MONTREAL (CP)—Delegates from across the country gathered here Monday for the 77th annual meeting of the women's auxiliary of the Anglican Church of Canada.

Miss Georges Vanier, wife of the Governor-General, honorary patron of the auxiliary, greeted the opening session.

"We may not have exactly the same opinion or communion," she said, "but only this and that matters, is that we have the unity of love."

Miss Vanier said that the governor-general's invitation, Bishop Ernest Reed, Bishop of Ottawa, had agreed to become chairman of a committee to study the future of the auxiliary.

Discussing the breakdown of family life, she said children today are growing up with no sense of responsibility.

"We don't place the blame on youth itself," she said, attributing part of the problem to the "casual and indifferent" attitude of adults toward young people.

She announced that women's auxiliary was joining with the Mothers' Union of Canada in efforts to study the breakdown of family life.

Miss Oler also said the ambition of the auxiliary to bring membership up to 75,000 had "fallen far short."

## India May Buy Atomic Plant From Canada

By JOHN E. BIRD  
CHALK RIVER, Ont. (CP)—India appears to be on the verge of building a big Canadian-designed nuclear plant for production of electricity and Pakistan is interested in a smaller Canadian station, an atomic symposium here was told here.

J. L. Gray, president of Atomic Energy of Canada Limited, made these disclosures in reporting further world-wide interest in the Canadian approach to economic production of electricity with atomic energy.

Mr. Gray told 90 engineers and executives from industrial companies and electrical utilities from across Canada that the Indian government has decided to build a 200,000-kilowatt power system of Canadian design providing satisfactory arrangements can be made with Canada.

He gave no further details except to say preliminary negotiations are under way. However, it is believed that satisfactory arrangements relate to the financing of the project which would involve an expenditure in the neighborhood of \$60,000,000.

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

"Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. This new substance has been developed with this innovative substance right in the privacy of their own homes without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations. And pain was promptly relieved, and while gently relieving pain, actual reduction in protrusion (shrinkage) took place.

And most amazing of all—this new "shrink" does not require any "special" diet.
