

He was informed by the Esquimaux, that they, the Esquimaux, reached the spot just in time to see the last man die of hunger, who was leaning against some object when discovered: he was too far gone to be saved.

Mr. Stewart has brought home the remains of a bow, having the name of Sir John Franklin on it, a hammer, kettle, part of a blue flag, and other articles belonging to the unfortunate vessel.

MR. LABOUCHERE, THE NEW SECRETARY FOR THE COLONIES.

In anticipation of the possible revival of the cry about "aristocratic monopoly," and "family cliques," it may be stated that, though on one point appearances may be against him, Mr. Labouchere has not become and long been an influential public man by virtue of lineage or connexion. It is true, that a year or two ago, as we perceive, he incurred whatever blame is attachable to marrying a sister of Lord Carlisle and of the Duchess of Sutherland; but, in mitigation, he may, we believe, plead that he himself has nothing offensively "aristocratic" in his derivation and claims. His lineage is similar to that of Sir Samuel Romilly, being derived from one of the French families expelled from their own country by the revocation of the edict of Nantes.

Mr. Labouchere's father, in truth, was not even an Englishman by birth, though ultimately becoming one of our merchant princes. In the last volume, just issued, of M. Thiers's *Histoire du Consulat et de l'Empire*, there are some interesting facts regarding the history of the new minister's father. He had settled as a banker in Holland, and had there married a sister of the late Lord Ashburton; and when in that position he was watched upon by the French and Dutch Governments to proceed (in 1810) on a secret mediatory mission to the British Cabinet. He is described by M. Thiers as "M. de Labouchere, chef respectable de la premiere maison de banque de Hollande, associe et gendre de M. Baring, qui etait de son cote chef de la premiere maison de Banque d'Angleterre."

In other documents of the time we find the emigrant called Myneer Peter Casar Labouchere. Mr. Labouchere, who was aided by his father-in-law, Mr. Baring, obtained a distinguished reception from the Marquis of Wellesley and other chief members of the British Cabinet, and is acknowledged to have performed his mission with great ability and integrity—acting, in truth, the part of a mediator in the interests of peace and commerce. At some subsequent period Monsieur or Myneer Labouchere settled in London as a merchant and banker, where he attained, and his firm or family still retain, great wealth and commercial eminence, and where the new Colonial Secretary was born in 1798.

Perhaps these things are worth a passing mention at a time when there is a ludicrous aptitude to raise a clamour against any public man who happens to count kin or connexion with any of the families of the aristocracy, and especially, strange to say, with any of these families who have most distinguished themselves by an advocacy of popular rights. It is almost thirty years since Mr. Labouchere entered Parliament, and twenty since he became a Privy Councillor. After gaining distinguished honours at Oxford, he became M. P. for the now extinct borough of St. Michael's in 1826, retaining that seat till 1830, since which he has sat uninterruptedly for the borough of Taunton. In 1832 he was made a Lord of the Admiralty, continuing in that position till the commencement of the short Peel-Wellington administration of 1834-5. On the return of the Liberals to office he was made Vice-President of the Board of Trade and Master of the Mint, and was in August, 1839, transferred to the Under-Secretaryship of the department of which he is now the head. Holding that office for only a short period, he became President of the Board of Trade until the fall of the Melbourne Ministry in 1848. On the formation of the Russell Ministry he became Chief Secretary for Ireland, the duties of which office he performed with great ability during the trying period of "the famine." He subsequently became again President of the Board of Trade, which he retained till the advent of the Peary Government. In all these positions Mr. Labouchere maintained the character of an able Administrator; and, besides being increasingly popular with his constituents, has remained one of the most influential and most thoroughly trusted men in the House of Commons. As an illustration of the character of the new Minister in a more personal sense, we may recall a fact greatly well remembered in the mercantile world. Having come by inheritance to a landed property, his predecessor in which had driven too hard a bargain with a railway company, he, unmasked and unexpected, and merely from a chivalrous sense of justice, returned the whole sum, £15,000, which had been exacted. The man of whose private dealings such things are truly told may well be trusted not to be found wanting in integrity and magnanimity in his place in public life—*Scotsman*.

Van Dieman's Land exists no longer, the Queen having acceded to a petition from the colony, praying that the name of Van Dieman's Land should be changed to "Tasmania."

It is said Gen. Canrobert is about to marry the daughter of one of the physicians of the Emperor, a beautiful lady, thirty-two years of age, who has hitherto rejected all proposals of marriage, and who will bring him as a dowry, an income of 150,000 francs. This is a match of the Emperor's making.

SPECIAL NOTICE.

We would refer our readers to the advertisements in this Paper of Comstock & Brother's Celebrated Medicines. The Cherry and Lungwort is the best remedy ever used for all Consumptive Affections. Azot's Turkish Balm, a beautiful Hair Restorative. Turkish Wine, better than any Alternative or Blood Purifier in existence. TRY THEM, and you will be convinced of their real worth.

THE GREAT AMERICAN HAIR TONIC.

Bogles celebrated Hyperion Fluid, for the growth and preservation of the Hair is well known to be without a rival on this continent. Hundreds of imitations have started into an ephemeral existence since the introduction of this unrivalled Hair restorative, and their doom never attained by any other article, goes on conquering and to conquer. There is no medicine which can affect the Hair but can be cured by this incomparable preparation. To induce it is invaluable; and on children's heads it lays the foundation of a good head of Hair. It is now patronized by Her Majesty the Queen of Great Britain, and commands an extensive sale throughout Europe.

Bogles's ELECTRIC HAIR DYE converts red or grey hair into a beautiful black or brown, the moment it is applied, literally dyeing the hair without staining the skin and leaving the Hair soft and glossy without injuring its texture in the least; a decided superiority over all other Hair-dyes.

Bogles's Amole Shaving compound renders that usually unpleasant operation (shaving) a decided luxury.

Bogles's Hebeon removes Freckles and tan from the face in the shortest possible time, and is acknowledged to be the very best article for beautifying the complexion.

DEATH

Can be and is being prevented in thousands of cases by this nature's own remedy

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT.

This medicine, unlike most of the patent remedies of the day is the result of the careful study and experiments of a scientific and experienced Physician. The two principal ingredients have long been known and celebrated.

WILD CHERRY BARK.

When the strength of this is properly extracted is the best medicine known for curing the worst Coughs and other Pulmonary diseases, it loosens the phlegm and enables the sufferer to expectorate easily, and alone will cure the worst cold or cough, which if neglected always leads to Consumption.

LUNGWORT.

This is a plant the virtues of which are known to but few, it has been said by the most learned men of all times, that "nature has provided a remedy for each and every disease," and the discoveries that are daily made, go to prove its truth. Lungwort is doubtless the remedy designed by nature for Consumption. Its healing properties are truly wonderful, and the rapidity with which it cures the worst cases of Ulcerated Lungs, scuffling and subduing all irritation, almost immediately, is a proof of its adaptation to this disease.

These two articles combined with other purely vegetable ingredients, form a medicine that is certain to cure the worst cases of Consumption if taken before the sufferer is entirely prostrated. Do not be discouraged, a trial can do no harm, but will convince the most sceptical of its real worth.

THOUSANDS OF CONSUMPTIVE

persons have been deceived repeatedly in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only palliative but a cure for ulcerated lungs. It contains no deleterious Drugs, and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the Lungs and Liver, such as Spitting of blood, Coughs, pain in the side and chest, night-sweats, &c. &c.

Caution.—To protect our own as well as the interest of the Consumptive sufferer, we are obliged to caution all to find the signature of COMSTOCK & BROTHER on the wrapper, without this it is a worthless counterfeit. Remember this.

VICTORIA HAIR GLOSS.

For preserving, strengthening, and Beautifying the Hair, and giving it a soft and Glossy appearance.

This is the most beautiful Perfume for the Toilette ever invented, and put up at so low a price, that it can be obtained by all. It gives a rich, glossy appearance to the Hair, softens and invigorates it, and imparts to it that soft and glossy appearance so much admired by all, and at the same time keeps the Head free from all Dandruff, and perfectly clean.

The recipe we have obtained from an English Chemist of high reputation, and we can confidently assure all that it is more than equal to all that we say in its praise.

THE VICTORIA HAIR GLOSS

stands pre eminent above all other articles as the best Toilette Perfume, the best Tonic for the Hair, and the most delightful article to use ever made.

TO THE LADIES:

This Hair Gloss serves all the purposes of a Hair Oil without rendering the Hair stiff or gummy. It makes it Soft and Glossy, and prevents its turning gray or falling out; and, notwithstanding this, it will not injure or grease the finest hat or collar.

It is an entirely new discovery in Chemistry, which, while it combines enough Oily matter to give the Hair the most beautiful, soft and glossy appearance, still will not injure or deface the finest silks.

THE VICTORIA HAIR GLOSS

is put in large bottles, with a splendid wrapper, on which is a PORTRAIT OF QUEEN VICTORIA AND PRINCE ALBERT. Always find this on the wrapper, and also our full signature, and you will get the genuine.

Price 25 cents per Bottle.

THEN FARMERS LOOK TO YOUR INTERESTS.

All of CARLTON'S GENUINE HORSE MEDICINES can be depended upon, and we pledge ourselves that no adulteration or depreciation of any of them shall be permitted by us.

"Carlton's Condition Powders" we have given to the Public a Medicine, which, as a General-Condition Medicine, is

"THE BEST IN THE WORLD."

The great changes of weather and season, with the change of use and food, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Bots, &c.; all of which will be prevented by giving one of these Powders twice or three times a year, and will at any time cure when any symptoms of disease appear, if used in time.

One Powder will cure the Horn Dissemper in Cattle without boring the horns, or doing any thing beside; and every Cow should have one given to her after calving.

CAUTION EXTRA.—A Medicine like this is always counterfeited by some. There are counterfeits in the market. Beware of imposition.

Never buy "Carlton's Condition Powders" without you find the full fac simile signature of J. CARLTON COMSTOCK on the wrapper.

Remember this, as there are imitations offered for sale, which are very hurtful to animals.

CARLTON'S BRITISH HEAVE POWDERS.

A never-failing cure for Heaves, Thick and Broken Wind, Colds, Coughs, Inflammation of the Lungs, and all Diseases which affect the Wind of Horses.

Carlton's articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farmer, and will cure in ninety-nine cases out of one hundred any of the above complaints. They have been used by Farmers, livery men, stage proprietors and others, with the most marked and decided success.

CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the Wrapper of each article. Remember this, as their articles have been extensively counterfeited of late, look and find the proprietor's name, J. Carlton Comstock &c., never buy without.

Youatt's celebrated Gargling Oil, for Man and Beast.

OR UNIVERSAL FAMILY LINIMENT.

The most wonderful External Application ever discovered! Better than any other Pain-killer, Liment or Gargling Oil ever invented.

This Oil is made from a recipe procured at great expense from a relative of "YOUATT," THE CELEBRATED ENGLISH FARRIER and AUTHOR of "YOUATT ON THE HORSE," who used it invariably when he required an external application.

Therefore we feel justified in saying that we believe all who try Youatt's Gargling Oil will find it better than all other Gargling Oils or Liments.

The use of this penetrating Fluid has been attended with unparalleled success in all the disorders of Horses which require an external application; such as Corks, Chafes or Galls, Cuts, Wounds, Sprains, Film in the Eye, Scarcenes, Cracked Heels, Strains of the shoulder, Stiff, Hough, Knee, Whirlbone, Fetlock, and of the Pastern and Coffin Joints, &c. &c.

This GARGLING OIL is likewise the best preparation ever known for Burns or Scalds, Weak or Stiff Joints, Swelling of the Glands of the Throat, Inflammatory and Chronic Rheumatism, Gout, Contracted Cords and Muscles; strengthens Weak Limbs, and enables those who are crippled to walk again.

We might add many Certificates from all parts of the country; but we simply ask all to TRY this remedy for any of the above complaints on Man or Beast, and they will be convinced that it is the most wonderful Liment ever known.

The YOUATT'S GARGLING OIL was at first intended only for the diseases of Horses; but experience has shown that it is a most efficacious and certain remedy for any of the complaints humanity is heir to, where an external application is necessary; and one trial will fully convince you that we do not exaggerate when we say, that its Pain-Killing, Healing and Strengthening properties are beyond any thing ever known.

Give this Article one trial, and you will never again be without it. It is put up in large bottles, at 25 cents per bottle, and is the BEST and CHEAPEST remedy ever invented.

CAUTION.—NEVER buy any GARGLING OIL, but Youatt's; be sure and ask for Youatt's Gargling Oil, and take no other, and you will be rewarded by a certain cure.

This is the Original and Genuine Gargling Oil; never buy it unless you find the full signature of COMSTOCK & BROTHER on the wrapper. All without this are worthless imitations.
