ILL HEALTH A SIN.

Can be Avoided by Using Dodd's Dyspepsia Tablets.

Which Digest the Food in the Stomach, Makes New Rich Blood, Cures Constipation and Dyspepsia, Stimulate the Liver and Invigorate the Entire Body

No man has a right to be unhealthy, provided he can secure good health.

When the means of getting and keeping good health is within easy reach of every person, to be sick is a little short of a crime.

Take the case of a man has Dyspepsia. No one but himself knows how severely he suffers. Day and night, year in and year out, he bears the burden of his miserd, finding only fiery agonies in what to others brings satisfaction and pleasure.

Yet, all this time, a cure positive and unfailing is within his reach. A few boxes of Dodd's Dyspepsia Tablets will banish every vestige of his complaint, give him robust, vigorous health, in place of sickness, misery and constant pain.

Dyspepsia is the result of the presence in the stomach of a quantity of partially digested food.

Dodd's Dyspepsia Tablets cure Dyspepsia by removing its cause. They promptly digest the food in the stomach, converting it into fresh, rich, red, nourishing blood, on which the entire body is nourished and strengthened.

By thus removing the cause of the ailment, they banish the disease itself.

But Dodd's Dyspepsia Tablets do more than this. They tone, strengthen and stimulate the weakened muscles and glands of the stomach, and enable them to promptly digest the food.

With each box of Dodd's Dyspepsia Tablets, is a supply of small, brown tablets, that correct all irregularities of the liver and bowels, and put them in harmonious working order.

Thus Dodd's Dyspepsia Tablets digest the food, cure Dyspepsia, make new, rich blood, cure constipation, regulate the liver's and give health, strength and vigor to the whole body.

14 YEARS Without Cleaning

A watch was recently left with me to be repaired, which the owner stated had not been cleaned for 14 years.

But, mark you, it needs more than cleaning now, one of the pivots having been entirely worn away for want of oil.

I would like to impress on all owners of watches, (particularly fine watches) the importance of having your watch cared for at intervals not exceeding two years. I solicit your patronage, because I know that I can give you the best service obtainable.

Cost of Living Abroad.

An investigation into the comparative cost of living at the various European capitals resulted in the following facts: At Vienna the prices of most articles of food are lowest. At Madrid they are dearer than in any other capital, and such things as bread, meat, sugar and coal are very expensive indeed. At St. Petersburg also the price of bread is still considered a luxury above the means of the working classes. Next to Vienna, Brussels is an inexpensive city; Paris is a little higher in the scale, while London is still more expensive.

An American spends on an average $70 a year for food, a Frenchman $48, a German $45, a Spaniard $33, an Italian $24 and a Russian $40. Of meat the American eats 109 pounds a year, the Frenchman 87 pounds, the German 64 pounds, the Italian 28 pounds and the Russian 51 pounds. Of bread the American consumes 380 pounds, the Frenchman 540 pounds, the German 560 pounds, the Spaniard 480 pounds, the Italian 400 pounds and the Russian 655 pounds.

Outside of Europe, Manila is cheaper to live in than any other city in the world.

Not What He Wanted.

An exchange tells of the sad disappointment which came to an indigent young man at the hands of his sweetheart's stern parent.

"So you love my daughter, do you?" inquired this discouraging person. "Can you support her if I consent to the marriage?"

"I hoped," was the cheerful response, "that if you considered my suit favorably you could give me a situation where it would be possible for me to rise."

"I could," was the brief reply.

"Oh, thank you!" said the hopeful young man. "I"—

"I can give you a situation where you will have to rise about 5 o'clock every morning," was the disheartening announcement.

Bicycles in the Transvaal.

The Transvaal war will at least have the credit of being the first campaign in which bicycles have been employed by regular troops says the London Telegraph; and from the frequency with which they are mentioned in the telegrams, it is very evident that the riders are doing good service. This fact, coupled with the order of Sir Redvers Buller that departmental officers at bases might have the option of using their cycles instead of horses, and receive an allowance in lieu of rations, leads one to hope that the military authorities are at length beginning to perceive the practical value of the bicycle in warfare. For years they have slighted and snubbed it strangely enough in face of the declared opinions in its favor of Lord Wolseley and other distinguished officers. And it has been left to the volunteer to do what little has been done to show the military efficiency of the bicycle. Year after year, in the manoeuvres cyclists have proven themsleves of very great service to the regiments to which they have been attached; in spite, too, of the fact, that they have in many places been placed under the command of officers of the regulars who had only the most elementary idea of the capabilities and limitations of bicycles. Yet it is only within comparatively recent time that the authorities have recognized the cycle as a practicable vehicle for military purposes.
