Ice Condition S' Side Couple To Observe 50th Wedding Anniversary

"There has been no improvement in the ice picture around Prince Edward Island in the past 24 hours," said R.E. MacNutt, district marine agent, last night.

A heavy ice field still stretches from west of Pictou, and the Island to Cape Breton and more than half way westward along the north shore, stretching out into the gulf almost to the Magdalen Islands.

With the mercury not rising very much over the freezing point over the water, and winds still prevailing from a northeasterly to northwesterly quarter, there is little hope of the situation easing during the next day or two.

Mr. MacNutt also reported that CCGS Wolfe, one of the government icebreakers stationed at Charlottetown, succeeded in freeing the MV Ferguson from the ice off Pictou Harbour yesterday forenoon.

After guiding the Ferguson out to open water, both ships continued on to Charlottetown, arriving here about 2 p.m. yesterday.

Westminster Choir Concert Concludes Successful Season

THE FOUR soloists and the choir director of the Westminster Choir of Princeton, N.J., which appeared last night at Queen Charlotte High School auditorium sponsored by the Community Concert Association. Left to right they are Thomas Weiss, Warren Martin, conductor; Dorothy Plumb, soprano; St. Clair and James Smith, who are currently touring the Maritimes and has made tours all over the world. The choir delighted the audience last night with a medley of songs from the various musical eras.

Westminster Choir Concert Concludes Successful Season

Frequent rounds of applause recorded the 40-voice Westminster Choir, showed the appreciation of the large audience that attended the season's final presentation sponsored by the Community Concert Association at Queen Charlotte High School auditorium last night.

The choir, under the direction of Warren Martin, presented a program which lasted two hours, and ranged from various choral masterpieces by Bach, Mozart and Beethoven, liberally interspersed with well known spirituals and folk songs of Canada and other countries.

This touring choir of Westminster College, Princeton, N.J., has, over a period of several years, obtained a name for itself unequalled by any other choir.

The singers, all in their late teens or early 20s, are students at Westminster, and the tours which embrace many countries are a very real portion of their education.

The choir recently completed book the group to 22 countries

Joseph Cook Installed Grand Master Of L.O.L.

The 102nd session of the Grand Orange Lodge of P.E.I. met in the United Baptist Church Hall, Murray River Wednesday.

Grand Master Davis Ward extended a hearty welcome to all officers and members and especially to the grand deputy master, members of the choir come from such countries as, Korea, India, Japan, China, Malaya, Canada, Argentina, Germany, France and Hungary.

Trovals for membership are held annually but no membership is taken until the grand master has approved the applicant. Each student must earn his membership by succeeding in the annual trovals, and must retain his membership throughout the season by maintaining a high academic average, notwithstanding the demands on his time by touring and professional appearances.

The members are chosen for beauty of voice, musical ability and outgoing personality, and their individual talents are blended into a singing organization that has delighted audiences on radio, television, at concert halls, and with major orchestras for many years.

JUDY DECIDES TO BUY WIG

TORONTO (CP)— Judy March says a cabinet minister has too good a job at his time.

So after her first three hectic 16-hour days in her new post, Mrs. March has decided the easiest way to do this is to buy a wig.

"I will not change her hair color though—her wig will be exactly the same color as her own hair."

PACKERS

(Continued from page 1)

for slaughtering is lower in Toronto and Winnipeg where the volume of slaughter is 15 to 20 times as great as on the Island.

Taking into account these factors and using the average of the live prices for live cattle at Toronto, Winnipeg and Charlottetown for the last six months, Mr. McLean showed how these prices are logically related.

FORMULA PRICE

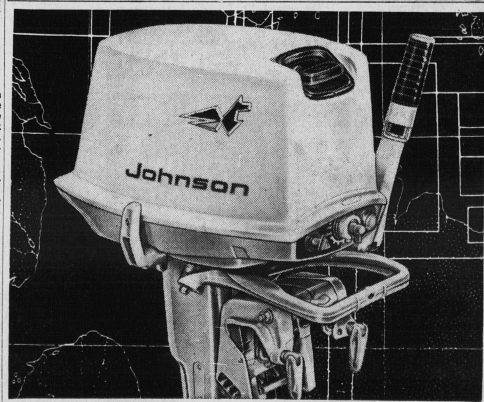

Spooking of the formula rail grade price which was agreed upon by the Supply and Beef Producers Association last summer, he said that this represents the equivalent of the cost of bringing beef in to the Maritimes from Western Canada.

"This formula price system was developed to assure that the P.E.I. can produce live beef which would receive for his cattle at least the equivalent of the cost of Western beef which is shipped to Maritime ports."

As originally agreed, Canada Packers was of course being willing to purchase cattle either on the rail grade formula price or, according to the producer's choice.

Early in December, because of a shortage in the supply of cattle in Western Canada, competition for the purchase of live cattle in 24 provinces and live prices going above the equivalent of the formula price. This meant that the live cattle price in P.E.I. was above its ordinary relationship with live cattle prices in Western Canada, Mr. McLean said.

"Naturally under these circumstances we purchased very few cattle on the formula price, actually an average of about one animal per week. During the period when prices bore this relation, we purchased virtually all our cattle alive."

Three Johnson compacts prove a little money can go a long way

Johnson compacts are amazing motors. Their initial cost is low yet their staying power is high. The compacts go a long way between gas stops (on 5 gallons of gas a 5½ can cruise for 11 hours). They only need servicing once a year and practically never see the inside of a repair shop. They start with the first pull and run religiously season after season. In the long run, a Johnson gives you more dogged dependability for your dollars than any other board at any price.

The compacts are light and trim. Bulk and weight is pared to a minimum. Underwater exhaust and beveled gears mean the compacts run quiet. They are long on features, other small outdoors skimping, full pump, thermostat-controlled cooling.

Find out how far your money will go. See the Johnson Compact 18, 10 and 5½ at your Johnson Dealers. With almost a thousand dealers across Canada service is never a problem when you own a Johnson.
