. The details of the Report to be submitted to the several Colonial Legislatures, embracing the question of Union in all its aspects, will be determined upon by the enlarged Convention at Quebec; and it will afterwards rest with the several Colonial Parliaments to decide whether there shall be a Confederation of the British American Provinces or not. We presume there will be an early meeting of the several Parliaments to determine this momentous issue.

This is not all we know relating to this Convention. The best part, so far as this Island is concerned, is yet to come. The Hon. Mr. Coles impressed upon the Convention, that as the Island had not so large a debt hanging over it as the other Colonies—as it would not participate in the advantages of an intercolonial Railway to anything like the extent that they would, and as our people laboured under a most oppressive grievance from the leasehold system, he and his fellow Colonists would never agree to a change in their constitution unless it was understood that that system would be totally abolished by the intervention of the Federal Government. He proposed, we understand, that this could be done by a free gift from the Federal Government of £150,000 or £200,000 sterling. All proprietary claims, he considered, could be purchased in full for the latter sum—the Township lands to be valued by Federal Commissioners, and sales enforced according to their scale,—the tenants to be enabled to buy their farms on moderate terms, and at a credit of 20 years,—their payments to go into the local Treasury, and to be applied to the advancement of all local improvements, in which old freeholders would participate as well as intending freeholders and leaseholders. Mr. Coles contended, we understand, that with such a gift as £200,000 sterling from all the other Provinces, Prince Edward Island would then be about on an equal footing with them as regards its public debt. With such a concession, he believed, that his fellow Colonists—a very large majority of them, at all events—would not object to being united with the other Provinces.

It might be supposed that so bold a proposition would startle the Delegates from the other Provinces; but we have reason to know that it was admitted all round that our Land Question could only be settled by some such scheme of purchase. The Nova Scotians and New Brunswickers are, decidedly, of opinion that there must be a speedy settlement of the Island Land Question in some way, and a purchase under the direction of the general Government is the mode to which they are the most favorably inclined. The Lower Canadians are disposed to favour Prince Edward Island in this matter to the fullest extent—the Ministry of Canada, generally, we believe, will help to carry out the important object; and Mr. Cartier, Attorney General (East)—who is one of the cleverest men of the very able Canadian Ministry—declared, most emphatically, that the proposition made by Mr. Coles was a most reasonable one, and promised to give it his warmest support.

We do not put this information forth by any authority but that of public report. It has been the talk of the Town for the last four and twenty hours; and when it is more generally known, it will give a great impetus to the cause of Union, in public opinion, amongst the inhabitants of this Island. Tenant League follies and 15 Years' Purchase Bills would be most effectually thrown in the shade, if the proposition made by Mr. Coles could be carried into effect; but whether it be or not, it is morally certain that under a Federal Union our tenantry would sooner be released from the thraldom under which they now suffer than they can ever hope to be through the small and crippled legislation carried on in this country. Yes, far sooner would the relief come than it can be hoped for, with a petty proprietary Government here, and with the Colonial Office under the control of proprietors in England. Colonial Office and Proprietary Misrule would come to a speedy end if a Federal Union should spring, as we hope it may, from the deliberations of the Delegates.

"I warrant you, mistress, thunder shall not so awake the beds of eels.......... I'll bring home some to-night."

SHAKESPEARE, *(Pericles.)*

We copy the following *fishy* story from a late No. of the Pictou *Eastern Chronicle.* Although we have heard nothing of it from those who frequent Brule in the Steamer "Heather Belle," we suppose it must be quite true—and that it has not been invented for the purpose of raising the price of land in that place, and inducing tourists to go there in order to see the "*elephant.*" Brule is, indeed, a very nice place; but, like Charlottetown, it sadly wants Hotel accommodation. However, if the annexed account be true, there is an *elegant* establishment just springing up there, capable of supplying any number of hungry travellers in the travelling season. With the millions of succulent food in the Eel Basin at Brule, there cannot be the least approach to starvation amongst the people of that interesting place, and certainly no *eleemosynary* aid will be required by them.

STRANGE DISCOVERY.

The laudable curiosity of tourists, as well as the investigation of science, daily unfolds phenomena hitherto sealed to the eye of man.

On the shore of a place called Point Brule in the vicinity of River John stands a rock washed by the waves of the St Lawrence; its outward or general appearance presents nothing uncommon or attractive, and certainly would not warrant the supposition that extraordinary developments would reward a careful examination of its parts. A few days ago some gentlemen whilst waiting for the steamer procured a skiff and proceeded slowly round the shore; not a breath of wind disturbed the repose of the sea, but when abreast of the rock a dull and heavy sound as if from its centre, attracted and rivetted attention. Curiosity of course prevailed, and going to the top of the ledge a scene, strange and unexpected, burst upon their view: a basin scooped out perfect as from the hand of art, and with a circumference of fifty feet, literally swarmed with living and rigling eels! Amazement having subsided, the question arose—how were these creatures furnished with water and food for their existence? here again research solved the apparent mystery, and made all perfectly plain; about ten feet from the bottom of the reservoir an aperture appeared communicating with the sea, and somewhat above the low water level, each returning tide supplied a fresh element and permitted the congregated millions egress and ingress at pleasure. To count the myriads in their bosom home the discoverers think would involve a hopeless calculation, and viewing it in this light, perhaps it would be wiser to consider in what way the knowledge thus obtained will be a benefit to the public.

Point Brule already boasts its steamboat and factories, each requiring an immense expenditure of oil, and it almost appears that nature, anticipating the requirements, had provided for th ir especial use this necessary and valuable material in the collecting of creatures so well adapted to furnish it. Other considerations aside from the pecuniary may be taken into the account. Amusement seekers, caterers for the gratification of the appetite, and lovers of geology might cordially meet here and find rich compensation in the wonders so lately revealed. Sterne says, "Believe me, Yorick, there are worse occupations than feeling a woman's pulse." So believe me, Mr Editor, the disciples of Isaac Walton might be worse and less profitably employed than in catching eels at Point Brule; the gourmond or epicure would here find a liquid for his salad, richer and stronger in flavour than any the finest olive ever produced, and Sir Charles Lyall, who has proved conclusively (to his own satisfaction) that man inhabited this world thousands of years before humanity existed, would secure materials for deep calculation, and be enabled to enlighten his race with volumes of learned disquisition.

In a discovery of this importance, where all are interested, public consideration and energy should at once be manifested; not exactly the sort of energy lately displayed, in the purchase of a lawsuit instead of a ferry boat, but in a calm determination to make the best of a treasure so unexpectedly received, and acknowledge a debt of gratitude to the fortunate discoverers in the shape of a medal representing them on the summit of a rock, their crests ornamented with the semblance of an eel.

A TRAVELLER.

MR. ROBERT L. GIBSON, Agent for the extensive Publishing House of Mr. John Lovell, Montreal, is now in this City, his business being to collect statistics and subscriptoins for the British North American Almanac for 1865, the first No. of which appeared last year, and was found to be an admirable compendium of information relating to all the Colonies. We understand that the Almanac for the ensuing year will be much fuller; and judging from the experience which Mr. Lovell has had in the business, and his enterprising spirit, we have no doubt the book will be an annual worthy of a general and cordial welcome.

TEA PARTY AT SUMMERSIDE.—We desire to direct the notice of our readers to the Presbyterian Tea Party, at Summerside, to-morrow. The "Princess of Wales," to-morrow morning, will afford an excellent opportunity for every one to go there from Charlottetown—every one, we mean, who desires to encourage a praiseworthy object, and who, in doing service to religion and morality, may innocently blend with them genuine *personal recreation.* We should like to be amongst the happy throng at Summerside to-morrow; but if we cannot be with them in bodily presence, our best wishes for their happiness will certainly waft themselves there.

THE MOONLIGHT EXCURSION, under the auspices of the Friends of Temperance, took place on Wednesday evening last, and was a most brilliant affair. The Procession, headed by the Volunteer Band in their much admired uniform, consisted of the Band of Hope, the Sons of Temperance and the Good Templars, under the marshalship of Captain Cropley. The British Templars did not walk in procession for the reason stated in the following communication:—

CHARLOTTETOWN, Sept. 12, 1864.

To the Hon. Dr. Young, G. W. C. T. of the I. O. of Good Templars.

Respected Sir:

Your kind invitation to a "Moonlight Excursion" on board the "Heather Belle," on the evening of the 14th instant, having been laid by me before the Provincial Grand Lodge of British Templars, recently organized in this City, the following Resolution was therefore submitted and unanimously adopted, viz:

"*Resolved,* That the letter of Dr. Young be filed, and that the acting P. G. Secretary be requested to acknowledge the same, and to intimate to the Hon. Dr. Young the regret of this Pro. Grand Lodge that in consequence of their having been so recently organized, our members cannot appear in full regalia; but, nevertheless, they will be most happy to accept Dr. Young's invitation to be present at the Moonlight Excursion on the 14th instant."

I have the honor to be,
G. Worthy Chief Templar,
Yours in F. H. & C.
J. BARRET COOPER.

The Procession passed through various streets with their Banners unfurled, and when it approached the residence of the Hon. Dr. Young, it entered the western gate of his beautiful grounds, and halted in front of his Mansion, when his lady presented the Band of Hope with some beautiful flower-pots, and promised that if they would so work in the good cause as to double their number, she would present them a handsome silk Banner. The Band then struck up a lively air, and the Procession proceeded through the southern gate, and marched to the Steamer *Heather Belle,* which was splendidly illuminated for the occasion. The weather was every thing that could be desired; the moon shone brightly, not a ripple was on the waters, and the whole scenery was enchanting. The Band discoursed sweet music; the Piper (McFadyen) sounded his thrilling notes, and various groups sang some delightful melodies. The refreshments provided by the excellent Steward (McKinnon) were everything to please the taste and satisfy the connoisseur. The fire-words were very grand. The whole company, numbering some hundreds, enjoyed themselves amazingly, and the only regret expressed was, that the season had so far advanced as to prevent a repetition of such a pleasing source of *amusement.* On landing, about ten o'clock, a Procession was again formed, and preceded by the Band and Piper, it stopped in front of the Temperance Hall, when three cheers were given for our beloved Queen, three for the Hon. Dr. Young, who suggested this excursion—three for Capt. Bourke, the obliging master of the steamer, *and then some of the friends dispersed to their* homes, while others went into the Hall and spent a short time enjoying the feast of reason and flow of soul furnished by various speakers. The whole affair passed off without any accident, and with great eclat.—*Com.*

We understand that Mr. D. H. Cogswell, son of J. N. Cogswell, Esq., of Georgetown, who lately distinguished himself as a student in the Prince of Wales College, has been appointed Head Master of the Grammar School of New Glasgow, Nova Scotia. Mr. Cogswell is a young man of modest demeanor, of great powers of application, and from the distinction he has already attained as a student, we are inclined to augur well of him as a teacher of youth. Let his example be a stimulus to the enterprising young men of our Island who aspire at the liberal cultivation of their own minds, that they may be qualified to occupy positions of usefulness and benefit to their fellow-men, whether within or beyond the borders of their narrow nativity.—*Isl*

SHOT BY HIS OWN GUN.—Rev. S. T. Rand reports that he lately visited an Indian settlement at Greenfield, Queen's Co., and met there a Micmac equipped for a hunting expedition. He was going out in pursuit of a bear, and his squaw heard in a little while the report of his gun. As evening came on, and he did not return, she went in search of him, and about dusk found him a mangled corpse in the brushwood. His gun, it seems, had gone off accidentally, sending its charge through his vitals, setting fire to his clothes and his powder flask, by the explosion of which his body was blown to pieces. The faithful weeping wife sat down and watched the corpse in the woods all night, and at day break went for aid and had the hunter's remains taken and buried.—*Isl.*

A serious row took place at Eastport, on the night of the 7th instant, between a party of roughs from Whiting, Maine, and a party of returned soldiers belonging to Eastport, and two sailors belonging to a British ship. Knives were freely used. Three of the soldiers and the two sailors are dangerously wounded.

FOR THROAT DISEASES AND AFFECTIONS OF THE chest. "Brown's Bronchial Troches," or Cough Lozenges are of great value. In Coughs, Irritation of the Throat, caused by cold, or Unusual Exertion of the vocal organ, in speaking in public, or singing, they produce the most beneficial results. The Troches have proved their efficacy.

THE CIVIL WAR IN THE STATES.

NEWS BY TELEGRAPH.

BOSTON, Sept. 12, 1864.

Vallandigham rejects McClellan's letter of acceptance. Peace men are determined to maintain their integrity..... Sherman's army is concentrated at Atlanta. All looks bright..... No recent intelligence has been received from Mobile..... Guerilla Mosby reported killed in a duel with one of his officers..... Intelligence from Grant's army says 2d division of 3d corps, at midnight, advanced and took a line of rebel works in their front, with one hundred prisoners, and still holds it..... Blockade runner steamer Elegey was captured by U. S. steamer Keystone State, on the 8th inst., near Charleston..... Whole new Government loan to be taken at four per cent. premium..... Gold 226¼.

BOSTON, Sept. 12.

12th, P. M.—A despatch from Washington says it is ascertained that Lee has made preparations for a grand attack on Grant, to cripple him before the army has been reinforced.... News from Hilton Head says the condition of Union prisoners is daily growing worse, 100 dying daily..... Rebel deserters state that there is great despondency among Georgia troops, they believing that their state is hopelessly conquered..... Averill's Cavalry had a fight with the enemy near Leetown, Va., on the 10th inst., and whipped the rebels handsomely, inflicting heavy loss..... Prize steamer Georgia arrived at Beaufort N. C., on 8th..... Gold 214.

BOSTON, Sept. 13.

European dates by steamship America at New York are to 21st, but embrace no news of interest..... Consols heavy, 88.5-8 a 88¾. Markets generally dull..... State election in Maine yesterday resulted in *triumph of Republicans,* who re-elected Governor Cony by about 19,000 majority. Full Republican ticket for Congress was also elected..... Blockade runner A. P. Vance, late Lord Clyde, was captured off Wilmington, 5th inst., with 400 bales of cotton and some turpentine. She was bound to Halifax..... Several valuable buildings burned in Cairo yesterday, involving a loss of $200,000..... No special war news this morning..... The bloody guerilla Quantrel has been taken prisoner..... Gold 217½.

BOSTON, Sept. 13.

The statement is reiterated that Gen. Fremont's letter of withdrawal is in the hands of his friends and will be made public now..... The *Herald's* Washington despatch says no decision has yet been arrived at in regard to the proposition for a thousand million loan made up by European capitalists, and it may be held under advisement until the sense of Congress is taken upon it..... The Richmond *Enquirer* of the 8th inst has a marked editorial in which it looks for peace—a lasting and permanent peace—in Calhoun's doctrine that that the Executive Department of the Federal Government be reposed in two agents instead of one..... Gold 222.

NEW YORK, 14—p. m.

Government has received no official advices from Grant or Sherman for three days—Richmond Examiner says Grant has massed a large force on railroad, two miles south of Petersburg; believed Sherman is concentrating his army at Atlanta for rest.—Officially announced that drafting will commence on the 19th inst..... Federals exploded a torpedo near south west angle of Fort Sumpter. Explosion too distant to do much damage, although it shook the Fort heavily..... Confederate powder works at Augusta, Va., exploded lately destroying 30,000 pounds of powder, and killing nine operatives..... Refugees from Richmond report great scarcity of provisions in that city..... Gold 223.

SEPTEMBER 16 (P. M)

Report that Mobile is commanded by gunboats of Federal fleet is confirmed by Confederate papers..... Southern papers contain a despatch dated Macon, 10th, stating that Wheeler's (Confederate) forces had been defeated by General Steadman..... Tobacco warehouses at Manchester, opposite Richmond, V. A, destroyed by fire on Friday. Loss over four millions..... New York *World's* correspondent asserts that Lee is preparing to evacuate Petersburg, and concentrate army at Richmond..... Governor Seymour nominated by Democrats for re-election. Governor Andrews, of Massachusetts, nominated by Republicans for re-election..... Gold 225.

VERY LATEST.

ST. JOHN, N. B., 17th S pt.

News from City Point reports large party of rebel cavalry made attack on Federal reserve cattle *for army, opposite Morrison's landing*—overpowered the guards—drove off over two thousand head of cattle..... News from the Potomac says picket and artillery firing is the order of the day..... No news from any of the other armies..... Gold 221⅞.

New countries have wants and habits peculiar to themselves. In our widely extended and sparsely settled territory, medicines ready prepared are more employed, and are in fact a greater necessity than in the old countries. Dr. Ayer's preparations have given the public greater confidence in this class of remedies than had ever been felt before. Physicians instead of discarding them, really favor the use of such ready at hand antidotes for disease, when they can be depended on. And we wish our readers to know that in publishing J. C. Ayer & Co's. advertisement, or any others of like reliable character, we think we are furnishing them as useful information as any with which we can fill our columns.—*Louisville Courier.*

We learn from the Reading Room slate that a Confederate Privateer entered the harbor of Pugwash, N. S., on Saturday night last and landed there sixty men. The size of this privateer is said to be double that of an ordinary tug boat.

We are happy to see among the list of appointments in the "Army and Navy Gazette," that of Mr. Frederick Hyndman of this City, as Assistant Paymaster to Her Majesty's ship the *Duncan.*

A Branch of the "North British and Mercantile Insurance Company" has just been established in Charlottetown. The Company is a staunch one—being long established, and having a large capital—and its rates of insurance are low. Every information will be given to parties desirous of insuring, by G. W. DeBlois, Esq., Agent, at his office, west end of Grafton Street.—*Vin.*

It affords us much pleasure to learn that Mr. Hugh Ross Dalgleish, youngest son of Charles Dalgleish, Esq., J. P., passed an examination last week, on board H. M. S. *Duncan,* at Halifax, for admission into the naval service. The examination continued over three hours, embracing a variety of subjects, in all of which he evinced very satisfactory proficiency, having reached the creditable amount of 375 marks—the total number possible being something over 400. This cannot but be gratifying to His Excellency our Lieutenant Governor, through whose kind application, we understand, the appointment was obtained. We wish the young gentleman that promotion in his profession and success in life to which his amiable disposition entitles him. With a sound education the avenues of a generous ambition are open to the youth of this Island—not a few are now, in different departments of the public service, fighting their way to fame and fortune. Let us hope that their efforts may be successful, and reflect credit on the isle of their nativity, and repay the solicitude of their parents.—*Isl.*

We are glad to learn that the Small Pox patients at Long Creek are progressing favourably. Of the two recent cases, one of them promises to be very light, and the *other is not considered dangerous.* McLean's house—converted into an Hospital—being considered too close to the highway, a temporary building has been erected on the rear of McConnell's farm. Every precaution has been taken, and no expense spared to prevent the spread of the disease, and we hope with success.—*Prot.*

HOLLOWAY'S PILLS AND OINTMENT.—Deranged Stomach, Sick Headache—Our comfort, happiness, and security, depend on the knowledge that most diseases originate from apparently a trifling beginning, and that the large proportion of them spring from inattention to the state of the stomach. Professor Holloway has turned his knowledge to useful account by discovering medicines which cure, without exception, the attendants on disordered digestion. They ward off, likewise, the torturing sick headache. The Ointment should be well rubbed, twice daily, over the stomach, liver, and bowels; to them it penetrates, and, aided by the Pills, immediately works such a revolution as establishes perfect digestion.

THE MIGHTY HEALER.

Let not disease, with its fangs, pray upon you, until the cold hand of death hurls you to an untimely grave. Shake of the feeling of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun, we place within the reach of all. We care not what may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and the vital organs, JUDSON'S MOUNTAIN HERB PILLS will pass, mingling with the blood, search out and grasp and then expel, all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorious beams, first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'tis gone—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB PILLS.

Sold by all Dealers in Medicine.

THE CROPS.—The heavy frost yesterday morning was destructive to late Indian corn, buckwheat, beans, and other plants and vegetables. The flower plants are thus shorn of their summer beauty.—*Bridgetown Free Press.*

But little additional information to that already published has been received respecting the crops. The potatoes seem to be the subject of much concern, and various opinions are entertained as to the amount of damage they will sustain from the rust. At Keswick Ridge, Kingsclear, Woodstock, Douglas, Maryland and Nashwaak, we are told the disease is making but little progress, and a fair average crop may be looked for. In several other places the disease has made greater progress, although no instance of total failure has come to our knowledge. Our agent at Cambridge, Queen's, under date of September 1st, writes, "I have to inform you that our crops, as a whole, (hay excepted) perhaps never looked better than they do at present. Oats, potatoes, buckwheat, corn and roots are above an average. What we want is a better market for our farm produce. St. John market at present is overstocked, and farm produce is not worth taking there.—*Farmer.*

Married.

On Wednesnay the 7th instant, at the residence of the father of the bride, by the Rev. H. B. Swabey, A. B., Mr. Alexander Campbell, senior, of Lot 16, to Caroline, third daughter of Mr. James Lyle, of Lot 16.

Died.

At Washington Village, on June 5th, Thomas Aschroft, junior, aged 33 years, leaving a wife and three small children to lament the loss of a kind husband and an affectionate father. The deceased was the son-in law of Mr. William Pethick, Postmasterof Cornwall.

At Fort Wayne, Allin Co., Indiana, July 27th, after a few days illness, Mr. John McKenzie, aged 37 years. Deceased was brother of Alexander McKenzie, Confectioner, of this City.

Launched,

On the 27th ultimo, from the Shipyard of Mr. Samuel Kinley, Cape Wolf, a very superior copper-fastened juniper Brig of 241 tons N. M. and 310 tons O. M., called the "Maggie" built under Lloyd's inspection to class A 1 7 years, for Messrs James Duncan and & Co. of this City.

On Saturday last, from the Shipyard of Mr. Edwin Coffin, Mount Stewart, for the Executors to the Estate of the late James Peake, a fine juniper copper-fastened Bark, of about 360 tons, called the 'Lelia Alice.'

At St. Peter's, on Tuesday the 13th, from the Shipyard of Mr. William Hayden, for the Executors of the Estate of the late James Peake, a Brig of about 250 tons, called the 'Mary,' a fine juniper built, copper-fastened vessel, to class 7 years.

PORT OF CHARLOTTETOWN.

ENTERED.

Sept. 8—Schr Richmond, Dalton, Wallace, spars; Zebra, Mutch, Shediac, deals. 10—Str Franconia, Nickerson, Boston, merch; Nancy, McKay, Bay Verte, deals; Elizabeth, Campbell, Richibucto, deals: Perseverance, Atwater, Pictou, coal; Breeze, McLeod, do, do; Margaret, Mulling, do, do; Bee, Ogden, Bay Verte, deals; Dove, Chapman, Buctouche, boards. 12—Harriet White, Landrie, Boston, merch; Sea Breeze, Gallant, Harbor Bouche, gravel; Aurora, Campbell, Pictou, coal; Mount Vernon Reynolds, do, do; Ploughboy, Smith, do, do; Trial, Purdie, do, do; Brig Helen Davies, Campbell, Salt Cay, salt, merch. 13—Woodbine, Robertson, Pictou, coal; Terah, Lang, River Philip, deals.

CLEARED:

Sept. 9—A. Fifefield, Paoli, Pictou, bal; Zebra, Mutch, do do; William Henry, Delory, Canso, do. 10—Nancy, McKay, Shimogue, do; Bee, Ogden, Bay Verte, do; Lelia Ada, Bears, Pictou, do; Venus, Braddock, Port Hood, do. 12—Brig Ella, Ace, Liverpool, timber; Margaret, Mullins, Pictou, bal; Str Franconia, Nickerson, Halifax and Boston, goods. 13—Highland Mary, McKinnon, River Philip, bal: Mary Ann, Porter, Pugwash, do. 15 Helen, Pentz, Pictou, bal; Sophia, Delorey, Bay Verte, do; Sea Breeze, Gallant, do; Mount Vernon, Monaghan, do, do.

Arrivals in Europe from hence.

GRAVESEND, Aug. 25—Lotus, McDonald. Astrea, Taylor. 26—Delegate.

LIVERPOOL, August 21—Fasiferne. 28—Bark Undine.

GLOUCESTER, August 31—Superb, Tucker, from P. E. Island and Buctouche.

PILL, Aug. 19—Sailed Amity, Cook, for Port Hill. 18—Lady Seymour, for Quebec.

Passengers,

In the Princess of Wales, from Shediac, Sept. 10—Messrs McInnis, McKenna, Conley, Vincent, Slade, Mrs Slade, Mrs Bargess, Judge Ritchie, Lady and family, Cummings, Wallace, Strong, Crawford, Sharper, Walsh, Payson, McNeill, Beckford, Capt. Calhoun and family, Egan, McArthur, McNally, J. Yeo, McIntosh, Hopgood, J. McNeill, Calony, Fraser, Smith, Mr and Mrs G E'llis, Rev Mr Ross, McNeill and family, 2 Misses Bently, Miss Cousins, Miss Smith, Miss Vaughan, Miss Freeman, Miss Almon, and a lot of Emigrants.

In do. from Shediac, on Tuesday night—Mr and Mrs D Hodgson, S Carvell, Kane, Hayes, Mrs and Miss Heard, Edmonds, Barrow, Riddle, Robinson, Wright, Strawf, Crombie, Mr and Mrs Bean, Anderson, J Haviland and others.

In do. from Shediac, on Wednesday—J. Hazlewood, George Hodgson, R Peake, J H Sherman (American Consul) and Son, W McLeod, Rev Mr McElroy, McCann, Wilber, Bagnall, Aiton, McNabb, Barber, W Stewart, Mrs Levison, C McDonald, Kitchen, A Cameron, Battie, Tanton, Mr and Mrs Crawford, Miss Snelgrove, Miss Hall, Two Sisters Charity.

In the Heather Bell, from Picton, on Monday—Mr and Mrs Murrry and two daughters, Mr and Master Dalgleish, J McDonald and J McVane, W H Rice, Coverly, R & K McKenzie, Alex McLean and Mrs Grant.

In do. from Brule, Thursday night. W. Brown, Esq., Captain Taylor, Harrington, and several others.

In the Princess of Wales, from Pictou, Sept. 16—Mrs. Wilson, Chandler and Boy, L. McPherson, LePage, D. McNiell, Rev. J. Geddie, Miss Geddie, H. J. Cundall, Gray, Spence, Mr. and Mrs. Foster, Gardiner, Mrs. Peters, Miss Gray, Campbell, Levison, McKenzie and others.

In the Arabia, at Halifax, for P. E. Island—Wm Brown, Esq., Mr. Henry Cundall, Mr. F. LePage, Mr. and Mrs. Davies, Mrs. B. Davies, Mr. Harrington.

NEW ADVERTISEMENTS.

Juvenile Dancing.

MRS. BURRIS begs to inform the Gentry of Charlottetown and vicinity that her usual Dancing Classes for the season will be re-opened, for one term only, on the first MONDAY in October, from 4 to 6, p. m, or any hours in the afternoon that will suit parents or pupils.

A Class for Adults will also be opened, at 8 o'clock, same evening.

An arrangement will also be made with parties requiring private instruction.

September 19, 1864.

NEW ADVERTISEMENTS.

A CARD.

THE Subscriber having, for the last four months, been engaged in making large and important additions to his Factory, the CITY TANNERY, and which are now on the eve of completion, he deems the occasion to be one on which it most certainly behoves him to make some manifestation of the very grateful estimation in which he holds the liberal patronage which, for a period of six years—the time which has elapsed since he established his Factory—has been extended to him by his numerous friends in Town and Country; and which has not only incited him to the extension and improvement of his premises for manufacturing purposes, but also enabled him to meet the very heavy outlay thereby incurred.

To those friends, therefore, he now begs leave to tender his sincere and grateful acknowledgments for the very large amount of patronage for which he is already indebted to them; not doubting that his future endeavours, ON A MORE EXTENDED SCALE, to supply them, on the most reasonable terms, with the very best articles in his line, will, on their part, be met by a corresponding appreciation and encouragement of his enterprise.

The additions which he has made to his Factory, and the improvements which he has effected therein, are such as will enable him in future to manufacture about

Eight Thousand Sides of

SOLE LEATHER,

a year, besides his former usual quantity of UPPER LEATHER; and having, besides, succeeded in obtaining the services of an experienced

First Class Sole Leather Tanner,

from the United States, he confidently trusts that he shall have it in his power to offer to an appreciative public an article of SOLE LEATHER superior to any previously manufactured in the country, and fully equal to any imported.

W. B. DAWSON.

DENTISTRY,

Dr. Louis de Chevry,

Surgeon Dentist, (from Paris.)
Great George street, Charlottetown.

ARTIFICIAL TEETH inserted in every style, with such a close imitation of nature that the most skilful eye cannot discern the difference. The greatest care is bestowed upon the manufacture of the plates, and their make and finish bear evidence of fine workmanship. All dental operations are performed with professional dexterity. Teeth inserted with or without extracting the roots—the best substances are employed. All work warranted as represented. Prices moderate.

Advice given daily free of charge.

DENTIFRICE ELIXIR,

For Purifying the mouth and Preserving the Teeth, prepared by DR. DE CHEVRY, *Surgeon Dentist,* (from Paris.) This Elixir strengthens the gums, renders the breath agreeable and keeps the mouth in a constant state of freshness and health, and is indispensable to those wear artificial teeth. Directions—Put a few drops of the Elixir in a little water, dip the brush, and clean the Teeth as usual.

SUPERIOR TOOTH POWDER,

Infallible remedy for the Toothache.

☞ DR. DE CHEVRY will be found at his Office at all hours of the day.

Gas Cooking Range!!

THE cost of cooking by the above has been obtained by careful experiment, and is as here stated:—

12¼ lbs Bread, roasted in 42 minutes, consumes 4 feet Gas, cost 1 cent. 2 lbs Steak, broiled in 5 minutes, consumes ½ foot Gas, cost ⅛ of 1 cent. 1 quart Water, boiled in 9½ minutes, consumes 1 foot Gas, cost ¼ of 1 cent. 24 Breakfast Biscuit, baked in 12 minutes, consumes 1 foot Gas, cost 2½ mills. For roasting Meat the cost is but 1 cent per hour. For boiling, frying or stewing, the cost is but 1 cent per hour.

WM. MURPHY.
Gas Works, September 19, 1864.

Gas Stoves! Gas Stoves!

THE above are highly recommended for Hotel Rooms, Offices, Bath Rooms, Boudoirs, Dressing Rooms, Nurseries and Conservatories. In severe cold weather, the temperature of an ordinary sized apartment can by this apparatus be raised to 70 deg Fahrenheit in about ten minutes. The expense of keeping the room warm will be about one cent per hour.

Several short addresses and recitations, with Music vocal and instrumental, may be expected. TEA served at 3½ o'clock. Addresses to commence at 7½. Tickets 1s 6d.

☞ Should the day prove unfavorable the Tea will be held on the following day.

September 19th, 1864.

Ayer's Pills.

ARE you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take AYER'S PILLS, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, *they are rapidly and many of* them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Billious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses. They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the West, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO, Lowell, Mass.; and sold at wholesale and retail by

NOTICE TO FARMERS.

MANNY'S CELEBRATED MOWING and REAPING MACHINES, which save immense labour and money, have just arrived in the Steamer "Commerce". The subscriber expects that all agents and others wanting them will send their orders forthwith, as the supply is limited. Farmers who desire to preserve the life and health of their young hands, especially their females, who are so severely worked by the old mode of cutting grain crops, and who also desire to economise their money, will do well to secure one of the above named MACHINES as speedily as possible.
